Gailarde

Textile & Homeware Specialists since 1979

Gailarde is a family-run business established in 1979 as a wholesale supplier of textiles. Our core product collections include bedding, linen and towelling. In recent years we have expanded into the provision of soft furnishings, furniture and homeware.

Our fundamental principles of putting our customers' needs first have helped us to grow into one of the UK's largest suppliers to the contract market. We hold contracts with major groups across the hospitality sector and understand the requirements to effectively service multi-site organisations. We pride ourselves on providing an efficient, reliable service that emphasises a fast response to enquiries and the supply of the right products at competitive prices.

We maintain close working relationships with our factories across the UK and internationally, which provides us with the ability for product development, and ensures all items are sampled, quality checked and tested prior to bulk purchasing or usage. We ensure our market position and quality requirements with our supply chain ahead of customer usage to guarantee the best value and performance of all lines.

Gailarde prides itself on its traditional face-to-face approach and highly values the importance of building relationships. We employ a national team of business development managers, homeware specialists and soft furnishing experts who are on hand to provide bespoke quotations or arrange a visit to customers. This experienced sales team combined with our exceptional customer service team guarantees excellent results for all customers.

Gailarde Price Match Guarantee

Gailarde are proud to offer all customers our **'Price Match Guarantee'**, If you receive a better quote we will match the prices for you. With our quality products and excellent service we will also ensure you get the best possible prices.

To receive our price match guarantee an official up-to-date quotation must be provided with exact specification of products. Please contact your local BDM or main office number to receive this offer.

Welcome...

to the Gailarde Product Brochure 2023 - our collection of bedroom, bathroom, soft furnishings and furniture that's perfect for the Hotel and Hospitality sector.

This year, Gailarde are continuing to focus on corporate social responsibility. We have reduced the usage of plastic packaging by 80% since 2019, replacing it with sustainable options such as recyclable card and wrapping paper. We're on track to eliminate all single use non-recyclable plastic across our core product lines by summer 2023.

The ever-growing "Green by Gailarde" collection allows you offer your guests a comfortable hotel stay whilst helping save the planet. This innovative range of products includes organic linen and towelling plus super soft pillows and duvets filled with 100% recycled plastic bottles. See page 4 for more details.

As textile specialists since 1979, we know that excellent bedding and a well equipped bathroom completes the hotel experience. Our pillow and duvet buying guide, along with our luxury towelling collection will help you make the right choice for your guests. Our soft furnishing range, which features curtains, bedspreads, runners and cushions, is ideal for updating and transforming guest rooms.

Remember our friendly sales office team are on hand to help you with any questions or contact your local Business Development Manager about any of our products.

We look forward to hearing from you.

GREEN by Gailarde

From the bud, to our bedding – Gailarde is committed to all elements of sustainability as follows:

Our Sustainable Initiatives

Gailarde fully endorse The Sustainable Development Goals (SDGs) established by the UN to guide our principles and actions to achieve a better and more sustainable future for all. We use the online NET Positive Futures supplier toolkit, adopted by over 40 Higher Education Institutions, to support businesses in promoting sustainability in their practices, covering economic, social, ethical and environmental aspects. This tool is pivotal in our company development to ensure we generate ideas and create objectives which demonstrate sustainability development, relevant for our clients.

Our Sustainable Products and Supply Chain

Gailarde are pleased to introduce our new range of sustainable products, marked with our green icon in this brochure. Our collection of high-end cotton products are completely traceable. We encourage better farming practice, developing environmental awareness whilst helping to cultivate better cotton yields. All of our organic cotton products are GOTS (The Global Organic Textile Standard) certified. We ensure our supplier's factories are accredited to internationally recognised standards with a Senior Gailarde representative visiting and auditing the site.

Our Ethical Trading Policy

We recognise the responsibility that we share with our suppliers to source products in an ethical manner. We want our customers to be confident that the people who make our products are treated fairly, are not exploited and are not exposed to unsafe working conditions. Our Ethical Trading Policy is a core element of our commitment to buy and sell our products responsibly.

Our Handling and Packaging

Gailarde have made positive changes to ensure our packaging is recyclable and are currently working towards reducing single use plastic packaging. We ensure main distributors align with our environmental values and demonstrate the ability to efficiently deliver our goods using innovative collection systems and efficient vehicles.

Our Carbon Footprint and Disposal of Goods

Our responsibility for the environment doesn't stop once we've delivered the goods. Disposing of our products at the end of their life in a way that limits the impact on the environment can be a great challenge to our clients and we are proud to offer a fully managed sustainable collection service that ensures there is no landfill and no carbon footprint. We use over 600 recycling locations across the country meaning reduced mileage and compliance documents are supplied for traceability.

For more information on our Disposal Service or any of our sustainability policies, please contact us on sales@gailarde.com or visit www.gailarde.com/pages/sustainability-impact-policy

Pillow Buying Guide

One thing we've learned from being in the textiles business for over 40 years is that you should never underestimate the importance of a good pillow. Our pillows leave such a lasting impression; guests of many hotels, regularly track us down to order pillows which have given them "the best night's sleep."

Contact us to create the perfect pillow for you and your guests. Call our team **020 8905 2776**

Natural or Synthetic

Firstly, consider the two types of fillings to choose from: natural or synthetic.

Natural pillows consist of down and feather. The percentage increase of feather will give the pillow more stability whilst the down will add luxury/softness to the pillow.

During the manufacturing process of our feather and down pillows they are cleansed and purified to minimise the effect to allergy sufferers.

Our range of synthetic pillows offer a multitude of options when it comes to fill, cover and weight. Fillings include conjugate, cluster, micro and ball fibre and covers range from polycotton to a luxurious 233 thread count cotton cover which are cost-effective whilst being a good choice for allergy sufferers.

There are three aspects to consider when investing in pillows

1. Aesthetics
It's important that a pillow retains its loft when plumped and looks inviting when your beds are made up.

2. Longevity
When buying for your establishment, you want your pillows to last. Investing in a quality product will prevent you from purchasing new pillows sooner than required.

3. Comfort
According to recent studies, guests value a comfortable room most highly with service being the next most important factor. It appears that guests who write reviews are most focused on their immediate surroundings during their stay and on the service they experience. So, if you're going to invest in any part of your establishment, comfort should be your number one priority. Bear in mind, pillows are a personal preference and a perfect solution would be to offer your guests soft and firm pillow alternatives.
