The new bathroom era

You have the new issue of our magazine in your hands. In this new edition we have decided to take a step forward and devote most of the content to offering solutions that improve the experiences of users in the bathroom.

A space that, for decades now, has stopped being a purely functional area to become a zone where we can find the warmth, comfort and relaxation we need to improve our physical and mental well-being. A reality that encourages us to continue developing products that meet the expectations of each one of the 135 markets in which we are present, markets that are supplied thanks to our 75 production plants and our more than 20,000 employees worldwide.

One of the most recent and relevant projects in which we have participated has been the renovation of the bathroom spaces of the Eiffel Tower with Roca bathroom fittings, some of which were especially manufactured in the original Venetian red of the Tower. According to the architect Alain Moatti, in charge of the remodelling, the choice of Roca was backed up by its values in design, technology and quality as well as by the high resistance of its products that make them ideal for their installation in public spaces with a high influx of visitors.

Apart from the Eiffel Tower, Roca has collaborated in many buildings and spaces improving their bathrooms, such as the Pantanal Estadio Arena of Brazil on the occasion of the celebration of the World Cup, the Bolshói Theatre, in Moscow or the Sheraton Huzhou Spring Resort Hotel, in China, one of the most luxurious hotels in Asia designed by the prestigious architect Ma Yansong. Major projects that prove our knowledge and experience enable us to create beautiful bathroom spaces for rooms and suites.

IDEAS AND TIPS HOME RENOVATIONS

Creating the bathroom haven

With the right ideas and a installation professional you can transform your bathroom into a space to be proud of and, more importantly, one which works for you.

Whether it's a small bathroom, a luxurious en-suite or a high-usage family bathroom these tips will allow you to design your own unique bathroom, making the most of whatever size and shape you have.

From planning through to the final installation we are here to help you make the most of your investment and avoid any costly mistakes.

The integrated headrest featured with **Malaga baths** provides a comfortable, sumptuous bathing experience. ECO options are also available featuring a lowered overflow, maintaining the depth of a standard bath.

P. 119

The **Lanta built-in shower mixers** provide a solution that allows you to save space due to its concealed elements built within the wall.

P. 82

For greater comfort, the **Prisma mirror** includes upper and lower LED lighting, a demister device is also featured at the back of the mirror.

P. 75

The **Prisma base unit** with integrated basin is an “all-in-one” solution optimising space featuring two large drawers, and one hidden internal drawer.

P. 58

In-Floor shower trays are designed to be installed at floor level, presenting a seamless finish look to your bathroom, whilst also providing a safe space to shower in thanks to its discreet anti-slip finish.

P. 125

Rimless technology featured in The Gap wall-hung toilet discourages unwanted germs which breed underneath standard toilet rims, hidden wall fixations and smooth design lines also provide an easy-to-clean surface.

P. 29

OPTIMIZE SPACE

Washbasins with integrated base unit are one of the most versatile, functional and aesthetic options to optimize space. Keep all your bathroom essentials out of sight yet handy to reach - creating a clear working space which is easy to keep clean and tidy.

INTEGRATE THE PRODUCTS

Maximise the space available by choosing **built-in shower mixers** which are installed within the wall, pair with a low-level shower tray installed at floor level for a seamless finished look.

MAXIMISE HYGIENE

Unwanted germs which breed underneath standard toilet rims are discouraged thanks to rimless technology, **rim-free toilets** provide a smooth surface which are easy to clean, water distributors included in the back of pan enhances the flow of water around the pan providing a clean, thorough flush.

Hidden wall fixations not only enhance the finished design look, they also provide a flat surface where dirt and dust cannot build-up over time.

CONSIDER THE ELECTRICAL NEEDS

Plan all your electrical requirements early in the process. Consider placing a light point where you intend to install the mirror. You will then be able to choose one with **LED lighting**, luxurious demister device or ambient light. If you choose a back-to-wall toilet with built-in cistern, an electric connection will allow you to install an **electronic operating plate** for a touchless activation of the flush, just with a simple gesture.

MAKE THE SPACE EVOLVE WITH LIGHTING

If your space needs to transform from a hard-working busy morning space to a relaxing indulgent place where you can unwind for the day, consider installing a variety of lighting options. Select from downlighters, wall lights and integrated mirror lights to create a combination which delivers the ambiance you need.

MAINTAIN THE BUDGET

Make it easier to plan and stick to your budget by agreeing the details of the project before you make a start. Changes can become expensive if they are requested after the work has started and can even delay the completion of your dream room.

IDEAS AND TIPS COMFORT

Your temple of well-being

Transforming a functional space into one of comfort and luxury is easy once you realise it's the details that make the difference.

The addition of an headrest on your bathtub, for example, could transform your long hot soak whilst optional hand grips lend a helping hand when it's time to get out, both available on the BeCool bathtub.

For taller people as well as those with back or joint problems you could also consider a "comfort height' WC which has been designed to sit slightly higher than a standard pan. The Meridian-N and The Gap collections from Roca both offer a height of 480mm compared with the standard 400mm height making for a far more comfortable position.

Hydromassage columns for the shower bring comfort and luxury, even on a budget, with controls which manage flow and temperature quickly and consistently for a comfortable showering experience every time. Don't forget the finishing touches like soft close seats, to literally keep the peace, and touch free controls on taps and mirrors for added luxury to your comfortable and relaxing bathroom.

Meridian-N compact collection / **P. 34**
Esmai tap / **P. 92**
Luna mirror / **P. 75**

A WORLD OF IDEAS FULL OF COMFORT

REDUCE NOISE FOR INCREASED COMFORT

Choose products with the soft-close system, they close softly and slowly, improving the durability of the product whilst creating a safer and quieter environment. Soft-close systems are available in toilet seats and furniture.

TOUCH-FREE ACTIVATION

Thanks to Touchless technology integrated in mirrors and operating panels, a simple wave of the hand is enough to activate the desired function.

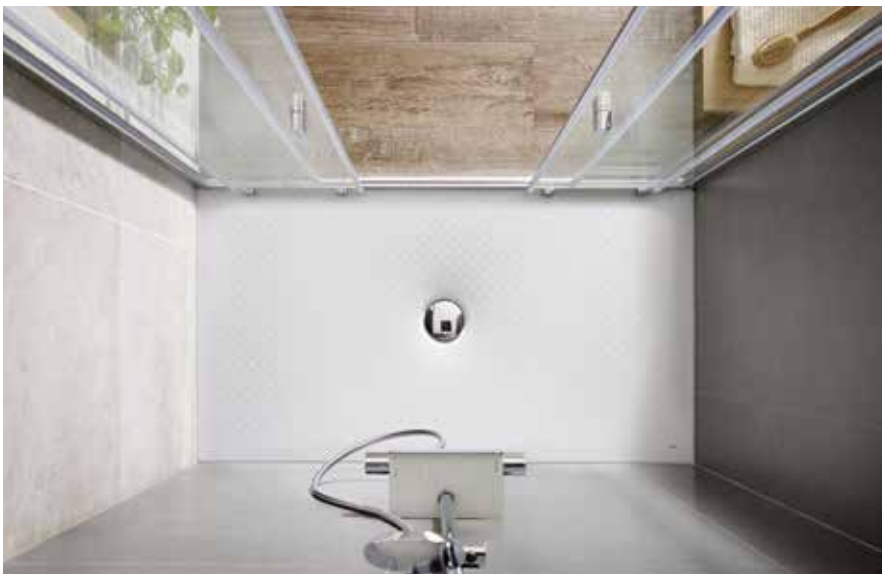
PRISMA MIRROR / P. 75

RAISE YOUR HEIGHTS

Comfort height toilets provide a comfortable solution for users who require additional support in the bathroom. The finished height of the pan sits at 480mm, which is on average 40mm higher than a standard toilet, ideal for users who may suffer from joint or back ailments.

THE GAP COMFORT HEIGHT / P. 29

MERIDIAN-N COMFORT HEIGHT / P. 29



LEAVE YOUR WORRIES BEHIND WHILE YOU SHOWER

Thanks to the excellent anti-slip feature of the **In-Floor shower trays** you will be able to enjoy a moment of relaxation without having to worry about anything, not even slipping.

IN-FLOOR SHOWER TRAY / P. 125

BRING THE SPA HOME

Create your own spa in the luxury of your own home with a **Hydromassage shower column**, indulge your senses with a cascade water spout, or invigorate them with body jets, there are various different functions available to choose from allowing you to enjoy a spa experience every day of the week.

ESSENTIAL / P. 111

POSITION THE TAP IN LINE WITH YOUR BASIN

Four available heights to choose from each designed to provide the most comfortable solution for your basin type, **standard height basin mixers** have been designed to suit vanity basins, **medium height basin mixers** pair perfectly with in-countertop basins, and **medium plus and extended height mixers** complement on-countertop basins.

ATLAS TAPS / P. 81

HAVE ALL YOUR SHOWERING ESSENTIALS CLOSE BY

Shampoo, conditioner, gel, sponge, shower cap… All you need for your shower ritual, always on hand and tidy thanks to the shower column with integrated shelf.

DECK-T SHOWER COLUMN / P. 113

EASY ACCESS TO ALL YOUR ITEMS

Keep your items well organised inside the furniture unit with the hidden internal drawer, and easily locate them thanks to the full extraction drawer system which allows you to access even the farthest of corners.

PRISMA BASE UNIT / P. 58

SAFE HAVEN

Create a safe environment for the whole family with thermostatic shower mixers, the Security 38° feature restricts the temperature to avoid scalding, providing a safe and comfortable bathing experience.

T-1000 / P. 104

TONING, INVIGORATING OR RELAXING SHOWER? CHOOSE WITH A SIMPLE CLICK

Easily switch between functions with the select button featured on the shower handset handle. All possibilities within your reach with a simple click.

PLENUM HAND-SHOWER / P. 107

TURN YOUR BATHROOM INTO A SPA

Whirlpool baths with hydromassage function will turn your bath experience into a moment of relaxation that will melt away all your daily worries.

BECOOL BATH WITH TOTAL PREMIUM HYDROMASSAGE / P. 117

CONDENSATION AWAY

The **demister device** will ensure that you always see your reflection clearly after bathing and showering, there's no need to wait for the mist to disappear.

DEMISTER DEVICE / P. 75

CHOOSE THE RIGHT LIGHT FOR EVERY OCCASION

Create different light settings for every use with **LED spotlights with adjustable temperature**, alter the light from a warmth glow to a bright white with the wall-mounted control.

SMARTLIGHT SPOTLIGHT / P. 75

IDEAS AND TIPS FAMILIES

Bathrooms for everyone

Start your day happy by streamlining the bathroom routines and making it as easy for everyone in your home to quickly and efficiently get ready for their day.

The bathroom is a space where rituals need to be played out efficiently, where all the family knows where to find their bathroom essentials quickly and put them away even quicker so the space can be returned to order ready for some serious evening relaxation after a long day.

The key? Storage, storage, storage.

SOLUTIONS FOR EVERYONE

RELAXATION

Bath time is your personal time for relaxation and therefore, the space, style and design is individual to you. Choose between different styles and material to suit you and your bathroom from the super luxury **Georgia one piece** or **Art Plus freestanding steel bath** to an Eco friendly water saving bath from the **Malaga** range.

GEORGIA BATH / P. 117

TIDINESS

There should be room for everything and each thing should find its own place in the bathroom. **Base units with three drawers** offer great storage capacity and the organising boxes keep everything perfectly tidy. If you still need more room because you do not want to leave anything in full view, you may combine them with an auxiliary unit or a cabinet mirror to win the battle against disorder.

VICTORIA-N BASE UNIT AND BASIN / P. 68

WATER

Water is a scarce resource. The **dual flush push buttons** on our cisterns and operating flush plates are indications of our awareness of the need to conserve water and our commitment in helping you not only to preserve but save on your water utility bills.

PL6 OPERATING PANEL / P. 53

FLEXIBILITY-TIME SAVING AND FLEXIBLE USE

Installing a double basin vanity can help with the morning rush hour and ease demand for the bathroom at this key time . No more taking turns for applying make-up, to shave, to wash your face or brush your teeth the **double basin** allows you to share time and space without comprising your small area of privacy whilst the **double vanity unit** provides you with individuality of storage space.

VICTORIA-N BASE UNIT AND BASIN / P. 68

ADAPTABILITY

To fulfil the modern family's desire for showering install a **slide shower bar with adjustable brackets** that adapts to everyone's height permitting flexibility and allowing the user the perfect shower no matter how tall they are.

VICTORIA-T / P. 103

ANTI-SLIP SHOWER TRAYS

Showering safely is paramount in our thoughts that's why all our shower trays have an anti-slip feature. The new **Terran STONEX® shower trays** have a textured finish that is pleasant to touch and an anti-slip feature that provides maximum safety during use.

Anti-slip feature	DIN 51097 norm
From 6° to 12°	–
From 12° to 18°	
From 18° to 24°	
More than 24°	✓

TERRAN SHOWER TRAY / P. 125

LEVELLED SHOWERS

Step inside and outside the shower without lifting your feet, the new **Terran STONEX® shower trays** are extra slim and can be installed level to the floor adaptable to any kind of surface. Another option would be use the In-Drain drainage system allowing you to install a shower tray made of tiles, giving continuity of design, look and integration of floor space.

IDEAS AND TIPS SMALL SPACES

Big ideas for small bathrooms

Escaping to your bathroom after a long day is something we all enjoy, but if your bathroom is more compact and cluttered than relaxing and spacious then help is at hand.

Forget about limitations, with careful planning it is possible to have space for everything you need whilst creating your dream bathroom.

Calling upon our years of experience, here's some design tips to help you discover that space restrictions are the best incentive to awakening your most creative side.

Mini base unit, basin and mirror / P. 72
Victoria tap / P. 96
Meridian-N WC / P. 34

Space restricted areas benefit from the installation of a smaller basin, the Debba Cloakroom Basin is compact yet maintains a generous bowl size.

P. 44

The Luna mirrored cabinet is the ideal solution to create extra storage with more than ample internal space for tidying away. The optional side units can extend the cabinet maximising the wall area available.

P. 75

Installation systems are designed to be installed behind the wall, a concealed cistern offers an alternative solution to traditional ceramic cisterns, providing a clean, finished look whilst saving space.

P. 49

FURNITURE

The key to optimising your space is storage. You'll always have more pots and potions than you ever realised, all of which need to cleared away easily to create more space both physically and visually. At Roca you'll find a great variety of finishes and sizes, some of which are available in a **compact version** - ideal for narrow or elongated bathrooms. Apart from the **compact furniture**, there is also a myriad of options for **freestanding units** to increase storage capacity. Thanks to their reduced dimensions, they can fit into any available space: under the basin, beside a radiator or even under a window.

Another ideal solution for small bathrooms are the **mirror cabinets**. With a minimal depth, they allow you to tidily store all your toiletries whilst freeing up the surface of the basin. You will have practical storage and a useful mirror in one comprehensive solution.

Once you have planned the space, consider the **furniture finish**. With many options available you might choose a bright white option or a gloss finish to reflect the light around the room, increasing the illusion of space.

VITREOUS CHINA

Creating an appearance of space can also be achieved through the use of **wall-hung toilets**. In this type of installation, the cistern is built into the wall, being concealed behind a flush plate, which can also provide a valuable shelving space. Another space saving option, without having to do any renovation work, would be to install a toilet with an **integrated tank**. An innovative solution that does not require a visible cistern, neither built-in nor conventional, as the toilet incorporates the cistern inside.

BRASSWARE

When it comes to choosing the most suitable taps, there are several models with slim and compact shapes that will work perfectly in a small bathroom. Finding a model that adjusts to your taste and with a suitable size will be a very easy task from the wide selection available from Roca, just remember to take a small spout if you have chosen a small washbasin to ensure the proportions are correct. There are also built-in taps. These designs, combined with narrower basins which do not require space for taps will help you gain more space, and allow you to free up the entire surface of the basin.

ACCESSORIES

The final touch to your bathroom will be the accessories. Resort to wall-mounted soap dishes, soap dispensers and glasses to make the most of space whilst keeping the basin area free from clutter. Apart from the installation with screws, some wall-mounted accessories can be fixed with adhesive, avoiding holes and ensuring a great resistance (up to 5 kg of static load).

Consider also placing large mirrors on walls to reflect the light around the room and visually increase the space. A co-ordinating set of towels in a single colour of choice will complete your new bathroom.

The compact version of the **L90 tap collection** offers a design with reduced heights, ideal for bathrooms with compact spaces.

P. 84

With a soft square shape, the **Select accessories collection** add a touch of elegance to your bathroom space

INNOVATIVE WCS

28 / In-Tank
29 / Comfort Height
29 / Rimless

ALL IN ONE SOLUTION

The first of its kind, In-Tank is a fully integrated cistern and WC, a compact solution which does not require the installation of a concealed cistern behind the wall.

P. 28

MAXIMUM HYGIENE

Rimless toilets available in The Gap and Nexo collections offer a hygienic solution, the elimination of the rim discourages unwanted germs which can often breed underneath standard toilet rims. A water distributor positioned at the back of the pan ensures the pan is thoroughly flushed even with smaller flush volumes.

P. 29

RAISED HEIGHTS

Comfort height toilets sit higher than standard toilets, designed for users who suffer from joint or back problems, the raised height helps assist with day-to-day needs, comfort height toilets are available in the Meridian-N and The Gap collections.

P. 29

INSTALLATION SYSTEMS

49 / Installation systems for WCs

52 / Installation systems for bidets and basins

53 / Operating panels for installation systems for WCs

FINISHING TOUCH

Complete your bathroom with the choice of nine different operating panels, available in various colour finishes, choose the PL6 operating panel for a modern look.

P. 53

TOUCH FREE OPERATING PANELS

Touch free flush, the EP-1 operating panel features an infrared sensor, program the panel to flush automatically or upon the wave of a hand. The black glass finish provides a sophisticated finishing touch, choose from four LED colours which illuminate the panel when operated.

P. 53

COMPACT SOLUTIONS

Smaller bathroom spaces benefit from the use of a concealed cistern installed behind the wall, Duplo WC Compact is slim in size, requiring less space to be built-in. Pair with a compact WC to maximise more space in your bathroom.

P. 49

Installation Systems

Acrylic bath panels

Luxury reinforced panels are reinforced with GRP to give them added strength and rigidity. A frame and clipping system are used for an easier, quicker and more accurate installation.

Reinforced standard and tall panels go through a two stage reinforcement process to make them strong, rigid, smooth and glossy.

Superthick panels are made from double thickness, high impact polystyrene.

SOPHISTICATION

The elegant range of wall tiles Hotel combines the industrial style with a touch of sophistication. Monochrome, with a range of neutral colours that do not need combining, this is the perfect decorative solution for design, architectural and sophisticated spaces.

P. 143

PERSONALITY

Chelsea is one of the multiple sides offered by ceramic cement to cover kitchens, bathroom spaces and other areas of the house with personality.

P. 144

VINTAGE

With a wide range of colours, the Colette collection of wall tiles, provides a vintage touch to the room thanks to its finish inspired by irregular cement.

10. Schmidt & Lackner
11. Roviras & Torrente
12. Herzog & de Meuron
13. Magma Design
14. Gabriele & Oscar Buratti
15. Joan Gaspar

Design

We surround ourselves with the world's finest architects and designers, such as Chipperfield, Moneo, Schmidt & Lackner, Herzog & de Meuron… We want to offer a design that will make your bathroom a unique space.

Innovation

We have our own Innovation Lab where we experiment every day with new ideas, designs and materials, with the sole aim of enhancing your bathroom experience and providing solutions to make your everyday life more comfortable.

Sustainability

We love our planet and we prove it every day. This is why our products have advanced water- and energy-saving devices that permit a balanced and sustainable coexistence with our environment.

Many of our products are registered with the Water Label Scheme, meaning they have been independently verified as being water efficient. Look out for the Water Label logo in the technical specification section.

The Roca Guarantee

Every one of the products we sell complies with all specific European regulations. We offer you the finest product with the best guarantee.
Our goal is your total satisfaction.

ROCA LOVES THE PLANET

The quality of Roca products has been acknowledged throughout the world.

2013
