LARSON·JUHL®

VOLUME 15

Welcome to LARSON JUHL®

Welcome to Larson-Juhl's 15th product catalogue which showcases our extensive range of mouldings. We are a one stop shop for all of your framing requirements; we have quality products to accommodate all styles and suit all price points.

Mouldings

Inside, you will find more than 2,000 mouldings from Larson-Juhl's core range.

The Larson-Juhl Signature Collection offers superb craftsmanship and quality with an abundance of styles to meet the most demanding framing requirements.

Designed to meet the needs of a wider market, our ever-popular Larson-Juhl range of Essential mouldings continues to be a huge hit with customers, with products to meet every framing need.

The Designer mouldings range is distributed exclusively by Larson-Juhl in the UK and offers a versatile collection of aluminium mouldings in a variety of colours and finishes.

Whether framing an old master or a piece of contemporary art, there is a moulding to suit every occasion.

The Frame Collection

Our consistently popular Frame Collection offers an extensive choice, including Decorative, Swept, Oval and Circle, Loft, and Overmantle frames. So whatever your customer is looking for, there is a frame to suit their needs.

Mountboard

Our wide range of UK manufactured mountboard comes in over 300 colours and styles, many of which are FSC certified.

Contact us if you want to see our mountboard colour chart which shows the actual cover paper used in our range.

Glass and Sundries

Please visit our website to view our extensive selection including our glass range: Clarity by Larson-Juhl.

Larson-Juhl Quality

Larson-Juhl leads the market in moulding development. Our innovative and dynamic approach is matched only by our commitment to craftsmanship, tradition and customer service.

To ensure we continue to offer the best possible service to our customers we use only the highest quality suppliers who meet our stringent demands of product quality and supply capabilities.

We have strict control procedures in place to ensure our stocks remain at a consistently high quality. All incoming mouldings are checked against master mouldings for correct specification, finish and quality.

www.larsonjuhl.co.uk | sales order line – 01234 852777 | uksales@larsonjuhl.com

Showroom

If you are looking for inspiration on how to freshen up your chevron displays, or just want to have a look at our latest products, you are welcome to visit our showroom in Bedford.

Relax in the comfort of our showroom and let your Area Sales Manager or our Customer Service Team show you our full moulding range. Designed with a 360 panoramic viewpoint from the centre of the room, and comfortable seating. Our versatile flexi boards allow you to remove moulding from the walls and create your own selections.

Contact your Area Sales Manager or call the Customer Service Team to arrange a visit.

Website

Our website is the best place to order and view all our mouldings – it showcases all our products and also provides live stock updates.

How to locate Mouldings

Larson-Juhl offers over 2,000 different mouldings in a wide range of styles and finishes to suit every framing requirement. Locating mouldings in this catalogue could not be simpler. Each type of moulding finish is listed in the contents section and all of the mouldings are indexed numerically at the back.

Next to each moulding, you will find the code, colour and a symbol to indicate the finish.

We have included a sustainability section so you can locate all FSC and PEFC certified mouldings in one section. The Larson-Juhl Signature Collection is featured together by range and our Essential mouldings are grouped by colour or type.

Although the catalogue represents our full range at the time of going to press, we are continually adding new and exciting mouldings to the range. Your Area Sales Manager or our Customer Service Team will be will be happy to update you with the latest additions or alternatively please visit our website.

If colour is critical we would recommend that you request samples before you order.

Please note: Dimensions are included for width, overall depth, rebate depth and rebate width.

The line measurements are precise; however, depth may look distorted against the image due to the angle of photography and as the measurement to the deepest part of the moulding is not always at the top of the image.

Free Sample Service

We are pleased to supply you with a free reference sample service for mouldings. Samples can be ordered on our website at www.larsonjuhl.co.uk.

Sustainability

At Larson-Juhl, we recognise the worldwide increase in environmental concerns about the sourcing of wood. In 2008, we were awarded the Chain of Custody Certification for both FSC (Forest Stewardship Council) and PEFC (Programme for the Endorsement of Forest Certification) schemes. Our certificate numbers are FSC: TT- COC-002824 and PEFC: BMT - PEFC -0682. This gives you the confidence that products carrying these labels are independently certified and managed to meet the social, economic and ecological needs of present and future generations.

Larson- Juhl has the widest range of FSC / PEFC mouldings in the industry and we will continue our focus on growing the number of sustainable products. We are currently working with suppliers to increase the range of certified products we offer and to ensure they're sourcing wood from environmentally sensitive sources.

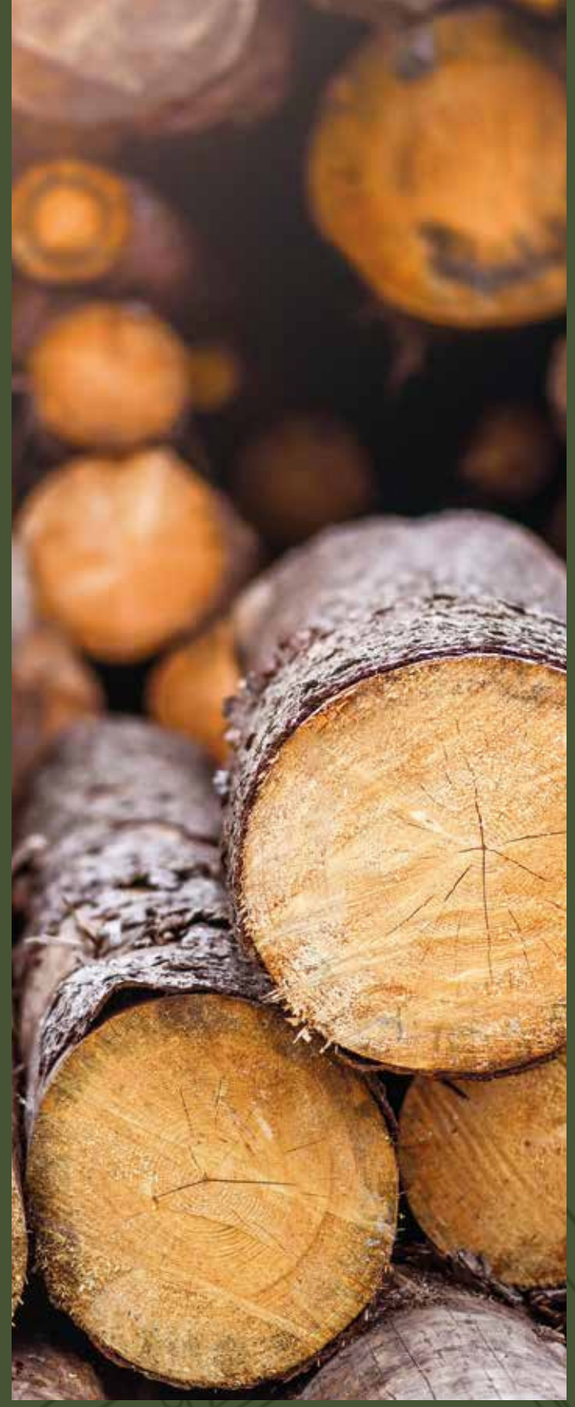
Sustainable Conservation

LARSON·JUHL®

Sustainability is a topic that we are incredibly passionate about at Larson-Juhl UK, and it is becoming ever-more popular with consumers too.

As a company, we believe in sustainable wood. We have the largest selection of FSC / PEFC certified mouldings for our customers and we will be increasing this offering in the coming years.



FSC / PEFC Ranges

We currently stock over 300 mouldings that are FSC or PEFC approved, all of which are made using timber that has been lumbered in compliance with sustainable forestry policies and are also fully recyclable. These include Andover, Chaise Longue, Driftwood and many more.

Chain of Custody

Larson-Juhl has full chain of custody ensuring that timber is tracked through every step of the supply chain from forest to shelf. This provides third party certification that products originate from certified forests with an unbroken path to the customer.

Chop Service

Using our chop service allows customers to order the exact amount of moulding that they require, reducing wastage. Not to mention that it's easier for framers!

Customer Service Centre

Bedford Link Logistics Park achieves a BREEAM rating of Very Good. This reflects a high standard of design in the areas of energy use, transportation, treatment of ecology, minimisation of pollution, health and wellbeing, management of the specification and construction process,
water use, materials selection, and waste in construction.

Larson-Juhl

Signature Collection

The Larson-Juhl Signature Collection is an exclusive selection of mouldings.

Superb craftsmanship and quality are the cornerstone of this collection. Ranging from the industrial look of Anvil to the faux leather appearance of Angus or the shabby chic distressed style of Brittany.
The mouldings vary to allow for refined modern tastes or classical, detailed and elaborate trends.

Angus

Angus comes in a luxurious leather like full wrap, durable and easy to work with. The material is stained and embossed to further its leather appearance, the look of fine aged leather. The finish is complex and very light reflective with a beautiful wax finish to further enhance its appeal.

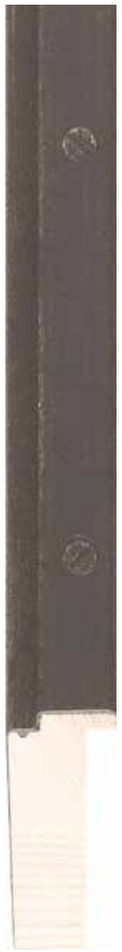
Anvil and Anvil II



Anvil offers a forged look or the look of reclaimed metal with a design element that enhances all types of home décor. Much care has been taken to also offer small hints of reflective light on the high spots to again enhance the real look of metal. Designed to pair with raw woods, the metal accents offer a hint of light and texture to simple wood collections.

The oiled steel finish has been toned to work well with black and white photography and offer a new option to those who prefer not to use black. The two classic finishes can be paired with the bolted or angle iron accents enhancers or caps, or used as stand alone for the industrial look.

SIGNATURE COLLECTION AURORA

Brittany

The Brittany collection offers a sophisticated edge to the shabby chic trend with the depth of its chipped, coloured layers and natural finish achieved in the manufacturing process which includes hand finishing steps. Brittany's four authentic French coastal finishes create a well rounded palette of tones.

Canaletto

Canaletto is a beautiful range of four colours and will suit all types of artwork. Canaletto also has two matching mountslips that enhance the silver and pewter tones. Canaletto is particulary nice to use when framing a grouping for the wall. The finishes and profiles work beautifully together, whether you use one profile in several colours or one finish in each profile, the end result is spectacular!

Carbon

Carbon is inspired by Yakisugi, the ancient technique of preserving wood through charring.

It is great for modern, contemporary or traditional styles with a rich midnight finish. It has a heavy texture and a foil finish which present a robust, charred aesthetic.

SIGNATURE COLLECTION CARBON

Colosseum is very classical in terms of look and feel, it was inspired by the magnificence of Ancient Rome and the stepped design of the world's most famous amphitheatre.

Bold and brave, this range is hand-finished in oxide black with a chamfered gun-metal back edge. Colosseum will enhance simple monochrome artwork as well as paintings that feature strong use of colour.

These mouldings will sit beautifully with silver, cream, grey and black mountboards, for example, and will work stacked together as well as individually. The striking black finish of Colosseum, which is created by using patina and layered foils, will complement a vast breadth of interiors.

SIGNATURE COLLECTION COLOSSEUM

Confetti and Confetti Fillets

Confetti is a range of cubic profile mouldings. If you want to add a splash of colour to your framing then look no further. Not only does the range work beautifully together, they introduce a new element to mix with many other moulding collections and mountboards, when an extra touch of colour is needed.

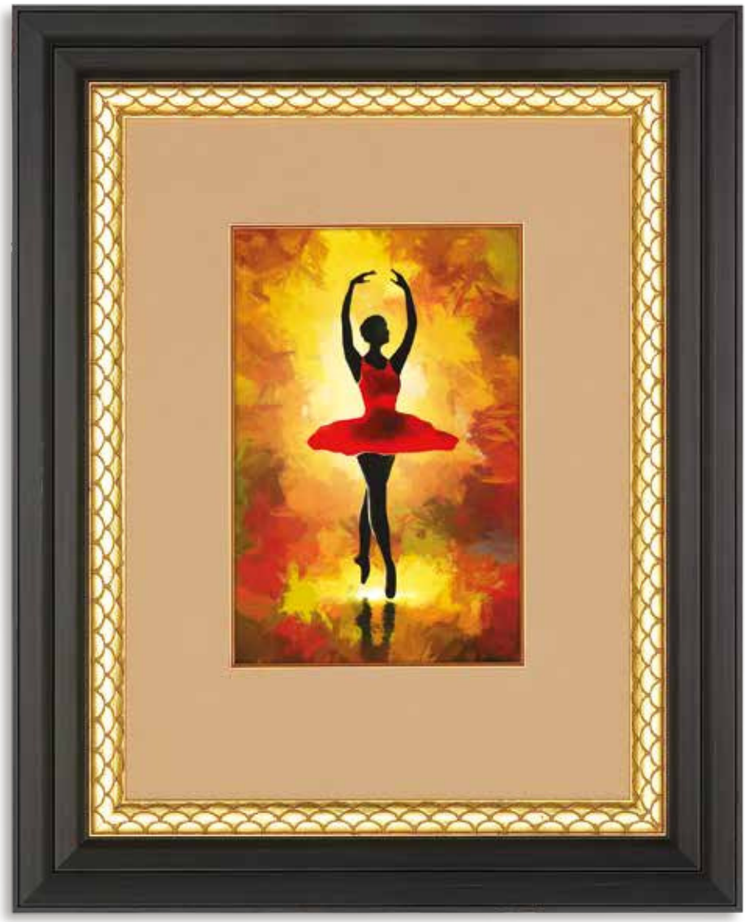
SIGNATURE COLLECTION CONFETTI

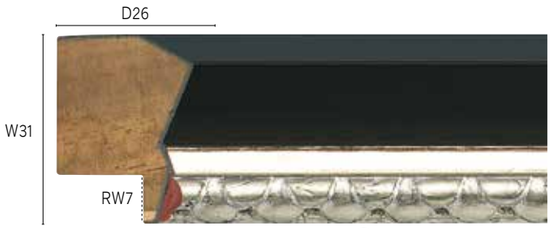
Deco

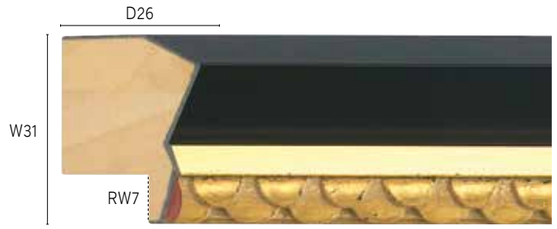
Deco is an exclusive collection of hand finished traditional French style mouldings offering a superb craftmanship and quality. Inspired by the grandeur and extravagance of bygone Europe, Deco is a classic range that will create a truly elegant look.



Moulding used

718 334





www.larsonjuhl.co.uk | sales order line – 01234 852777 | uksales@larsonjuhl.com

SIGNATURE COLLECTION DECO

Dresden

Dresden's traditionally textured satin Black Umber finish is combined with matte silver detailing and applied to classic profiles reshaped in a modern manner. This unique finish has a mottled, waxy look – as if the frame has been repainted, re-stained and refinished over the years. A subtle, rich brown tone peaks through the darker, black topcoat, adding depth to a soft, timeworn, satin finish.

SIGNATURE COLLECTION DRESDEN

Eiffel

Le Tour Eiffel, named for its engineer Gustav Eiffel, is one of the most iconic and most visited structures in the world. Located in the heart of Paris on the Champ de Mars, it reminds visitors (and those dreaming of visiting) why Paris is called the City of Lights. The metallic finishes in the collection mimic the wrought iron used to construct all 984 feet, and the profile's texture is reminiscent of Eiffel's lattice pattern.

Florentina I and II

Florentina offers both warm and cool colours with metallic gold accents, creating a broad colour palette for endless opportunities in framing design. Each colour reacts in such a unique way with the oxidization process that Florentina creates a truly distinctive collection. Florentina's hues are an exceptional choice for use as a liner in creative stacking combinations with other Larson-Juhl mouldings.

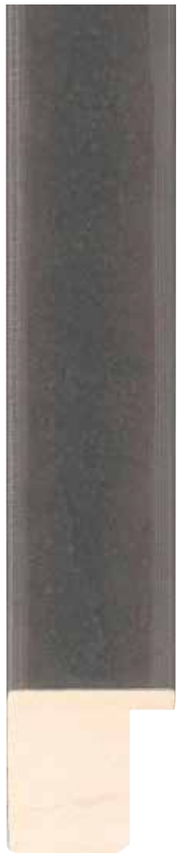
Foundry



Aged metallic finishes and contemporary urban styling have come together to create Foundry. Embodying the essence of raw materials in an industrial age, the Foundry range of transitional geometric profiles provide a timeless sophisticated look that is ideal for not only traditional oil paintings but also more modern black and white photography. Featuring matte patinas and worn metal edges they add a sense of age and a very definite sheen which perfectly contrast lustreless panels.

Sofia

Named after the capital city of Bulgaria, the Sofia frame collection reflects the classic beauty of this ancient city. There are two unique metallic finishes in the Sofia frame collection. The Iron and Silver luminous finishes highlight the beauty of the ornamental frames, and the hand applied matte patina adds a subtle, soft antiquing.

Soho

Soho is a contemporary collection of smooth black satin finish mouldings with contrasting gold and silver accents. Named after the cosmopolitan neighbourhood of New York ‘South of Houston’ where much of the contemporary art world began, Soho ideally complements black and white photography and abstract art. We believe that the range offers an excellent alternative to metal mouldings when crisp, geometric lines are needed.

SIGNATURE COLLECTION SOHO

Spoleto

Spoleto is inspired by the ancient Italian city, that dates back to the bronze age. This collection answers the interest in vintage repurposed with a modern and sleek twist. Soft texture and layered metallic lend a modern aesthetic. Ideal for framing contemporary art, botanicals or modern photography with versatile profiles in a range of soft metallic finishes.

Tate

Tate was developed to fill the need for a new cold Silver in simple, modern shapes. At the same time, we also saw the opportunity to enhance the collection by adding a complementary burnished Black. Both finishes have subtle burnishing which adds sophistication and will make them both production and handling friendly. It is a functional collection forming a contemporary building block, in the Larson-Juhl line – whether used as a classic stand alone item or by adding its slick modern edge to stacked combinations.

SIGNATURE COLLECTION TATE

Whitman

Whitman's look is unique and handcrafted which will stand out in the market. Each length is a work of art, uniquely crafted by hand. Hand brushed/painted finishes are highly creative and provide design innovation. Hand applied hot gesso is the primary feature of the dark brown with visible brushstrokes. The soft textured look has the elegance of a fine European antique. To add definition to both colours soft champagne highlights and finely detailed compo elements are also featured on several items in the range.

Zen

Zen's four calming finishes complement countless types of artwork including black and white photography, Asian inspired art and abstract paintings. Profile 411, with its simple, contemporary shape and gentle hammered, contrasting lip, is the perfect choice for photography, drawings and engraving. Profile 431 adds drama and depth with its deep rebate, the top edge highlighted with a hand-hewn hammered look and the inward sloping angle, gently draws focus to the artwork. This profile is a fantastic option for framing canvasses and three-dimensional work.

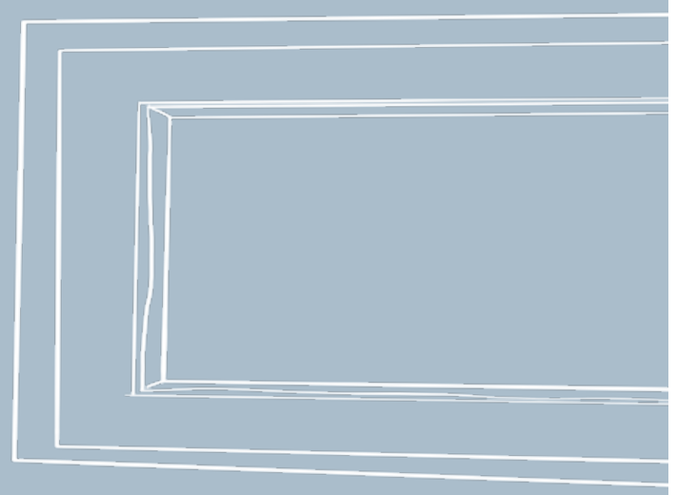
Aluminium Wrapped Wood



Aluminium Wrapped Wood

Frames made with these mouldings have all the appearance of being made from conventional extruded aluminium, which to most framers would normally mean buying in pre-mitred cut lengths in kit form – a process that can add at least 24 hours to a job.

These mouldings have the advantage of being constructed with a thin aluminium skin wrapped on wood, which means that mitres can be cut on a Morsø machine or circular saw and frames are then finished in the same way as regular moulding.

The mouldings are supplied protected by a thin plastic film which will prevent any scratches to the aluminium surface during frame construction and is easily removed before collection by the customer.

COLOURED LACQUER

Plain and Decorative Wood

Plain and Decorative Wood

With a trend for warmer, darker and moodier hues, our collection of dark wood mouldings will help complement traditional décor or bring a unique natural feel to a piece of artwork.

Key ranges include the warm browns and wonderfully textured patterns of Navarra and the natural tones of the Simplicity range.

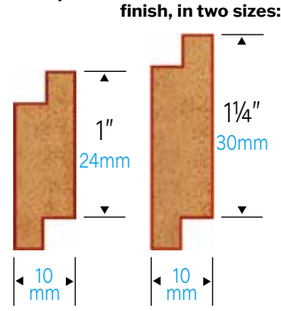
FrameBox®

FrameBox® allows any 3-dimensional item to be framed quickly and simply

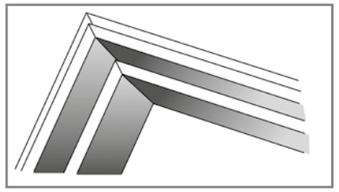
FrameBox® eliminates the need for deep rebate frames, which can be expensive and limited in size.

With FrameBox®, any depth can be achieved, allowing those previously 'impossible' items to be framed quickly, easily and at a more affordable cost.

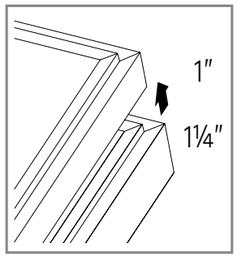
FrameBox® mouldings are available in Barefaced!® finish, in two sizes:



Framebox 24 **Framebox 30**



Flip FrameBoxes® to create a reducing perspective effect.



Use two or more in any combination to create special size FrameBoxes®

Hints and Advice

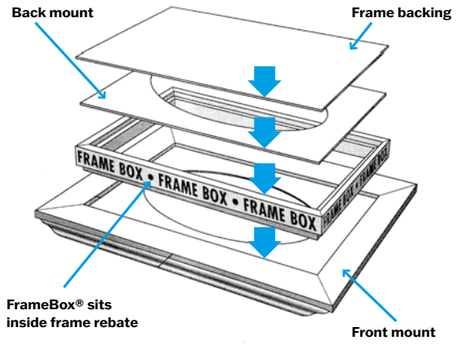
- For a permanent fitting, FrameBox® may be secured in place using PVA wood glue.
- A silicone sealant is recommended for the easier removal of your FrameBox® at a later date.

This unique product allows the framer to add a deep box to any picture frame – using exactly the same equipment to mitre and underpin that they already use to make an ordinary frame – and can accommodate items of varying depth:

- 3D Decoupage Paper Sculpture
- Wedding Bouquets
- Butterflies
- Decorative Plates and Thimbles
- Collectors Items
- Sugarcraft
- Medals and Coins
- Special Editions
- Hole-in-One Golf Balls
- Dried Flower Arrangements
- Models – Dinky Toys

FrameBox® turns any frame into a Deep Box Frame

Back mount and frame backing sit inside FrameBox® rebate:



The FrameBox® logo and design are protected by Registered Patent.

Barefaced!

Larson-Juhl's Arrow-Head is designed for canvas artwork and involves a stretcher bar moulding made in pine, with a specially created groove, together with plastic Arrow-Head fixings. Framers simply cut appropriate lengths of moulding to size, then using an Arrow-Head in each corner create the basic structure of the frame; they then wrap the canvas around and finally secure it in place with staples. The Arrow-Heads are then tapped into the four corner joints with a hammer – an integral steel tensioner incorporated into the hard plastic Arrow-Head tightens the canvas. This stretches the canvas artwork to the desired tension.

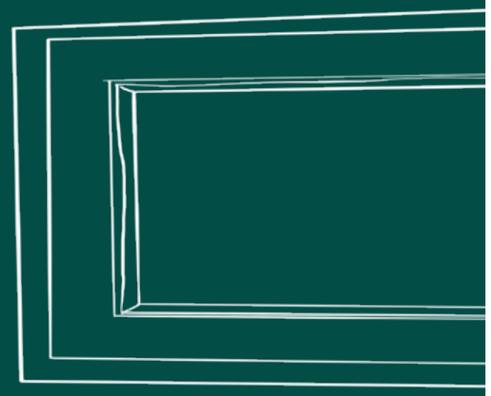
INSETS



Designer Aluminium framing system and mitre service

Aluminium framing system

The LJ Aluminium range is distributed in the UK exclusively by Larson-Juhl.

There are 14 different profiles available in a wide choice of colours and finishes. Overleaf we illustrate all 31 colours, the Artel finishes are actually bonded to the metal for unparalleled scratch resistance and corner cuts that won't chip or flake.

Aluminium framing mitre service

We operate, nationwide, the Designer Mouldings Mitre Service, which can supply framing kits of precut mitred aluminium mouldings. Each frame kit is supplied complete with corner brackets, spring clips, hangers and wall protection bumpers.

Swept Frames

When you want a traditional frame with that little bit extra, take a look at Larson-Juhl's range of swept frames. Available in gold, silver, black, white or walnut colours, some feature linen slips for a touch of luxury! These beautiful carved frames come in a variety of widths from 1" to 5.5" and some are also available 'pierced'.

Proportional Profiles

A selection of Larson-Juhl's oval and circle frames are available as proportional profiles.

Quite simply, as the size of the frame increases so the width of the profile increases – proportionally. So, if you need a variety of frame sizes in your display but want to keep each in balance with the other, these are ideal.

Oval

25mm profile width	32mm profile width	52mm profile width
9 x 12cm	20 x 25cm	40 x 50cm
13 x 18cm	24 x 30cm	
15 x 20cm	28 x 35cm	
	30 x 40cm	

Circle

25mm profile width	32mm profile width	40mm profile width	52mm profile width
10cm	20cm	40cm	50cm
15cm	24cm		
	30cm		

200	4″ x 5″	9 x 12cm
