58 All the details

INTRODUCTION

Nature continues to amaze us, providing comfort and reassurance in our lives while at the same time being an important source of inspiration for fashion, interior and art.

The Transition collection was borne from a desire to bring the architecture of nature into today's modern, professional interiors. Directly inspired by nature's own virtuous, recycling process with seeds transforming into mature, flourishing foliage that eventually will crumble into delicate textures only to become seeds again for a new beginning.

Irregular textures, layers and structures from outdoors are translated into interior designs reflecting key elements of this seasonal cycle: Seed, Leaf and Fibre. The organic tactility and sensuous feeling of these materials are defined by a multi-level loop construction that adds depth and interesting detail to the patterns and colours.

The three designs are available in an extensive range of soft and faded colours reflecting the hues of nature. They've been carefully researched, coordinated and selected in terms of the role they play in facilitating good physical and mental health. Greys and browns from the earth provide a soothing, safe and solid ambience, while greens and blues bring us new energy, creativity and optimism.

Available in tiles, planks and wall-to-wall, the options for creating one-of-a-kind floor designs are endless. And with Transition Mix tiles in 48x48 cm, the collection includes an additional design feature that can help produce the most delicate colour flows across the floor.

Olivier Saguez, designer and Valérie Jelger, graphic designer

Seed
Seeds fall from their pods onto the ground as tiny, promising dots that mark the beginning of new life.

Leaf
Clusters of leaves create multi-tonal and coloured foliage for a sensuous and nurturing feeling.

Fibre
Plants wither and break down into delicate, dry textures revealing the most refined patterns and lines.

The designer
Established in 2004, Manganèse Éditions is little sister of the internationally acclaimed design and branding agency Saguez & Partners. Based in Paris, Manganèse uses a refined, poetic and timeless approach to create the story of a place. With in-depth knowledge and research into style and colour, they design places and furnishings that are easy to live with and comfortable to use.

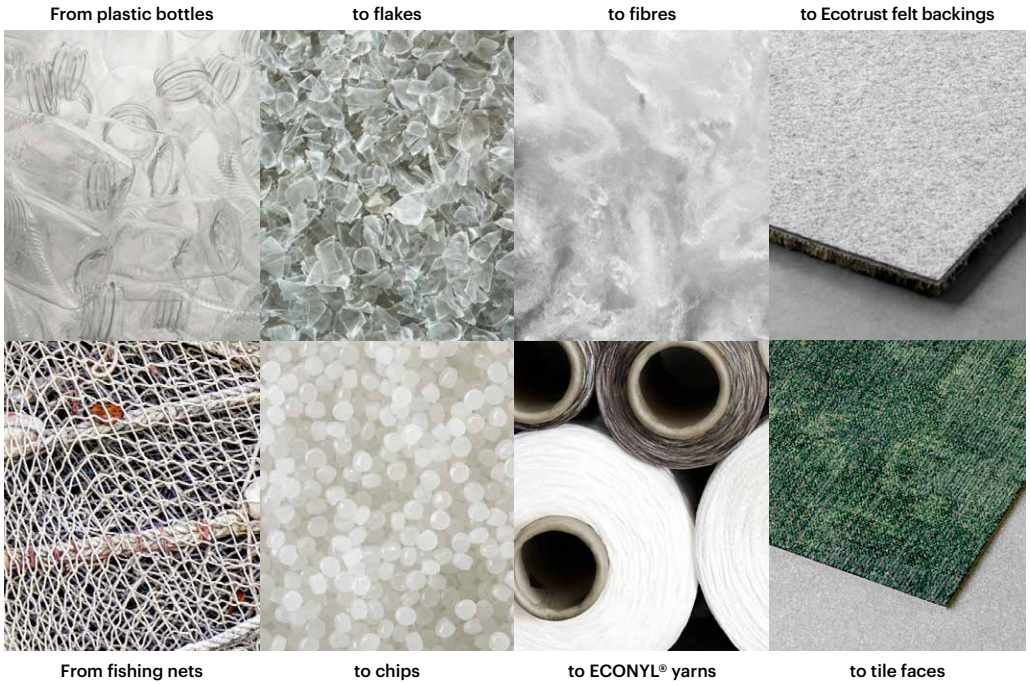
WASTE IS NOT WASTE UNTIL IT'S WASTED

The Transition collection is made from eco-responsible materials underpinning its close link to nature. And bearing the Cradle to Cradle Certification, it's a truly green choice for your next flooring project.

We turn used plastic bottles into our Ecotrust felt backing. Bottles are transformed into a soft yet strong PET felt material that is long lasting and has great acoustic performance. All our carpet tiles and planks come with this unique, patented backing.

Abandoned fishing nets and other industrial waste are used for the ECONYL® yarns that are used in many of our carpet constructions. Fishing nets account for one tenth of the waste in the ocean and can drift for months and be a threat to sea life. Once collected, the fishing nets are cleaned, broken down and reborn as strong, hardwearing yarns that are both regenerated and regenerable.

We challenge the industry standards and rethink how aesthetics, quality and sustainability can be combined. Not only in terms of materials but in everything we do, and we invite you to follow The Green Thread with us. Read more about our sustainable ambitions and achievements at egecarpets.com.



TRANSITION

There are three patterns in the collection; Seed, Leaf and Fibre. All available as carpet tiles, planks or wall-to-wall carpet offering a multitude of design options for the floorspace.

With the Transition collection, you can create distinctive and functional spaces that offer flexibility and variability in their expression and performance. To help you make the most of your floor, you can choose from a variety of carpet products that will match your preferences and requirements.

Carpet tiles and planks offer a high level of flexibility that's especially suited to modern, dynamic interiors. The square carpet tile is available in two sizes; 48x48 cm or 96x96 cm and the rectangular plank comes as 24x96 cm. It's a great visual toolbox where you can achieve very different looks depending on the size you choose.

The three patterns come in a wide palette of contemporary colours from subtle neutrals to more confident tones carefully coordinated for perfect combinations. It allows you to experiment with different spatial options that help to define areas such as meeting points and quiet or communal zones, as well as catering to social distancing requirements and wayfinding.

All the Transition designs can be unfolded onto a continuous and unbroken surface when using wall-to-wall carpet, available at a width of 4 metres.

"Different sizes for different needs. Experiment with the options to create inspiring, functional floor designs"

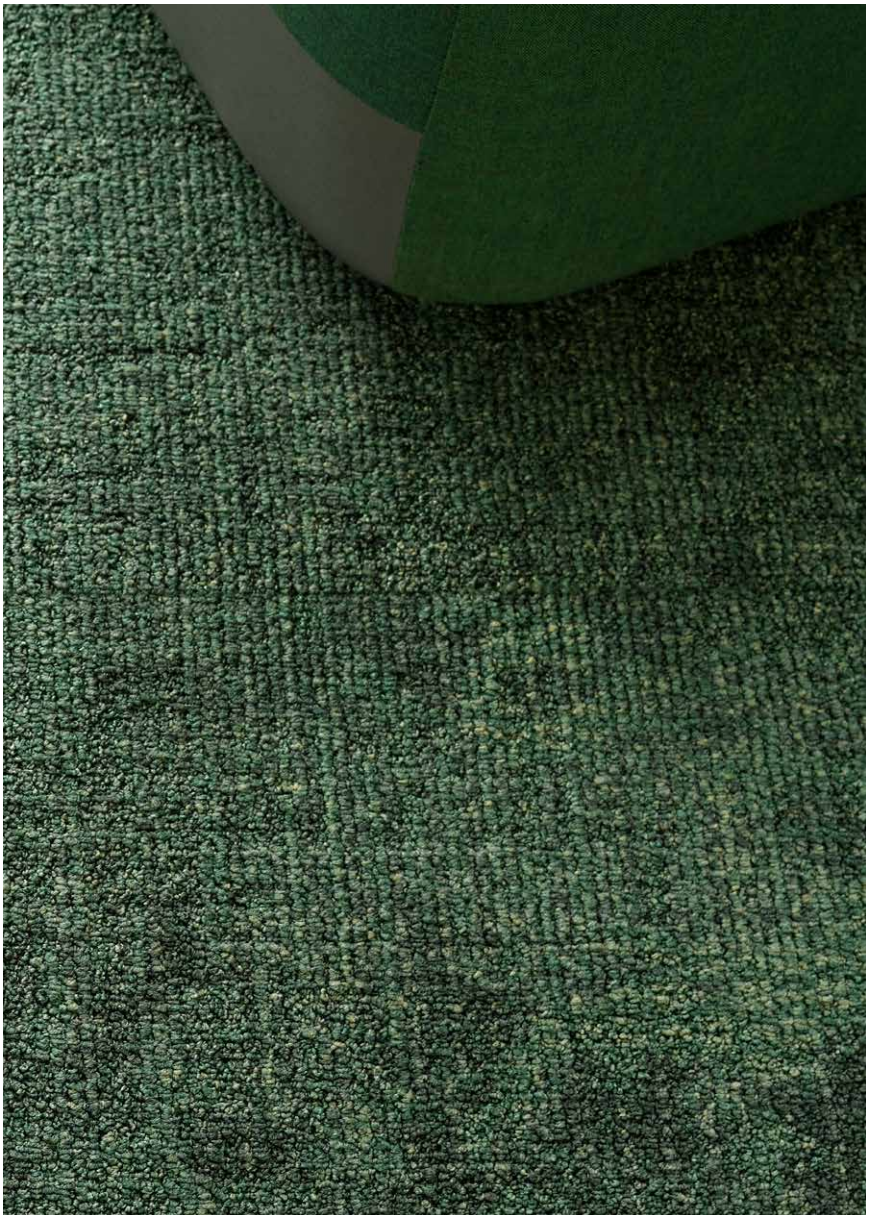
BROADLOOM

To help you make the most of your floor, you can choose from a variety of carpet products to match your preferences and needs.



TRANSITION MIX

With Transition Mix in 48x48 cm tiles you have an extra design tool to create beautiful soft fluid flows between two or more colours.

A smooth, effortless colour variation with no abrupt breaks can be achieved with the Transition Mix tiles. They allow for spatial design combinations with organic movement and fluid effects for unique, soft and sensory expressions.

To use Mix tiles in your floor design, first choose one of the three patterns; Seed, Leaf or Fibre, then see the selection of Mix tiles available in various colour combinations.

The Mix tile is a combination of two standard Transition colours clearly identified above each tile. Be aware of the direction of your floor design to make sure you pick the right Mix tile going from one tone to another.

There are myriad options with Mix tiles. Start with one colour from one end of the room blending into another colour going to the other end. Or place the colour transition in the centre of the room, maybe moving from a light tone to a dark tone and back to light. You can even pick three or more standard colours to work with and achieve more colour variation and movement across the floor.

ALL THE DETAILS

Terms and conditions

Transition features three designs; Seed, Leaf and Fibre, available as tiles, planks, Figura and wall-to-wall carpet. Irregular textures and layers from nature are defined by a multi-level construction. The Transition Mix tile in 48x48 cm is an additional design tool, creating beautiful, delicate colour flows across the floor.

- 3 designs
- Multi-level loop structure
- Available as 48x48 cm tiles and wall-to-wall carpet at no minimum order
- 96x96 cm tiles and 24x96 cm planks available from 40 m^2 per size/design/colour
- Transition Mix tiles only available as 48x48 cm tiles
- Figura available from 40 m^2 per shape/design/colour
- Undisputed performance standard EN 1307
- Performance classification to fit any need: heavy use
- 48-hour sample service
- Dispatch within 3 weeks from receipt of order

Cradle to Cradle Certified™

All our carpets are Cradle to Cradle Certified™. The idea behind Cradle to Cradle is that the Earth's finite resources should not go to waste. They should be re-used in new contexts, with no detrimental effects on people or the environment. In other words, the goal is to eliminate waste.

Indoor Air Comfort Gold

All our carpets are Indoor Air Comfort Gold certified showing compliance of product emissions with the criteria of many of the voluntary specifications issued by the most relevant ecolabels and similar specifications in the EU. Gold certified products are best-in-class for low emissions, thus good for indoor air quality.

The Green Thread

A green thread runs through everything we do. It has for decades and will continue into the future. We believe that every carpet is an opportunity to improve the sustainability of our environment and the wellbeing for people. Read more about The Green Thread at egecarpets.com.
