DISCOVERY AWAITS

There's nothing like the freedom of being at sea, and we can help you reflect that same spirit in your vessels. Amtico Marine unlocks a world of creative possibility, with design-led, high-performance flooring made specifically for life on the water. Whether for calming cabin retreats or practical workspaces, our collection of marine-certified LVT brings together beauty, durability and complete design freedom. Backed by the MED wheelmark, UK ENSIGN and Transport for Canada, Amtico Marine is compliant with IMO SOLAS regulations, giving you confidence to create unforgettable spaces that perform to the highest marine standards.

MARINE

Made in Britain, built to sail the world.

With over 60 years of British flooring expertise, Amtico empowers designers with the ultimate freedom to transform maritime interiors. Combining technical excellence with exceptional creativity, Amtico Marine delivers flooring solutions that not only meet the highest performance standards but also inspire bold, memorable on-board experiences, all crafted with the quality and innovation Amtico is known for.

AMTICO MARINE ACCREDITATIONS

Amtico Marine is manufactured in compliance with the requirements of the International Maritime Organization (IMO) and the Safety of Life at Sea (SOLAS) Convention. It is approved by Lloyd's Register Marine Deutschland GmbH (LRMD) under the Marine Equipment Directive (MED), and by Lloyd's Register Marine Limited (LRM Ltd) under the UKCA Regulation. In addition, it is mutually recognised by Transport Canada and the United States Coast Guard (USCG).

Manor Oak - French Weave MCP116 & plank perimeter

Unmatched design. Unrivalled performance.

LVT offers the aesthetic appeal of natural wood or marble with none of the compromise. It's lighter, more resilient and significantly easier to maintain, ideal for the demands of marine vessels. Unlike traditional materials, Amtico Marine LVT won't warp, crack or stain, and it delivers the same luxurious look with superior durability, slip resistance and unrivalled performance.

Tailor-made Capabilities

Realise your vision with our Design Service to create a truly unique floor. Amtico Marine makes it easy to create distinctive and unforgettable on-board experiences with our bespoke Design Service, and the option to personalise and customise designs unique to your vision. This gives maritime designers the ultimate freedom to honour tradition, break boundaries or redefine elegance at sea.

Step 1

TALK THROUGH YOUR IDEAS

Think of your Marine Specialist as your go-to guide for when you need something outside of the ordinary - they are here to understand your needs, budget, and vision, and help make it all happen.

Step 2

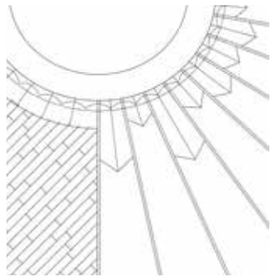
DESIGN YOUR SPACE

Our expert Design Service team will provide what you need - a creative vision of your future floor. This may include mood boards, visuals or CAD drawings. The process is collaborative and will be expertly managed through your Marine Specialist, to ensure that the final floor meets your specification.

Step 3

SUPPORT WITH EVERY STEP

Once you're completely happy, you can put your trust in us to make the process of ordering your personalised floor hassle-free, with clear visuals and CAD drawings. Your Marine Specialist will provide everything you need for a smooth delivery and installation.



Step 4

DELIVER YOUR VISION

Every bespoke design is test laid at our UK factory by our Quality team to ensure the highest standards of fit. This crucial part of the process means you can rely on Amtico to deliver what's needed, even with the most intricate design. Just sit back and watch your unique floor come to life.

Falun Oak - Chevron MCP111

CRUISE SHIPS

Amtico Marine LVT offers a wide palette of wood and stone designs to suit every on-board environment. Use bold patterns to define vibrant retail spaces, lounges, bar areas & fine dining - all with the same durable, marine-certified performance.

Design cohesion across every deck.

SPECIFY FOR

- Passenger & Crew Cabins
- Bar / Restaurant / Lobby / Lounge
- Shops & Retail Outlets
- Bridge / Medical Centre

Vesper - Uniform Tile

From cosy cabin retreats to vibrant dining areas, Amtico Marine helps you define spaces on-board with custom laying patterns and sector-specific design solutions. Backed by unrivalled marine performance and enhanced with an ionic silver additive for lasting hygiene, it ensures safe, durable flooring across high-footfall cruise environments.

ANTIMICROBIAL PROTECTION

Cruise ship bars and restaurants are high-traffic areas, making hygiene essential. Amtico Marine's antimicrobial properties provide an extra layer of protection, actively reducing bacteria by more than 99% within 24 hours compared to untreated polyethylene surfaces.*

*See page 75 for more information.

MP047 & Tollymore Oak - Small Parquet MCP143

Furrowed Oak - Stripwood & Fontana Marble White - Uniform Tile

Matlo Oak - Random Plank Large MCP150

FERRIES

Ferry interiors demand resilience and style. Amtico Marine meets both with high-performance LVT flooring that's slip resistant, hygienic and MED certified. A wide range of textures and finishes helps elevate passenger experience while supporting zoning, wayfinding and long-term durability.

Durable design for everyday journeys.

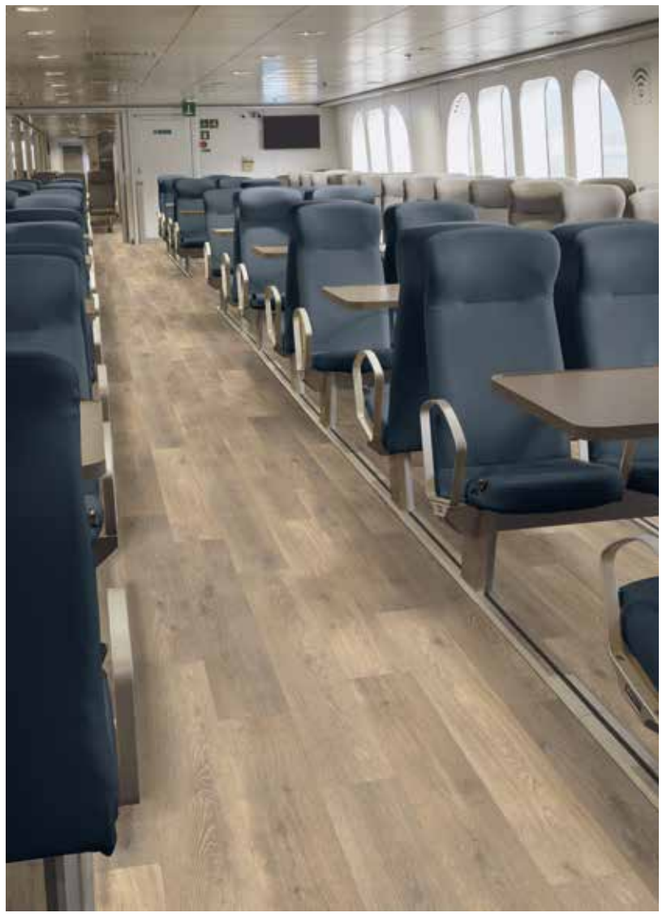
SPECIFY FOR

Dining Area / Cafeteria / Snack Bar

Observation Lounge / Seating Areas

Retail Area / Duty-free Shop

Bridge / Information Desk



Kirby Oak - Stripwood

From welcoming lounges to lively retail zones, Amtico Marine offers a broad choice of styles to complement ferry journeys. Wood and stone designs help define different zones while delivering durability, slip resistance and easy maintenance for high-footfall spaces.

AMTICO SAFETY

Ideal for high-traffic ferry lounges where safety and hygiene matter. With several layers of protection in a single tile, it meets the BS EN 13845 Enhanced Slip Standard and includes built-in antimicrobial features for added peace of mind.

Deptford Concrete - Uniform Tile & Stucco Quartz perimeter

Amalfi - Uniform Black & Pale Ash - Stripwood

Falun Oak - Stripwood

CHARTER FISHING BOATS

With unrivalled marine performance, hygiene protection and proven durability, our flooring helps create comfortable spaces that feel at once both practical and luxurious, even in the toughest conditions.

Comfort that lasts offshore.

SPECIFY FOR

- Passenger & Crew Cabins
- Galley Area
- Wheelhouse
- Passenger Seating Area

Traditional Oak - Deck Block & Marine Plain Black stripping

Amtico Marine brings a refined finish to compact charter fishing boat spaces, with warm woods and soft stones that create a homely, high-end feel. In cabins and communal areas, the flooring complements quality furnishings and materials, offering comfort, style and long-lasting performance.

MOTIFS, BORDERS & STRIPPING

Every space at sea has a story to tell. Our specialist Marine LVT gives you the freedom to create completely custom flooring that brings your unique vision to life. Our tailored motifs and personlised finishes make it possible to design interiors that reflect the character and purpose of your vessel.

Motifs for standout spaces.

Our motif designs push creative boundaries, offering dynamic visuals that bring modern flair to on-board interiors. Ideal for high-impact zones or a focal point, allowing designers to make a statement while still meeting rigorous marine safety and performance standards.

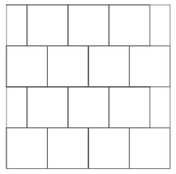
P&O Cruises

Arvia from P&O Cruises is an impressive vessel built by Meyer-Werft in Germany. At 344 metres long, it features a total of 16 decks and 2,614 guest cabins. Setting sail in 2022, Arvia's light and spacious interiors feature Amtico Marine in amenity areas, creating unforgettable experiences for customers while providing the highest industry safety standards.

Amtico Marine has been specified in The Olive Grove, a restaurant located on the Gala Deck, and throughout the retail spaces on the Parade Deck. The designs show the versatility of Amtico Marine, helping each area to achieve its own identity.

Laid in Bonded Stone, a simple laying pattern using standard square tiles, the overall finish gives a traditional aesthetic and celebrates authentic ceramic style.



Bonded Stone

Please note, the product used in this image was taken from our Signature collection and adapted to our Marine collection specification.

Credit: Alexander Rudolph

The planks have been laid in Herringbone and Stripwood with a beautifully balanced mix of the colours to create stunning feature areas. The overall effect is bright and creates a contemporary aesthetic for guests to admire while enjoying some retail therapy.

Herringbone Plank

Built to withstand all waters.

Amtico Marine is designed for all maritime vessels, combining superior performance with exceptional design. Compliant with all of the highest safety marine standards, it's engineered for durability and resilience as well as aesthetic standout.

- Light and resilient
- Highly flame and smoke resistant
- A low-emission product
- Hard-wearing

Flooring fit for the future.

SPECIFY AMTICO BIO

Amtico Bio is our first bio-attributed LVT flooring.

It is made with bio-attributed PVC, which replaces fossil fuel feedstocks with more sustainable renewable biomass alternatives. Specifying Amtico Bio reduces the embodied carbon of Amtico LVT by between 20 to 28%,* whilst still offering the same performance and finish.

We use carefully selected and audited sources of biomass to create the renewable ethylene that goes into our bio-attributed PVC. This includes by-products such as Crude Tall Oil (CTO) from trees and Used Cooking Oil (UCO).

Amtico Marine is available to specify with 36% bio-attributed content.

*Varies by range, see the Amtico Bio brochure for more details.

For safety beyond the surface.

SPECIFY AMTICO SAFETY

Most safety floors only have one additional safety layer. Amtico Safety flooring has several layers of safety, design and antimicrobial features.

All of our floors meet the BS EN 13845 Enhanced Slip Standard, taking our commitment to safety, hygiene and design far beyond surface level.

Added protection against bacteria and viruses.

BENEFIT FROM ANTIMICROBIAL PROTECTION

We add an antimicrobial ionic silver additive to our Quantum Guard Elite PU lacquer that provides a hygienic surface where bacteria and viruses will struggle to multiply or survive.

Embedded antimicrobials are not designed to replace cleaning and disinfection, but to provide an additional level of protection between regular cleaning cycles in high traffic spaces.

This has been independently tested to ISO 22196 and shown to reduce harmful bacteria, including MRSA and E. coli, by over 99.9%** within 24 hours compared to untreated polyethylene surfaces.

All our antimicrobial flooring achieves the same levels of high performance against sunlight, scuffs and stains and heavy traffic that you expect from any Amtico floor.

**ISO 22196 testing demonstrated ≥99.9% reduction of MRSA and E. coli on Quantum Guard Elite PU lacquer within 24 hours compared to untreated polyethylene film. ISO 21702:2019 testing demonstrated an 85.5% reduction of SARS-CoV-2 within 24 hours compared to inert glass. Applies only to Quantum Guard Elite PU lacquer. Contact your Amtico representative for details on Amtico options with the same antimicrobial protection.

MULTIPLE PERFORMANCE SYSTEM

- **A Quantum Guard Elite®**
  Amtico's patented urethane formula provides superior durability and resistance against abrasions and stains. The reinforced low gloss finish is highly realistic.
- **B High density 0.55 mm wear layer**
  Toughened upper layer, giving excellent impact resistance and high clarity, allowing the product designs to shine through.
- **C Design layer**
  Carefully crafted print films create the distinctive Amtico wood and stone product designs.
- **D Core layer**
  Enhances low smoke and flammability characteristics.
- **E Backing layer**
  The foundation of the product which provides long-lasting stability.

Accreditations

With Amtico Marine, our ethos is to unite design freedom with the highest levels of marine-certified quality. Every product in this collection is crafted to balance creativity with technical excellence, ensuring interiors not only inspire but also meet the rigorous standards required at sea.

2923/XXXX

8512/XXXX

Amtico Marine is manufactured in compliance with the requirements of the International Maritime Organization (IMO) and the Safety of Life at Sea (SOLAS) Convention. It is approved by Lloyd's Register Marine Deutschland GmbH (LRMD) under the Marine Equipment Directive (MED), and by Lloyd's Register Marine Limited (LRM Ltd) under the UKCA Regulation. In addition, it is mutually recognised by Transport Canada and the United States Coast Guard (USCG).

Amtico Marine has been certified to achieve the M1 building materials emissions classification for indoor air quality from the Finnish Information Foundation RTS.

Amtico is a member of the professional association for flexible floor covering manufacturers in Germany.

Our quality system complies with BS EN ISO 9001 and is certified by LRQA.

Amtico Marine products are third-party certified for low-VOC emissions contributing towards good indoor air quality.

Amtico products are manufactured within ISO 14001 compliant facilities.

ORTHO-PHTHALATE FREE

Amtico Marine products are manufactured using both ortho-phthalate free and biobased plasticisers.

Amtico International is proud to be affiliated with the Valobat Eco Organisation, whose objective is to collect and organise the end of life cycle of Amtico products in France.

Amtico Marine complies with Indoor Air Comfort Gold version 6.0 and is certified as a low-emissions product contributing to a healthy indoor environment.

Amtico Marine has GGT GreenRate Level A International certification.

TECHNICAL INFORMATION

View all the technical, installation and maintenance details.

Visit amtico.com for more information on our product range, inspiring ideas and maintenance and installation advice. Every effort is made to achieve accurate reproduction of products in this brochure; however, printing limitations can be misleading. Selection of products should be made from actual samples. Samples are small pieces cut from standard tiles. They give only a general indication of the design. Tone and shading can vary slightly from batch to batch and it is not possible to guarantee that the sample will exactly match the material supplied. The policy of the Company is one of continuous development and improvement and the right is reserved to add or delete from the range or change patterns without prior notification. All products are manufactured in line with EN ISO 10582. Brochure correct at the time of publication.
