Inherently flame retardant woven collection

Soho Collection

Art Deco and Gatsby, major 1920`s sources of interior inspiration are a key influence in the SOHO CLUB collection; mixing metallic effect yarns with flat blocks of colour and incorporating lines to enhance the decadence of the glamour around the DECO era. The combination of scale and geometric pattern bring infinite new possibilities to classical expressiveness, all very indicative of the 20`s and 30`s period.

BURLINGTON, the main feature pattern, draws inspiration from intricate modern architecture in its grandest form; whilst GROSVENOR captures this in miniature. ELIXIR endorses the myriad of gold and monotone hues and sparkles exuding the glamour of this period. BELGRAVIA takes a more subtle approach to the line pattern. The graphics and scale of EATON and BOND make versatile accessories and echo the geometrical edifices of New York architecture in the 1920`s. DELUXE, a new upholstery velvet, exudes opulence whilst the new upholstery BROMPTON takes on a more masculine character; both easy to use and echoing the look of the period. A variety of sheers are used to compliment the overall experience.

Colour in SOHO CLUB takes on a historical note, but with a modern twist. Damson, teal, copper and cobalt add newness, whilst black and gold, clay and seal evoke the true colours of the sumptuous Art Deco era.

Independently tested for UK and International FR standards. Wide width (280cm / 110 inches) also available, ask for further details.
