Simple Patterns

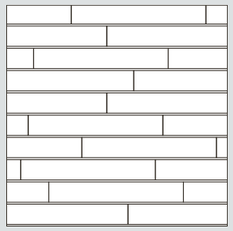

Pick any of our standard planks and tiles in one colour and size to create impact quickly with simple, timeless pattern options.

Wood

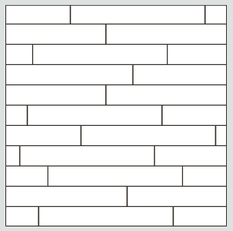

Herringbone Plank

Plank size:
184.2 x 1219.2 mm

Deck Block

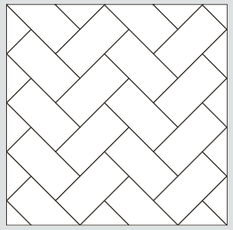

Plank size:
184.2 x 1219.2 mm

Stripwood

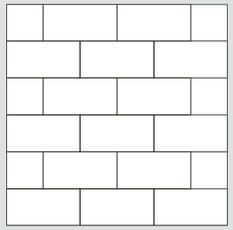

Plank size:
184.2 x 1219.2 mm

Stone

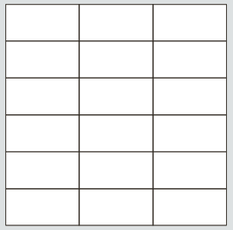

Herringbone Tile
Stripping optional

Tile size:
304.8 x 609.6 mm

Broken Bond
Stripping optional

Tile size:
304.8 x 609.6 mm

Uniform Block
Stripping optional

Tile size:
304.8 x 609.6 mm

Stripping

Add contrast and definition or create a grout effect. Choose stripping that complements the tone and materiality of planks and tiles, then combine them in one of our timeless patterns.

Brisk Stone SF3S4439

4.0 mm stripping represented in this example.

City Concrete SF3S4438

City Concrete laid in Broken Bond with Brisk Stone stripping

Feature stripping is available in the following size:*

4.0 mm x 914.4 mm

Brisk Stone SF3S4439

Dew Stone SF3S4437

City Concrete SF3S4438

Sun Washed Oak SF3W1026

Hunters Oak SF3W1032

Harris Timber SF3W1035

*Size shown is not actual size
Acoustic backing is not available on stripping

City Concrete – Broken Bond with Brisk Stone stripping

Performance

Clarence Marble – Broken Bond

18dB

What silence looks like

Specify Amtico Acoustic
Amtico Acoustic enhances the acoustic properties of LVT by reducing impact sound transmission by up to 18dB and also provides an extra level of comfort underfoot.

Amtico Acoustic brings another layer of performance and versatility to the design, quality and durability you expect from Amtico.

Added protection against bacteria and viruses

Antimicrobial Protection
We add an ionic silver additive to the urethane coating that provides a hygienic surface where bacteria and viruses will struggle to multiply or survive. Embedded antimicrobials are not designed to replace cleaning and disinfection, but to provide an additional level of protection between regular cleaning cycles in high traffic spaces.

Independently verified against E.Coli and MRSA, to ISO 22196, showing a reduction of >99.9% after 24hrs. Also tested against SARS-CoV-2, to ISO 21702, showing an 85.5% reduction after 24 hours compared to an untreated control, and a reduction of >99.9% against the initial inoculation.

All our antimicrobial flooring achieves the same levels of high performance against sunlight, scuffs and stains, and heavy traffic that you expect from any Amtico floor.

All products are Quantum Guard coated and micro-bevelled as standard. Please note all sizes and availability are correct at the time of punlication.

Accreditations

Our ethos is to combine creativity and innovation with the highest levels of quality – design, manufacturing, product and service.

Amtico First has been certified to achieve the M1 building materials emissions classification for indoor air quality from the Finnish Information Foundation RTS.

The CE mark is a confirmation by Amtico that our products are in compliance with European health, safety and environmental requirements (as required by Council Directive 89/106/EEC and detailed in EN 14041).

Amtico is a member of the professional association for flexible floor covering manufacturers in Germany.

Amtico International GmbH is a member of the DGNB German Sustainable Building Council.

Our Quality system complies with BS EN ISO 9001 and our Health & Safety management system complies with ISO 45001. Both are certified by LRQA.

Our Environmental management system complies with BS EN ISO 14001. This is certified by BSI.

Amtico First products are third-party certified for low-VOC emissions contributing towards good indoor air quality.

Amtico International are proud to be affiliated with the Valobat Eco Organisation, whose objective is to collect and organise the end of life cycle of Amtico products in France.

ORTHO-PHTHALATE FREE

Amtico First products are manufactured using ortho-phthalate free plasticisers.

Amtico First complies with Indoor Air Comfort Gold version 6.0 and is certified as a low-emissions product contributing to a healthy indoor environment.

Visit amtico.com for more information on our product range, inspiring ideas and maintenance and installation advice. Every effort is made to achieve accurate reproduction of products in this brochure; however, printing limitations can be misleading. Selection of products should be made from actual samples. Samples are small pieces cut from standard tiles. They give only a general indication of the design. Tone and shading can vary slightly from batch to batch and it is not possible to guarantee that the sample will exactly match the material supplied. The policy of the Company is one of continuous development and improvement and the right is reserved to add or delete from the range or change patterns without prior notification. All products are manufactured in line with EN ISO 10582. Brochure correct at the time of publication.
