Textile & Homeware Specialists since 1979

Gailarde Limited is a family run business which was established in 1979 to provide Household Textiles specifically manufactured for the Contract Trade. We have four generations of knowledge in this area, dating back to when our current Director's Great Grandfather set up a textiles company in the heart of London's East End in 1897.

Our core principals of putting our customers' needs first has helped us to grow into one of the UK's largest suppliers to the contract market. Gailarde have been successfully supplying the UK marketplace for over 40 years, specialising in bedding, kitchen packs, mattress covers, shower curtains, towels, homeware, soft furnishings and furniture.

Gailarde prides itself on its traditional 'face to face' approach. We employ a team of Business Development Managers, homeware specialists and soft furnishing experts who are on hand to provide bespoke quotations or arrange a visit to discuss your requirements. Over the past six decades, Gailarde have built up long-standing relationships with many hotels, holiday parks, lodges, care homes, hospitals, universities, cruise ships, laundries, and caravan parks. Introducing...

GREEN by Gailarde

From the bud, to our bedding – Gailarde is committed to all elements of sustainability as follows:

Our Sustainable Initiatives

Gailarde fully endorse The Sustainable Development Goals (SDGs) established by the UN to guide our principles and actions to achieve a better and more sustainable future for all. We use the online NET Positive Futures supplier toolkit, adopted by over 40 Higher Education Institutions, to support businesses in promoting sustainability in their practices, covering economic, social, ethical and environmental aspects. This tool is pivotal in our company development to ensure we generate ideas and create objectives which demonstrate sustainability development, relevant for our clients.

Our Sustainable Products and Supply Chain

Gailarde are pleased to introduce our new range of sustainable products, marked with our green icon in this brochure. Our collection of high-end cotton products are completely traceable. We encourage better farming practice, developing environmental awareness whilst helping to cultivate better cotton yields. All of our organic cotton products are GOTS (The Global Organic Textile Standard) certified. We ensure our supplier's factories are accredited to internationally recognised standards with a Senior Gailarde representative visiting and auditing the site.

Our Ethical Trading Policy

We recognise the responsibility that we share with our suppliers to source products in an ethical manner. We want our customers to be confident that the people who make our products are treated fairly, are not exploited and are not exposed to unsafe working conditions. Our Ethical Trading Policy is a core element of our commitment to buy and sell our products responsibly.

Our Handling and Packaging

Gailarde have made positive changes to ensure our packaging is recyclable and are currently working towards reducing single use plastic packaging. We ensure main distributors align with our environmental values and demonstrate the ability to efficiently deliver our goods using innovative collection systems and efficient vehicles.

Our Carbon Footprint and Disposal of Goods

Our responsibility for the environment doesn't stop once we've delivered the goods. Disposing of our products at the end of their life in a way that limits the impact on the environment can be a great challenge to our clients and we are proud to offer a fully managed sustainable collection service that ensures there is no landfill and no carbon footprint. We use over 600 recycling locations across the country meaning reduced mileage and compliance documents are supplied for traceability.

For more information on our Disposal Service or any of our sustainability policies, please contact us on sales@gailarde.com or visit www.gailarde.com/pages/sustainability-impact-policy
