GRESHAM

GRESHAM

WELCOME.

As one of the UK's leading designers and manufacturers of workplace furniture, our portfolio encompasses office desking, seating, storage and screens plus conference, leisure and breakout collections, offering an holistic solution to your furniture requirements.

We are proud to showcase our extensive collection of products combining design, quality and functionality from a **'True UK Manufacturer'.** The latest additions and unique styles complement our established ranges and offer solutions for all environments. Due to our manufacturing capability we can also offer bespoke products to suit your exact requirements, therefore if you do not see the product or style you require, please contact our Sales Office.

WE HAVE BEEN DESIGNING WORK SPACES AND FURNITURE SINCE **1976.**

We employ more than 250 people based at our 200,000sq ft office and factory space in Greater Manchester. Our 'Investors in People' award demonstrates how much we value our workforce. They are expertly skilled to design, produce and install superb workspace furniture. Owned and run by family members, we are proud to be a 'True UK Manufacturer' and share with you the benefits of high quality British goods.

As well as clients across the UK, we also export our products internationally.

Since most of us spend many hours each day at work, it is important that we feel both comfortable and happy within that working environment. At Gresham, we consider every aspect of our workspace furniture, through concept and detailed design, prototyping and testing, through to production, assembly and despatch - all backed-up with our dedicated Customer Care team. All of this happens under one roof at our state-of-the-art headquarters in Bolton, with all of our teams working together to ensure we supply the best products and services to you.

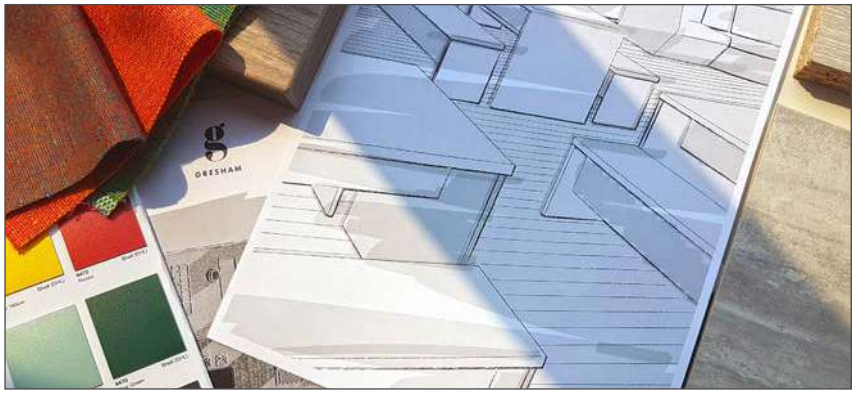
MADE IN BRITAIN

GRESHAM DESIGN

Gresham works with some of the finest designers to create individual pieces that reflect your personality and enhance your workspace. The company's in-house team boasts experienced designers with backgrounds in Product Design, Industrial and Furniture Design, Design Engineering, Interior Design and Graphics, to name but a few.

Based at our Bolton studio, our team come from a myriad of disciplines, bringing their expertise to create inspiring designs. Whether for mainstream products, special variations or totally bespoke solutions, we provide a complete service from concept through manufacturing to presentation and hand-over. Working in a high-pressure commercial environment, our team needs to balance creativity and flair with quality.

We continually explore innovations in technology, materials and processing, as well as keeping abreast of style, popular colour trends and the ever-adapting workplace. It's all about getting it right.



CAD FILES

GRESHAM CREATE OUR CAD FILES FOR USE WITHIN **AUTOCAD, REVIT, PCON PLANNER, SKETCH UP** AND **3DS MAX.**

Gresham support our clients by implementing the BIM approach to all of our projects. BIM (Building Information Modelling) is a collaborative way of working allowing different sectors to work on one central model. This process means that Architects, Specifiers and Planners can work smarter, faster and cheaper by sharing standardised design information.

PCon Planner and SketchUp are 3D CAD software packages that are free to download and can be used for planning. They are fast becoming the industry standard which is why we create our portfolio in this format. We upload all of our models to 'The 3D Warehouse' - the world's biggest resource for free 3D CAD models.

INSTALLATION

All installations are undertaken by highly trained & experienced staff at times to suit you. All packaging is removed from site and returned to the factory for recycling.

LOCAL SERVICE

We provide you with peace of mind that you can access products locally from a renowned manufacturer.

PROJECT MANAGEMENT

We provide total Project Management from initial enquiry through to installation. A single point of contact ensures efficiency and avoids tying up your own valued resources.

ERGONOMIC TRAINING

We provide on site ergonomic training to make sure users are familiar with our products ensuring correct seating and posture.

FSC® FOREST STEWARDSHIP COUNCIL®.

Its purpose is to promote responsible management of the world's forests through developing standards, a certification system and trademark recognition. The process of tracking a product back to forest is called "Chain-of-Custody (COC) Certification. Through the COC, companies can demonstrate their commitment to the environment and responsible material sourcing.

Over 99% of the Melamine Faced Chipboard used in the manufacture of office and leisure furniture has been sourced from FSC® certified suppliers. The 1% remaining material, although not FSC® is sourced from non-controversial sources. No trees are cut down specifically to produce MFC.

The mark of responsible forestry

REDUCING CARBON EMISSIONS.

We are committed to reducing our carbon footprint by instigating strategies which will reduce the use of fossil fuels and the amount of greenhouse gases produced by our processes. We continually invest in state of the art equipment to make manufacturing more efficient. We recycle our waste, reducing landfill and continually update our fleet of vehicles to ensure the latest engine technology is employed.

All products are designed and manufactured in conformity to the relevant British and European standards.

Gresham Office Furniture's manufacturing process is achieved in line with the following Accreditations and Certifications:

BS EN ISO 14001 : 2015

Environmental Management System.
Initial Registration: May 2001

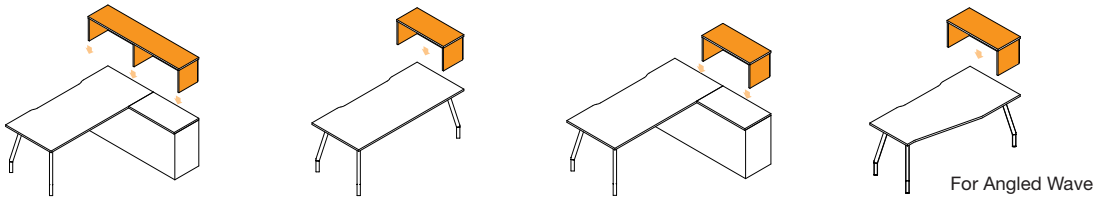
1584mm

Examples of configuration



For Angled Wave

Rectangular Add-on desk with Structural Storage & File Hutch

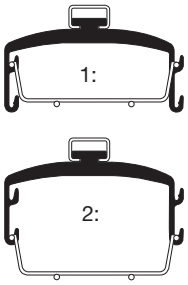
Cable Baskets offer simple cable control under desk worksurfaces.

- Can be retro-fitted.
- Baskets can be positioned in a choice of two heights.
- Baskets are offered in a selection of colours to match legs.

Basket can fit on suspension brackets in two positions:

1. To accommodate tall under desk pedestals under tray.
2. To accommodate transformer plugs in basket. Basket can be unhooked from suspension brackets on one side to provide easy access to cables and modules.

Cable Baskets can be used in a non-modular way i.e. smaller baskets can be fitted where required on a larger desks, e.g. 800 Cable Basket can be fitted on to 1600 Desk.



Horizontal Cable Basket - available in Black, Grey, Silver or White. Fits to under desk service rail or suspension brackets can be screwed directly to the underside of the work surface.

Structural pedestals have cable pass through to the rear

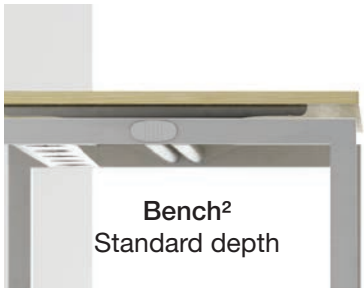
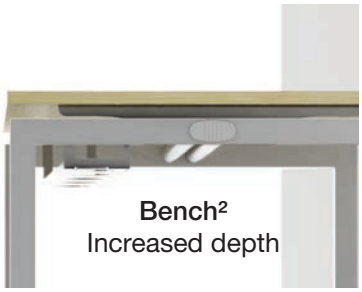
Height Adjustable Kit Fitting To Bench² Underframe

AVAILABLE ON ACCESS TOP.
AVAILABLE ON FIXED & SCALLOP TOP WHEN DESK MOUNTED SCREENS ARE NOT USED.

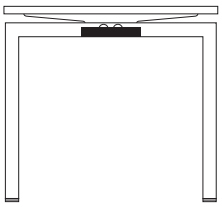
Manually selective to fixed positions. Height adjustment between 727 & 827mm in 20mm increments.
Kits raise a single work surface to the desired height and can be ordered with desks or retro-fitted to existing units.
They can be fitted to stand alone desks or to units within clusters without affecting existing cable management or screens.

Code	To fit desk	Price
BRHA10	1000mm deep rectangular desks	
BRHA08	800mm deep rectangular desks & 800/1000mm deep wave & angular desks	
BRHA06	600mm deep rectangular desks & 600/800mm deep wave & angular desks	

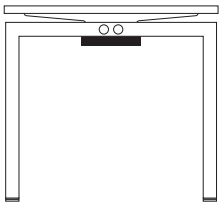




Information - Cable tray positions
All Bench Squared cable trays come complete with brackets that cater for most cabling requirements.



Standard depth 75mm



Increased depth 130mm

Cable trays are sold as standard with Access Top and as optional extras to Fixed & Scallop Top desking. They need only be specified where required for Fixed and Scallop Top. Depth of brackets must be specified for all Bench² cable trays including Access Top. Cable risers and spines fit to Access, Fixed & Scallop Top desking.

Please note: Only 555 High under desk pedestals fit underneath increased depth cable trays.

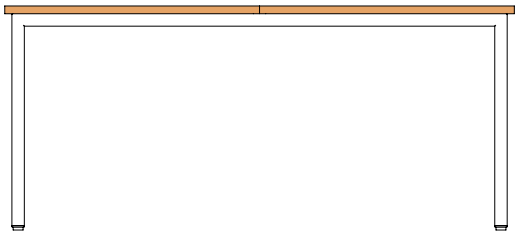
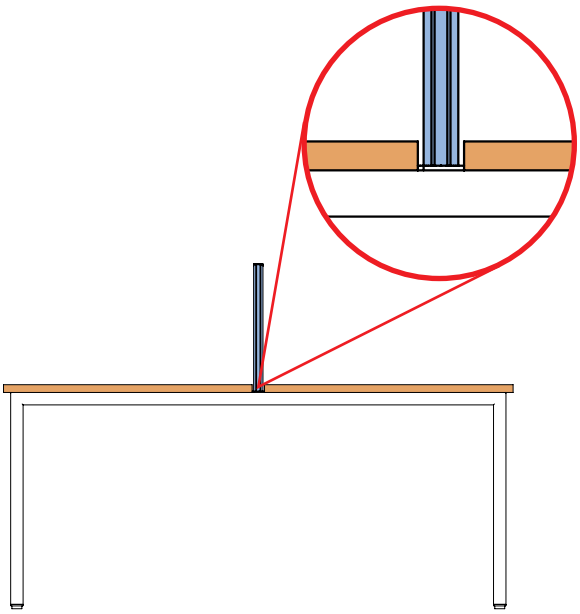
MESA & MESA PLUS
DESKING

10 Year Guarantee

Mesa and Mesa Plus are stripped-back Bench desking ranges that combine strength with ease of assembly and use. Both feature 45mm scalloped tops for cable access and shared componentry for cost effective cluster solutions.





MESA

Mesa can be used with and without GOF screens. All screens sit on desk worksurfaces and fixing brackets are visible. Will require user modifications.

For **GOF Desktop Screens** see the Screens Section of the Product Guide

MESA PLUS

Mesa Plus screens sit between desk worksurfaces and fixings are discreet, keeping top panels clear. **Mesa Plus cannot be used with GOF screens.**

For **Mesa Plus Desktop Screens** see the Screens Section of the Product Guide

Mesa Plus Double Sided Double Wave Desking

MESA & MESA PLUS WAVE WOOD
DESKING

10 Year Guarantee

By replacing steel legs with Beech wooden legs, the Mesa & Mesa Plus Wood shapes a softer, and warmer office environment, allowing it to blend seamlessly with 'away-from-desk' lifestyle furniture.

Single Wave desks are designed to position equipment into the deeper corner of the worksurface whilst angling users to improve their focus.

Wooden leg options are only available on **Starter Units.**

- Each model can quickly be adjusted to suit users' height requirements whilst offering both health and lifestyle benefits.
- Available in our most popular footprints and with a selection of control options, Rise offers simple flexibility.

Available Frame Colours

Black Silver White

Maximum Load
Per Top (evenly distributed) 110kg

How to specify

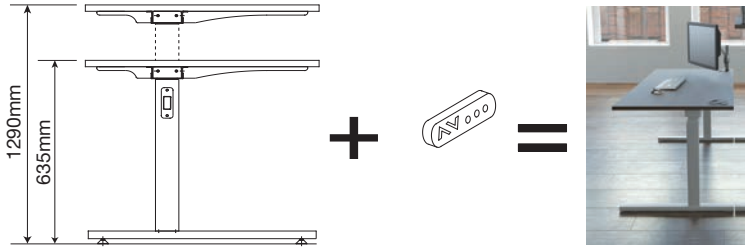
1. Select Base Code

2. Add Control Panel

3. Order complete desk

Example of code: HDS18A
(Type A control panel)

1. 2. 3.



Type 'A' Control Panel

Ideal for users who only require up & down functions. Panel can be retracted when not in use.

Type 'B' Control Panel

As well as the Up and Down functions, this panel can be programmed with up to three set heights.

Type 'C' Control Panel

As well as the Up and Down functions, this panel can be programmed with up to three set heights, with digital height display.

Type 'E' Control Panel

This angled control has an intuitive tilt function for activation. It has integrated Bluetooth connectivity that is compatible with `Desk Control' apps and a digital display. It can be programmed with up to four memory positions.

Bluetooth Adapter

Both Rise and Rise Lite can be controlled remotely by using the Bluetooth™ Adaptor and a paired smart device.

HDBA

Clear Cable Spine - 1400

Available on the Rise and Rise LT only.

DESKING

10 Year Guarantee

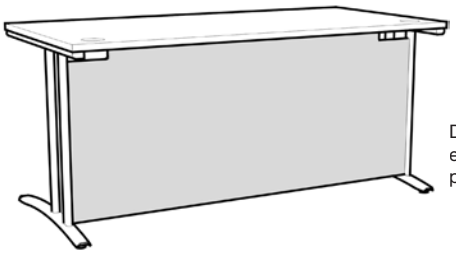
- Extra deep modesty panel available (57mm from floor) (subject to surcharge). Suffix code with -FD.
- Not available on X10 Desks / Workstations



Desk shown with D3K endframes & full depth modesty panel. Example: GKD168FD

Cut Back Endframes

Cut back endframes for 800d desks can be used to help create additional leg space when desks or workstations are used together. Cantilever frames are best for this. They are offered in Left or Right hand options and are supplied with all necessary fittings and desk to desk link brackets. It is recommended that full end frames are used at the end of runs.

Electrical Installations within Office Furniture, Educational Furniture and Office Screens

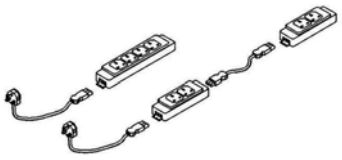
This information is intended to help when specifying power distribution systems in furniture and is based on BS 6396: 2008 + A1 2015. Please refer to this standard for more information. It is recommended that all installations be completed by a suitably skilled person and that all equipment meets the pertinent standard criteria.

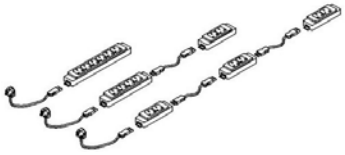
Examples shown are based on single-phase electrical distribution system with rated voltages up to 250 V a.c. connected to the building's supply by a 13A UK plug, conforming to BS 1363.

Under Desk Modules

When individually fused at **5 A max**., no more than four sockets can be connected to a single supply lead. These can be made-up of single 4-gang modules or 2-gang units connected with a lead.

When individually fused at **3.15 A max**., no more than six sockets can be connected to a single supply lead. These can be made-up of single 6-gang modules, 4-gang or 2-gang units connected with leads.

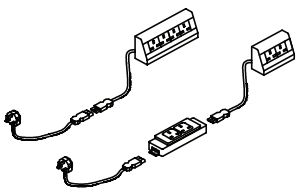


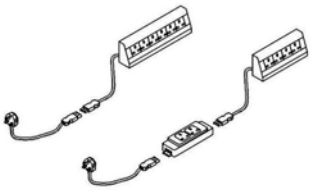


Under and On Desk Modules

When individually fused at **5 A max**., no more than four sockets can be connected to a single supply lead. These can be made-up of single 4-gang modules or 2-gang units connected with leads.

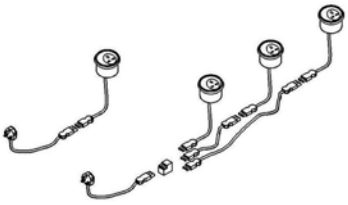
When individually fused at **3.15 A max**., no more than six sockets can be connected to a single supply lead. These can be made-up of single 6-gang modules, 4-gang or 2-gang units connected with leads and connector blocks.





Through-Desk Modules

When including UK power sockets, follow the same rules as under and on-desk outlets. Consideration should also be given to the overall cost. If there are enough sockets for the starter cables, then it may be simpler and more cost effective to use starter leads than connecting to a single starter cable using connector leads and blocks.

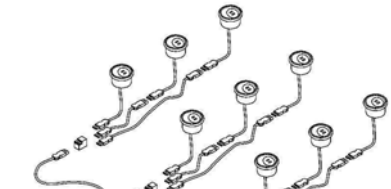


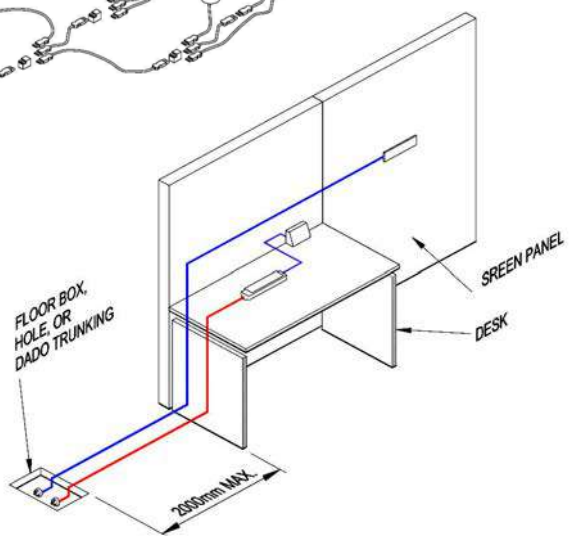
USB Charging Modules

These units only provide a fraction of the current compared to UK power sockets and when used separately from other outlets can be `daisy-chained' together to a maximum of **60 No. units** from one starter lead, connector leads and blocks. Best practice is to reduce the amount of connectors where possible.

On selected modules, twin USB fast charge now consist of a USB-A and a USB-C socket. The USB Type C connector is now being adopted by all the major manufacturers of mobile devices (phones, tablets, etc) and has already been incorporated into some laptops. This is not only because of its small form factor and the fact that it is reversible, making it simpler and easier to use, but also because it enables significantly faster charging than was possible with the USB Type A connector, whilst at the same time (for relevant devices) replacing all former AV/data connections, such as VGA, HDMI, USB-A, RJ45.

Where shown, modules with a twin USB outlet will provide both the new USB-C port, for enhanced fast charging of compatible devices, plus a USB-A for charging legacy devices - suiting users with any USB powered device old.





Exposed Power Cables

When all the outlets are connected and the Starter Cable is plugged into a power supply, any exposed length of supply cord must not exceed **2 metres** in length.

On and In Desk Modules
All on-desk or in-desk modules containing electrical outlets are supplied with a short lead to a male Wieland GST plug. These can be connected to an under-desk module, a connector lead / block or a starter cable – sold separately. Data modules, including RJ45, HDMI & data USB are hardwired to a 3 metre lead fitted with an appropriate connector.

Under Desk Modules
All under desk modules require a connector lead or a starter cable.

Please check with our Sales Department for fitting Power Modules to Bench Deskits.

Safe Electrical Wiring
For all types of power modules, please refer to the installation guidelines.

Where Used
The icons shown indicate where modules can be used:

Edging Options

Squared Edge
Group Z, B, C, F & G

Chamfered Edge
Group D

Laminate prices shown are for our Kiko range of laminates. Halo, Fenix and Filafo laminates are available for a surcharge.

- Selected tables can be specified with 80 diameter circular cable ports or cut outs that can be used to access either cable trays or spines beneath the worksurface. They are positioned to avoid the underframes and can be fitted with a selection of service modules - specified separately.

  Please refer to the relevant cable management section and Electrical Accessories section for further information.

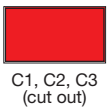
  Surcharge for Cable Ports: retail

  No surcharge for standard cut outs

How to order Tables with/for power modules:

1) Choose required power module.
2) Make a note of the code & type of opening required (P, C1, C2 etc).
3) Choose table range.
4) Refer to cable management section to see available cut out type and positions for the range.
5) Make a note of the required table code with relevant cut out details (GTR2010ZC2 for example).
6) Place order with relevant table and module code.

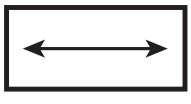
Note: cut out positions not shown may not be available due to frame restraints.



C1, C2, C3
(cut out)

P
(cable port)

- Unless otherwise stated tables are 727mm high when fitted with 25mm MFC top panels.



denotes grain direction

- LTF, LTC, LTA and LTD tables are available in a range of heights (see opposite).

Coffee - 455mm
Lounge - 575mm
Dining - 745mm
Mid poseur - 905mm
Poseur - 1125mm
1105mm

GD1 POSEUR
TABLES

10 Year Guarantee

This striking family of tables brings both sophistication and functionality to breakout spaces, agile working areas or places where you simply want to connect for those 'away-from-desk' activities. Available in two height variations and a selection of footprints and finishes, GD1 is at home in any working landscape. The elegantly angled legs are produced in solid wood with an option for cleverly concealed cable control. Worksurfaces have softened corners and can feature integrated modules that bring all necessary services to each user.

GD10 POSEUR LED TABLES

LEDs are extremely energy efficient and consume up to 90% less power than incandescent bulbs. Since LEDs use only a fraction of the energy of an incandescent light bulb there is a dramatic decrease in power costs, therefore, for creating an eco environment in a grand office space, the GD10 with LED would be perfect for reducing your impact on the environment.

Cable Management

Horizontal Cable Baskets - available in Black, Grey, Silver or White. Fits to underframe or can be screwed directly to the underside of the worksurface.

There are two types of baskets that can fit to Moment and Believe tables:

1. Small, single sided, that are suspended directly below the rails providing concise cable control

2. Large, double sided, that project to both sides of the rails providing greater cable capacity and provision for additional equipment such as service modules. The angle gives great access to the basket from under the worksurface.

DECK INTRODUCTION
TABLES

5 Year Guarantee

Introducing Deck, a timeless bench table and seating collection that boasts effortless sophistication and stylish simplicity. With its crisp, clean lines and distinctive finishes, the Deck collections' versatility can perfectly fulfil modern workplace requirements.

The Deck collection is an ideal choice for office and leisure environments - whether used for hot-desking, corporate meetings or communal dining. Its flexibility facilitates individual work and collaborative discussions, while making it even easier for employees and executives alike to move seamlessly from one activity or project to another. The Deck collection saves time and space when both are limited - it is the obvious choice for any working environment.

This refined collection can be extensively customised to fulfil the needs of your space and it is available in a range of specifications. These include options for sitting or standing height models, various end frame materials and customisable unit dimensions. The Deck collection makes use of your entire landscape and can be offered in an almost limitless combination of surface finishes. In fact, each bench or table unit can be created to your preferences or made to satisfy unique corporate requirements.

Whether you'd like a classic wood effect, vibrant block colours or funky patterns this family of furniture will help you to make a statement and enhance every inch of your space.

Single Laminate
Single colour with matching or contrasting edge - SUFFIX 'S'

Dual Laminate
Two colour with matching or contrasting edge - SUFFIX 'D'

MFC Finishes -

- Available in single colour MFC Finishes - Both styles of panel ended products are produced flat-packed and assembled on site.
- Steel Framed products are supplied fully assembled.
- MFC Deck products have 38mm Tops & 25mm End Panels, where appropriate.
- Available with Contrasting Edge

Laminate Finishes -

- Panel Ended and Inset Panel products are produced flat-packed and assembled on site.
- Mitred Panel Ended and Steel Framed products are supplied fully assembled and we would recommend specialised handling to site. For delivery and installation details, contact our Sales Team. Laminate Deck products have 38mm Tops & End Panels, where appropriate.
- Available with Contrasting Edging.

All Deck Products

- Use stools from our Seating section with Poseur Height Tables.
- Small Bench Seats can nest under wider Dining Tables.
- All Deck products may require a team lift due to their heavy nature.
- Inset Panel Deck have their ends inset by 300mm.

DECK MITRED
TABLES

5 Year Guarantee

Deck Mitred is the premium product within this collection. It incorporates traditional joinery skills and hand-applied finishes. Choose from an array of laminate finishes that can be uniform or specified as two-toned, single colours or patterned relief. These variations enable the model to complement its surroundings, stirring emotions and adding a sense of theatre.

DECK INSET PANEL END TABLES

We certainly believe in style and finesse, but functionality and form are also essential. Each Deck Inset model shares the same design DNA as the rest of the collection, but acknowledges the fact that there are times when users need to sit at the ends of the benches as well as at the sides. The inset panels included in these models allow for this by providing sitting or standing space at both ends of the work surface, while matching their flush panel ended counterparts in finish and style.

DECK PANEL END
TABLES

5 Year Guarantee

Panel Ended Deck differs only slightly from Deck Mitred, with the top surface being a separate piece, this allows you to specify contrasting finishes to create a two-toned look. Available in Dining height and Poseur height with matching bench seating to forge a sleek and modern dining space or a clean and simple away-from-desk area or touch down zone.

DECK STEEL TABLES

The Deck Steel model combines the features of the panel ended and inset models, by allowing users to sit all along and around the work surface, without the structure impinging on their leg space. Its lightweight yet robust frame is fully welded and offers an additional opportunity for users to introduce metallic colours into the working landscape, while remaining cohesive with adjacent furniture from different ranges. Deck Steel frames boast minimalistic style and clear air circulation within open-plan areas. Each model is available with sitting and standing height work surfaces, with matching bench seating.

Deck Panel Ended Poseur Height with Single Laminate

iMEDIA
TABLES

10 Year Guarantee

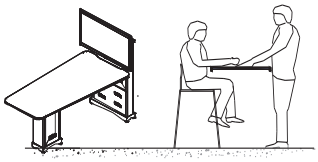
iMedia units are tables designed for collaborative work, presentations and informal meetings. They can be used to mount display monitors, house I.T. equipment and promote connectivity.

- Available in three footprint styles, three lengths & two heights.
- Supplied with equipment cabinets to the front and rear.
- Can support up to 42" monitors (not supplied).
- Fitted with 36mm MFC Tops.
- Available with a selection of optional fitted fascia modules, see below.

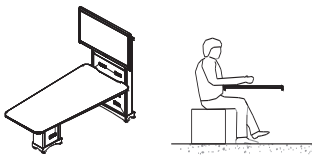
How To Specify

1. Select Base Code
2. Add suffix letter of service module if required
3. Order complete table

Example of code: IMA2210HC
(Angular Shaped Table with Type C module)



Stand Height (Poseur) - 1040h



Sit Height (Dining) - 740h

Outlet Types/Quantities

Module	UK POWER	CAT 6 DATA	2x USB-A TWIN USB FAST CHARGE	VGA & AUDIO	HDMI	SINGLE USB DATA
Type A	3	-	-	-	-	-
Type B	2	-	1	-	-	-
Type C	1	-	1	-	1	1
Type D	2	1	-	-	-	-
Type E	2	-	-	1	-	-
Type F	1	-	-	1	1	1

Optional Fascia Modules

All modules containing electrical outlets are supplied with a short lead to a male Wieland GST plug. These modules are available in Black, Silver or White and require a starter cable – sold separately. Data modules, including RJ45, HDMI & data USB are hardwired to a 3 metre lead fitted with an appropriate connector. Suffix code with relevant letter.

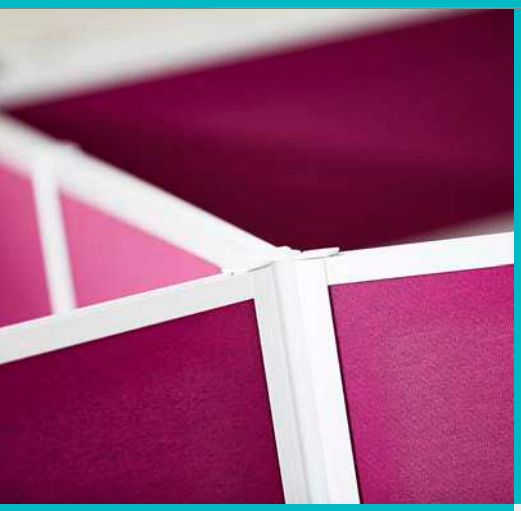
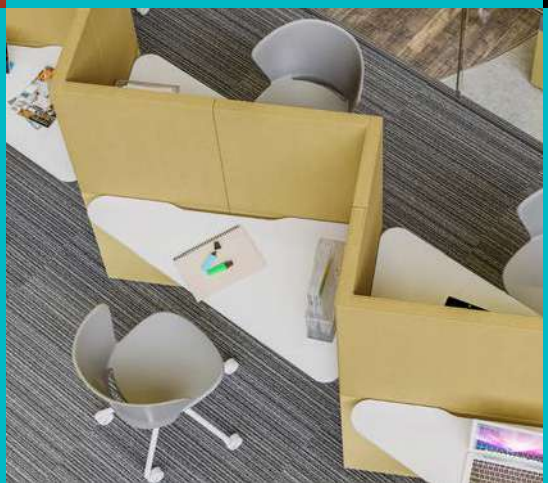
INTRODUCTION
SCREENS & PODS





For metal finishes please see Technical Information section.

Chrome Effect paint surcharge = per item.

For board finishes please see Technical Information section.

For GOF Screen fabrics please see Technical Information section (Guarantees shown exclude upholstery).

For GOF Screen Acrylics please see Technical Information section.

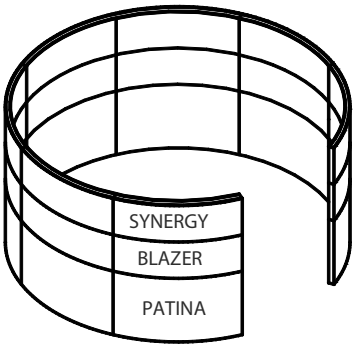
For GOF Screen accessories please see page 208.

MIRAGE PODS & GE MOBILE

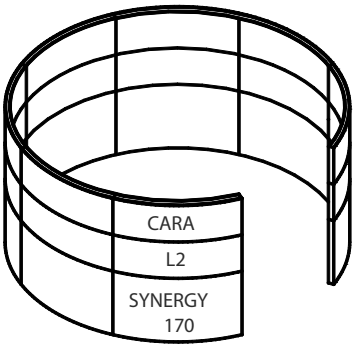
Mirage Pod & GE Mobile fabrics differ from our standard fabric bands. Fabrics for these products have a laminated foam backing that increases sound absorbency. A number of fabric selections for Mirage Pods and GE Mobile are available as shown.

Mirage Pods & GE Mobile can have different tiered levels in alternative fabrics as illustrated below. If all the chosen fabrics are all from the same selection, then please choose the relevant fabric selection price. If the chosen fabrics are a mixture of selections, then choose the highest relevant fabric selection price.

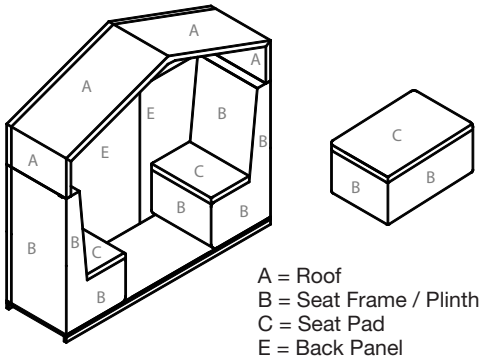
Other fabrics may be available on request - POA. Fabrics not shown in Selections 1-4 may be subject to testing.



Example:
Fabrics from same selection
(Fabric Selection 4 Price)



Example:
Mixture of fabrics from different selections
(Fabric Selection 3 Price - Highest)



A = Roof
B = Seat Frame / Plinth
C = Seat Pad
E = Back Panel

MIRAGE LITE/TACKABLE & GE6

Due to manufacturing processes Mirage Lite & GE6 fabric options differ from our standard screen fabric bands and the available fabrics are shown in their relevant section of the Product Guide. Prices shown are for single colour fabrics only. Tackable versions of Mirage Lite are available for a surcharge.

Other fabrics may be available on request - POA. Mirage Lite Acoustic desk top screens are also available on request – POA.

5 Year Guarantee

MIRAGE PODS

Workspace design has evolved over the decades to meet the changing demands of the workplace and the needs of the people who work in them.

Today, the very best contemporary workspaces are designed to provide not only functional efficiency, but be responsive to the needs of employees in terms of enhancing productivity and promoting personal wellbeing. Smart lateral thinking is required to create a multi-purpose environment that successfully achieves these goals, all within one singular space.

Able to transform a chaotic open plan spaces into an oasis of calm, where zones designed for privacy, for collaborative work, and for core activities function together seamlessly, the Mirage family of pods are the product of such thinking.

Mirage uses high quality materials to create aesthetically pleasing modular pods for employees to work in. Their carefully crafted panels and coloured trim reflects the purpose of each pod and how it will be used. Subtle, tranquil hues enhance quiet contemplation, for example, while bright, vibrant shades help to create a stimulating workspace that facilitates increased creativity and productivity.

As well as helping you to reorganise your office in order to make best use of existing floorspace, Mirage Pods also help to provide noise control for energetic working environments. Slimline panels can reduce noise levels by up to 30 decibels, meaning that private spaces remain private, while the acoustics in shared spaces promote great communication.

5 Year Guarantee

SCREENS & PODS

5 Year Guarantee

GOBI STUDY POD

Single occupancy Gobi pods provide quiet work areas that allow users to focus on specific tasks in an environment that minimises distractions caused by external noise. These pods are cosy, ergonomically designed, and perfectly suited for their purpose. You have the option of selecting modules equipped for either permanently based equipment or mobile devices, or both, depending on your requirements. The most popular Gobi pods are of a two-tier height that works to create a protective cocoon around seated users. When standing, users are able to get a clear view of surrounding open plan areas. Gobi individual pods have a relatively small footprint, making them easy to place, and are also available in a slightly taller version, shaped like a phone booth, which has a roof plus perch points for users. These taller pods also have a useful integral light that is activated as the user approaches the booth.

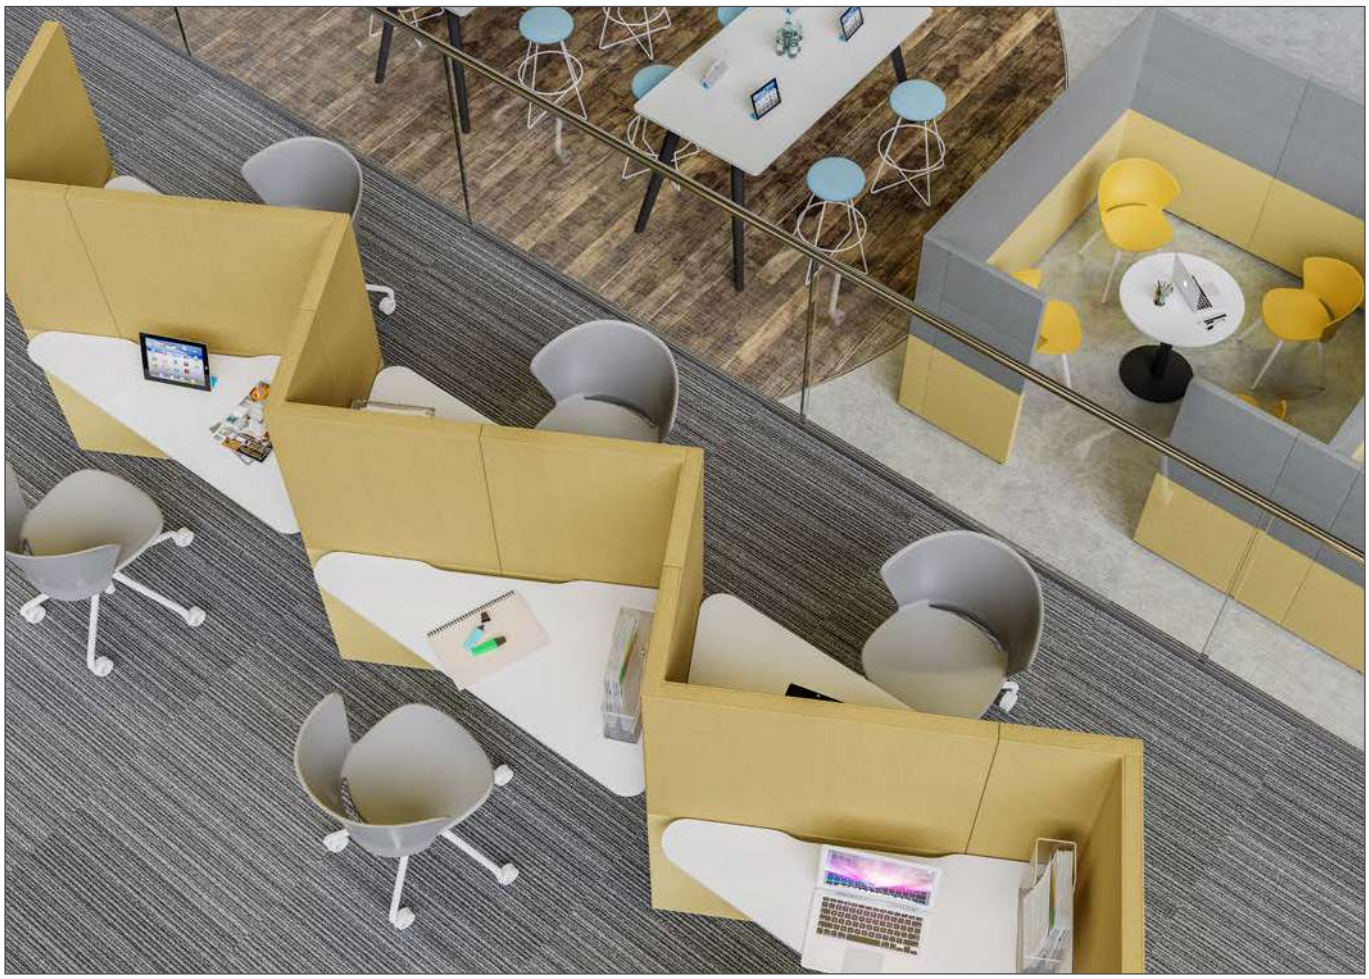
SONORAN WORK POD

Sonoran pods are designed to provide private, separate workspaces that can be clustered together in different configurations. They are ideal for housing team members or workers who benefit from being geographically close together but who still want to occupy an individual unit. The integral work surfaces are generally straight rather than curved, giving the pods a streamlined appearance. You also have the option of adding service modules and cabling as required for permanently installed equipment, as well as for mobile devices. Configuring your Sonoran pods couldn't be easier. Select single-sided pods allow users to share walls or opt for a back-to-back layout if preferred. When clustered, these pods make the most of existing floor space, allowing you to provide workspace for a greater number of people per square metre. Sonoran pods are extremely efficient and cost effective, requiring few components.

5 Year Guarantee

ATACAMA STUDY POD

If your workplace requires pod clusters that can function like hot desk stations, Atacama pods with shared components provide an ideal solution. Each pod has a triangular shape, which allows for the creation of a zigzag footprint when clustered with other Atacama pods, with each user being placed in the resultant zigzag corner. Work surfaces are designed to allow cabling to pass neatly through a cut-out space, and configured so that its possible to mount flat screen monitors or place desk top service modules within easy reach of occupants. With smaller work surfaces than Sonoran pods, people are less likely to clutter up the tapered space with personal effects. Atacama is the ideal pod for workers who need everything to hand when they drop in for a short period of time before moving on. This is a highly efficient solution that maximises available space for a mobile workforce.



SAHARA MEETING POD

Shared workspaces need to be carefully structured to make the most of the available space, as well as enhance the type of activity taking place within them. Sahara pods are designed to create a multiple occupancy workspace that facilitates collaborative work in a quiet environment. Thanks to its acoustic dampening function, whether you want to create a quiet collaborative working space, free from distractions within an open plan area, or a room in which lively discussion can be contained, Sahara pods can do both. The flexibility of the Sahara system means you can choose from a range of larger pods with options for the number of tiers required. Single tiers can be used to delineate space, while units with additional tiers allow for increased privacy. To create shared service areas for printers and photocopiers, simply use Sahara to encircle equipment and deaden the sound.

5 Year Guarantee

COLORADO MEETING POD

Colorado pods have gently curved walls, and are therefore ideal for creating layouts that are less angular and more fluid by design. Use of such aesthetics softens interior spaces, making them perfect environments for use as informal break-out areas, or as comfortable rooms in which to hold formal meetings and conference activities. As with Sahara pods, additional tiers can be added to Colorado units for privacy purposes, and there is also the option to choose whether you'd like the pod to have one or two entry points. This might depend, for example, on the level of access you need, as well as on what type of activities you plan for the pod. Furniture options include soft seating, suitable for informal activities, and dining or meeting and conference furniture for more formal events. You can structure Colorado pods exactly as you wish for specific activities, such as staff training sessions or briefings.

KARAKUM MEETING POD

The Karakum range offers the perfect solution for housing small, private groups. The pod walls are three tiers high, above which can be found an integral roof. Pods suitable for occupancy by two, four or six occupants are available, in-line with your needs, as are units that include efficient LED lighting. Sensors for the lighting are triggered when Karakum is occupied, and will switch off when the pods are empty, ensuring optimal energy efficiency. Despite having a roof, the Karakum pod is designed to promote clean air circulation, helping users to stay focused and motivated. Selecting furniture from the options available will allow you to determine how the pod is to be used. Services can be routed from the floor upwards via the walls, as is the case with all Mirage pods, to feed adjacent or fixed work surfaces as well as suspended equipment such as monitors and projectors.

MIRAGE HAZE
SCREENS & PODS

NEW PRODUCT

5 Year Guarantee

Mirage Haze is a customisable alternative for break-out spaces. The metal framework can be specified to create boundless potentials of shapes and sizes to suit the ergonomic needs of the office environment. Walls can be specified in a trio of finishes, including upholstery, glass and laminate (available on request). Enhanced by the addition of sound-absorbing ceiling tiles, infrared lighting technology, and fans that provide air circulation, this pod's space utilisation is decisively maximised.

Additional Information:

- Prices do not include installation which is mandatory by Gresham qualified installers. Installation costs will be an additional charge and will be supplied on completion of a Gresham consultation or site survey form.
- Prices include posts, cross rails, ceiling, lighting, sliding door, all fixings and all panels.
- All pods are 2200mm high. For 2400mm high please add 10% to all prices.
- For any pods with dividing walls, the dividing wall will be upholstered in fabric.
- Available with Silver, White or Black trim.

FIXING BRACKETS

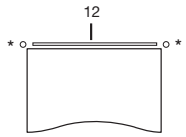
5 Year Guarantee

Desk Mounted Screens fit all Gresham desk ranges and are inclusive of brackets. When ordering, suffix the screen code with bracket type.

How to specify -
1: Identify desk range
2: Select screen position (see diagrams)
3: Identify screen length & type
4: Add bracket suffix to screen code

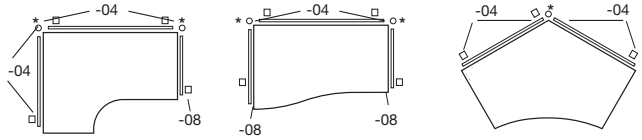
Example of use -
1 1600 Deskit Workstation rear screen VSDF164-20

Bench² Access Top * Requires link post



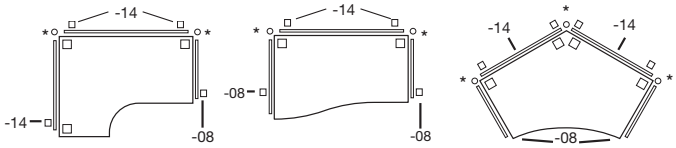
Bench² Scallop Top & DesQ * Requires link post

If used with Bench² over desk shelving, please substitute -04 brackets with -14

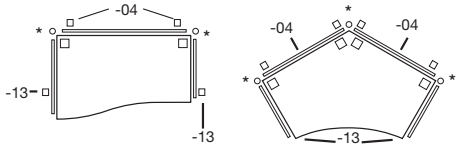


* Requires User Modification

Bench² Fixed Top * Requires link post

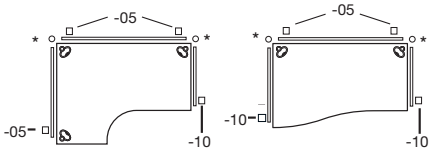


Mesa * Requires link post

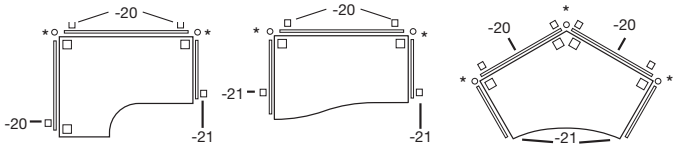


* Requires User Modification

EX10 Executive * Requires link post



Deskit * Requires link post



Desktop Screen Brackets

-04 Mesa, Bench Scallop & DesQ configurations (supplied in pairs).
-05 EX10 Executive configurations - Fits to port holes (supplied in pairs).
-08 Bench² Fixed, Scallop Top & DesQ configurations - 1000 side - 800 sides (supplied singularly) - Jaw size 17mm - 32mm.
-10 Can be used on any range (supplied singularly)
-12 Bench² Access Top screen support rail - singular.
-13 Mesa & Mesa Plus - 800 side & 600 return sides - (supplied singularly).
-14 Bench² Fixed Top brackets - supplied in pairs.
-20 Deskit configurations (supplied in pairs) - Jaw size 15mm - 30mm.
-21 Deskit configurations - 1000, 800 & 600 Return screen for use on 25mm thick tops. Can only be used with rear screen and 4way post

MIRAGE LITE
SCREENS & PODS

Mirage Lite is a 28mm thick, non-pinnable frameless desk top screen system that is designed to fit to Gresham 25mm thick worksurfaces. The range is available in five distinct profile shapes and all screens are supplied with brackets that allow then to be simply fitted into place.

These slim-line screens can be upholstered in a choice of vibrant fabrics that not only help to delineate user space but also can add colour highlights in modern workspace environments. Tackable versions are available for a surcharge.

Additional Information:

- Frameless design.
- 28mm thick frameless upholstered screens.
- Brackets available in Black, Grey, Silver or White.
- Available in five unique designs.
- Fit to front/rear edge of desks/workstations.
- Note 'Arrow' screens do not fit on Bench Deskit (BK).
- For **Tackable** version, please prefix T onto **front** of code *i.e TML1804-2/1*. Surcharge per screen.

Suffix screen code with /4
Example of code = TML1604-2/4
(Mirage Lite 1570 x 380 Curved Tackable Screen with Type 4 brackets)

5 Year Guarantee

RETURN DESKTOP SCREENS

The Mirage Lite Return Screen is designed as an interference fit, so it can be installed and removed several times on a desk top as standard. A metal bracket fixed into the jaw is shaped to contact the desktop at a single point. The bracket creates an undersized gap, but flexes to ensure tight fitting. The second contact point is from the wooden jaw of the screen, this is not structural, just offering some stability. The bracket after time may be pushed down past its elastic point, and could require a slight adjustment back into its original shape to reinstate a tight fit, a gentle pull upwards should achieve this. The screens are designed only as a partition, not a location for accessories to be fitted. They are designed only to support the mass and forces of the screen itself, not anything additional such as people leaning, pushing or twisting once in situ.

INTRODUCTION
BESPOKE

FROM CONCEPT TO COMPLETION

Gresham Bespoke design everything from scratch, starting with the earliest concept sketches through to the installation of our completed products.

From detailed technical drawings we can manufacture and construct every component of a project on site, including meticulous testing and trialling to meet a briefs' specifications. This ensures that we only ever deliver the highest standard of quality bespoke products, that always stand the tests of time.

GRESHAM
BESPOKE

OUR PROCESS

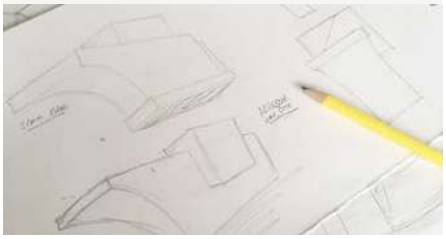
'The Devil is in the detail' and when supplying tailored solutions, it's all about getting every aspect right to meet your needs, in the timescales that suit you and at the right price.

1. CLIENT REQUIREMENT

Though we offer a huge selection of products within our standard portfolio, there's always a time when something different is required. This is where we listen to you and find out what you or your team need. This is where the wish list can be fine-tuned.

2. CONCEPTS

Whether starting from 'set-in-stone' specifications or a clean piece of paper, we discuss your requirements with you, offer advice and can quickly determine whether the solutions need to go down our 'Specials' or 'Bespoke' route; offering alternatives where possible. These can be simply illustrated to help communicate the ideas and formulate the plan of action.



3. DESIGN & CGI

Once agreed, we develop the ideas into detailed designs that will meet all exacting standards. We understand, however, that some things are difficult to imagine, so as part of our service we can produce computer generated images of the suggested products shown in detail or placed within your workspace. Colours, textures, shapes and scale can all be shown, bringing the whole concept to life.

4. SITE TEMPLATE

We appreciate that real life can differ from concept, so when needed, members of our specialist team will visit site to confirm measurements or produce templates for manufacturing parts to ensure an exact fit during the installation phase. It's all about getting it right!

5. MANUFACTURE

Being able to draw upon our design experience, state-of-the-art manufacturing facility and combining this with our hand-crafted joinery expertise enables us to work with an enormous array of materials and processes. This allows us to turn those concepts into reality.

6. INSTALLATION

Whether it's a simple drop-off on site or a complete fitted solution, it's all part of our complete service in supporting you. It doesn't stop there either. If needed, once the furniture is installed we can offer user guides and explanations to ensure each user benefits from the experience.

FINISHES & ADDITIONS

We work closely with Architects, Designers & End users to help choose and specify finishes taking into consideration: Design, Manufacturing process, Durability & Budget.

GRESHAM STANDARD MFC

Standard range of finished available in 18mm, 25mm & 36mm thick board. ABS edging is available either 1mm or 2mm thick in a matching finish or Multiplex. Refer to the Gresham Product Guide for available MFC finishes. Samples can be requested by contacting your account manager or our sales department.

GRESHAM STANDARD HIGH PRESSURE LAMINATE

Matching laminate finishes that complement our standard MFC range. The core material is MDF, available with ABS edging at 1mm or 2mm thick with a matching finish or Multiplex. Refer to the Gresham Product Guide for available laminate finishes. Samples can be requested by contacting your account manager or our sales department.

NON-STANDARD HIGH PRESSURE LAMINATE

We offer hundreds of finishes from a range of manufacturers including plain colours, wood grain effect, textured finish, matt, high gloss, patterned and metallic finishes. Due to the wide range available, we do not hold samples in stock but they can be requested direct from the manufacturer. Alternatively email bespoke@gof.co.uk to request samples on your behalf.

REAL WOOD VENEER

We can select veneers with unique grain patterns to suit individual products highlighting the natural beauty of a wood finish. European Oak, Maple, Ash & American Black Walnut are all available. Samples can be requested by contacting your account manager or our sales department.

SOLID SURFACE

Solid surface is an extremely versatile material that can be shaped and formed with seamless joints using thermoforming. The option for engraving is also available when choosing a solid surface finish. As an approved Corian fabricator we can offer a 10 year guarantee on our products.

GLASS

We can finish our units with toughened glass. Available as back painted or with coloured film backing, straight or curved.

GLASS COUNTER

Available as straight or curved units, adding a clear protective layer.

GLASS FRONT

Connected to Rectangular Base, Block or Hutch adding a touch of finesse.

GATE AND FLAP

Used to enclose users whilst providing access when units are adjacent to walls.

LIGHTING

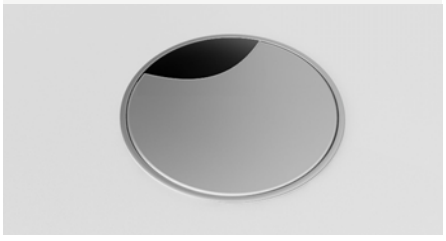
This subtle addition can highlight kick-plates, counters or recesses. This is supplied in a selection of styles to suit the application.

SIGNAGE

Units can simply be customized to suit your building and work requirements to feed all the services through the furniture, directly to any reception equipment.

CABLE MANAGEMENT TUNKING AND OUTLETS

This addition can personalise the units, whether fitted to base units or hutches, glass or acrylic panel.



FEATURE INLAYS

Adding more finesse to standard units, these strips are used to decoratively 'break-up' vertical surfaces and can be colour co-ordinated to suit with kick-plates.

NEW PRODUCT

LS37
TASK & VISITOR

Thanks to its active movement, LS37 helps to provide a healthy sitting experience. With its' smooth motion and practicality, the pivoting base allows the user to sit with an open leg angle which helps to alleviate pressure placed on hips and lower back, as well as feet, ankles and legs; comparative to the detriment of sitting with a traditional posture. The stool can also be used as a 'perch' when using a Sit/Stand desk with its height adjustable column.

CONFERENCE, MEETING & CAFÉ

2 Year Guarantee

Coso is a family of products made up of chairs, armchairs and stools, with fiberglass polypropylene shells and metal frames. The idea is to offer a collection of products intentionally limited to a few base models, thanks to the essential design's versatility and to the range of colour combinations between shells and frames. Ability to stack all models.

VONA

AN INNOVATIVE, ENVIRONMENTALLY-FRIENDLY CHAIR MADE FROM RECYCLED FELT, POLYPROPYLENE BOTTLES AND NON-WOVEN TEXTILES

WITH EVERY VONA CHAIR MADE, THERE ARE APPROXIMATELY 70 PLASTIC BOTTLES SAVED FROM POLLUTING THE ENVIRONMENT

RESPONSIBLE DESIGN FOR SUSTAINABLE FURNITURE

Vona is a response to the human need to reduce our carbon imprint on the planet, and to rediscover waste as an industrial material of the future. Re-thinking a new philosophy of socially responsible, sustainable design, Vona is constructed with recycled Felt (60% re-cycled PP bottles and 40% non-woven textile).

The amount of waste in the form of PET bottles is increasing every year, and they can be recycled in different types of material. The use of waste in industrial materials of the future, is an important asset to reduce CO^2 emissions produced in different factory-made processes.

Using a process borrowed from the car industry, Vona is designed and produced with sustainable products made from waste materials. The goal was to use material that is considered 'rubbish' – felt made from recycled plastic bottles.

Floating, toxic microplastics are often ingested by marine life, which in turn is ingested by us.

40% of Europe's plastics are only used once, then thrown away.

Plastics in the ocean kill marine mammals such as whales and dolphins, as well as seabirds.

More than 1,200 animal species are in danger from eating plastic or becoming tangled in it.

Plastic bottles are the third worst plastic polluter of the ocean.

Enough plastic is thrown away each year to circle the earth four times.

ONLY BY WORKING TOGETHER CAN WE STOP THE OCEAN DROWNING IN PLASTIC

ONLY BY WORKING
STOP THE OCEAN DR

TOGETHER CAN WE
OWNING IN PLASTIC

VONA
CONFERENCE, MEETING & CAFÉ

NEW PRODUCT

2 Year Guarantee

In keeping with our social responsibility, we introduce this sustainable chair design; a simple but unique chair made of recycled Felt (60% re-cycled PP bottles and 40% non-woven textile).

Vona is a conference chair that can be stored into vertical stacks. The seat consists of ergonomic triangular plates allowing comfortable sitting by adapting to the body.

You can find dimensions for all products in the techinal data section of this brochure.

Please Note: All images shown are for illustrative purposes.

Some aspects of certain products may differ.
Please contact our customer services department with any queries.

5 Year Guarantee

DESIGNED BY
DAVID FOX

The Steps family includes the classic lounge chair, with an optional high, wing-backed headrest, which is perfect for executive breakout spaces or reception areas where style is paramount, as well as a compact version ideal for meeting rooms and foyers. Both formats can be specified with either a stylised 4-star swivel base or simple rod skid frame. Each chair is available in a variety of fabrics and has the option of being finished with a contrast wood surround which accentuates the sophistication of the model.

Steps is an award-winning reinvention of the popular lounge chair design. It redefines the sitting experience with its sweeping curves, distinct profile and soft cushioned shell offering luxurious comfort and effortless elegance.

- Available in a variety of fabrics.
- Acoustic surround on the high back option.
- Optional frames and back heights.

"A JOURNEY OF A THOUSAND MILES BEGINS WITH A SINGLE STEP".

NEW PRODUCT

KAST

SOFT SEATING, RECEPTION & BREAKOUT

Kast is characterised by a single piece shell with a choice of mechanism which is concealed within the seat and simply adjusted by semi concealed triggers. Kast's strength lies in its innovative high resistance inner structure, adding to the environmental story of the chair.

Available with or without elegant die-cast aluminium armrests in a selection of colours which move with the body of the chair. With the technology hidden inside the shell and covered by a wide range of fabrics the underside is tidy and compact.

TAKE OFF PLUS LOW BACK
SOFT SEATING, RECEPTION & BREAKOUT

5 Year Guarantee

Take Off Plus is an extension to our popular Take Off sofa system with the addition of stylised surrounds, integrated tables and technology, as well as a choice of support frame designs.

Upholstered surrounds are available in two heights allowing Take Off Plus to blend collaborative working hubs with breakout spaces or quiet, concentration areas - making this distinctive family ideal for the modern workplace landscape where space is at a premium and multi-functionality is key.

The lower backed models are designed to coordinate with the higher models or for use on their own. These modules can be used equally effectively in open planned clusters, around the perimeter of a room or individually placed. The lower surrounds provide users with a feeling of security whilst allowing specifiers to inject two-toned colour options into their workspace.

Frame Options

Seating modules are available with three styles of frames.

TAKE OFF PLUS HIGH BACK
SOFT SEATING, RECEPTION & BREAKOUT

5 Year Guarantee

Take Off Plus is an extension to our popular Take Off sofa system with the addition of stylised surrounds, integrated tables and technology, as well as a choice of support frame designs.

Upholstered surrounds are available in two heights allowing Take Off Plus to blend collaborative working hubs with breakout spaces or quiet, concentration areas - making this distinctive family ideal for the modern workplace landscape where space is at a premium and multi-functionality is key.

The taller backed models within this family are set to the ideal height to offer privacy for users whilst allowing those around to see whether pods are occupied or not. They provide acoustic dampening when socialising or holding meetings in open-planned areas, without restricting existing lighting or air circulation within the room in which they are installed.

Frame Options

Seating modules are available with three styles of frames.

Steel 4 Leg Frame
Suffix Code -4

Sled Frame

TAKE OFF LITE
SOFT SEATING, RECEPTION & BREAKOUT

5 Year Guarantee

Take-Off Lite is a modular upholstered sofa system that can be used to delineate mid floor or perimeter spaces in those 'away-from-desk' areas, making it great for busy workplaces or public use.

Its seat and back can be matched, or complemented to provide additional visual interest, whilst Take-Off Lite's light-weight skid frame provides simple elegance whilst allowing modules to be easily configured to the desired layout.

Modules are available with or without backs, in single or twin seat options. Each unit can be matched to each other in any combination or used individually providing flexibility for your working landscape.

INTRODUCTION
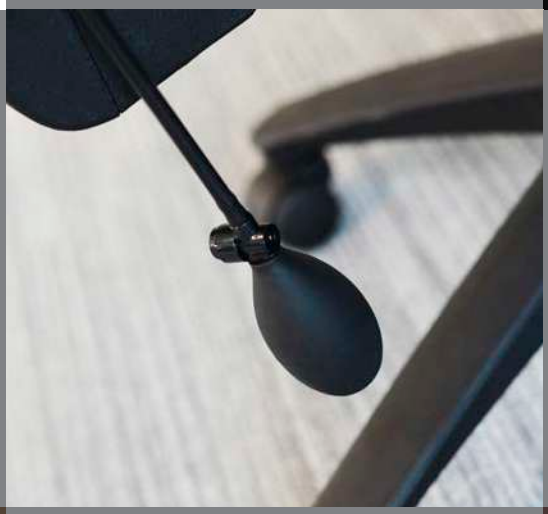
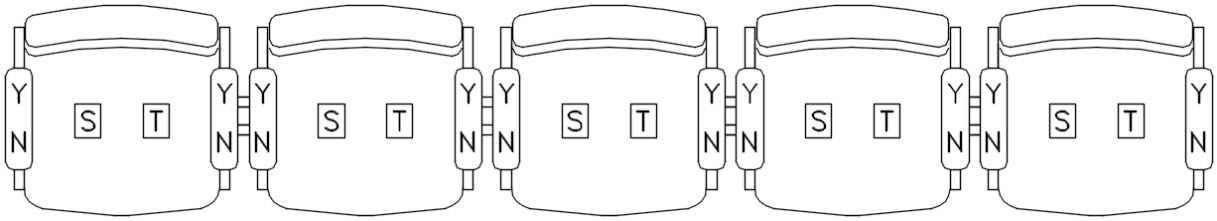
TECHNICAL INFORMATION



Please circle required configuration and forward to our Sales Dept. with official order.
Please note only certain ranges are vailable with five seats.

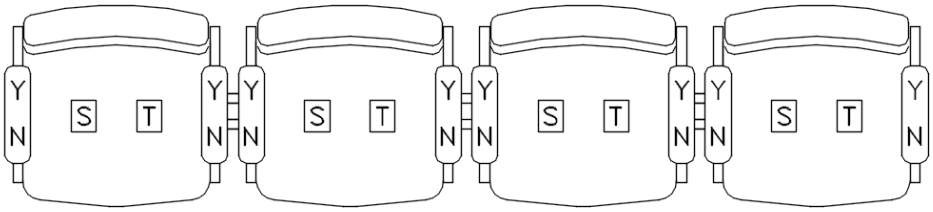
S = Seat T = Table Y or N = Arm (Yes or No)

5 Seat or 4 Seat/1 Table



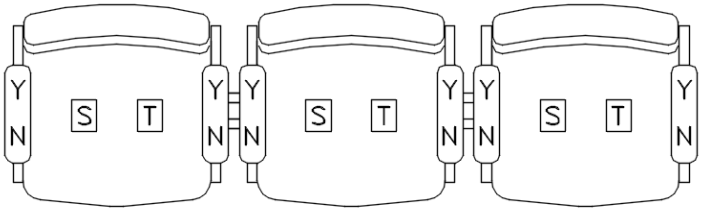
Front of unit.

4 Seat or 3 Seat/1 Table



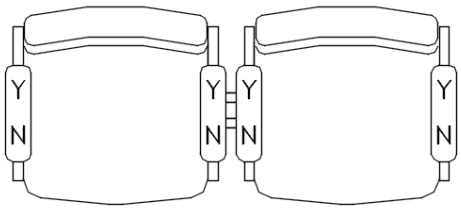
Front of unit.

3 Seat or 2 Seat/1 Table



Front of unit.

2 Seat



Front of unit.

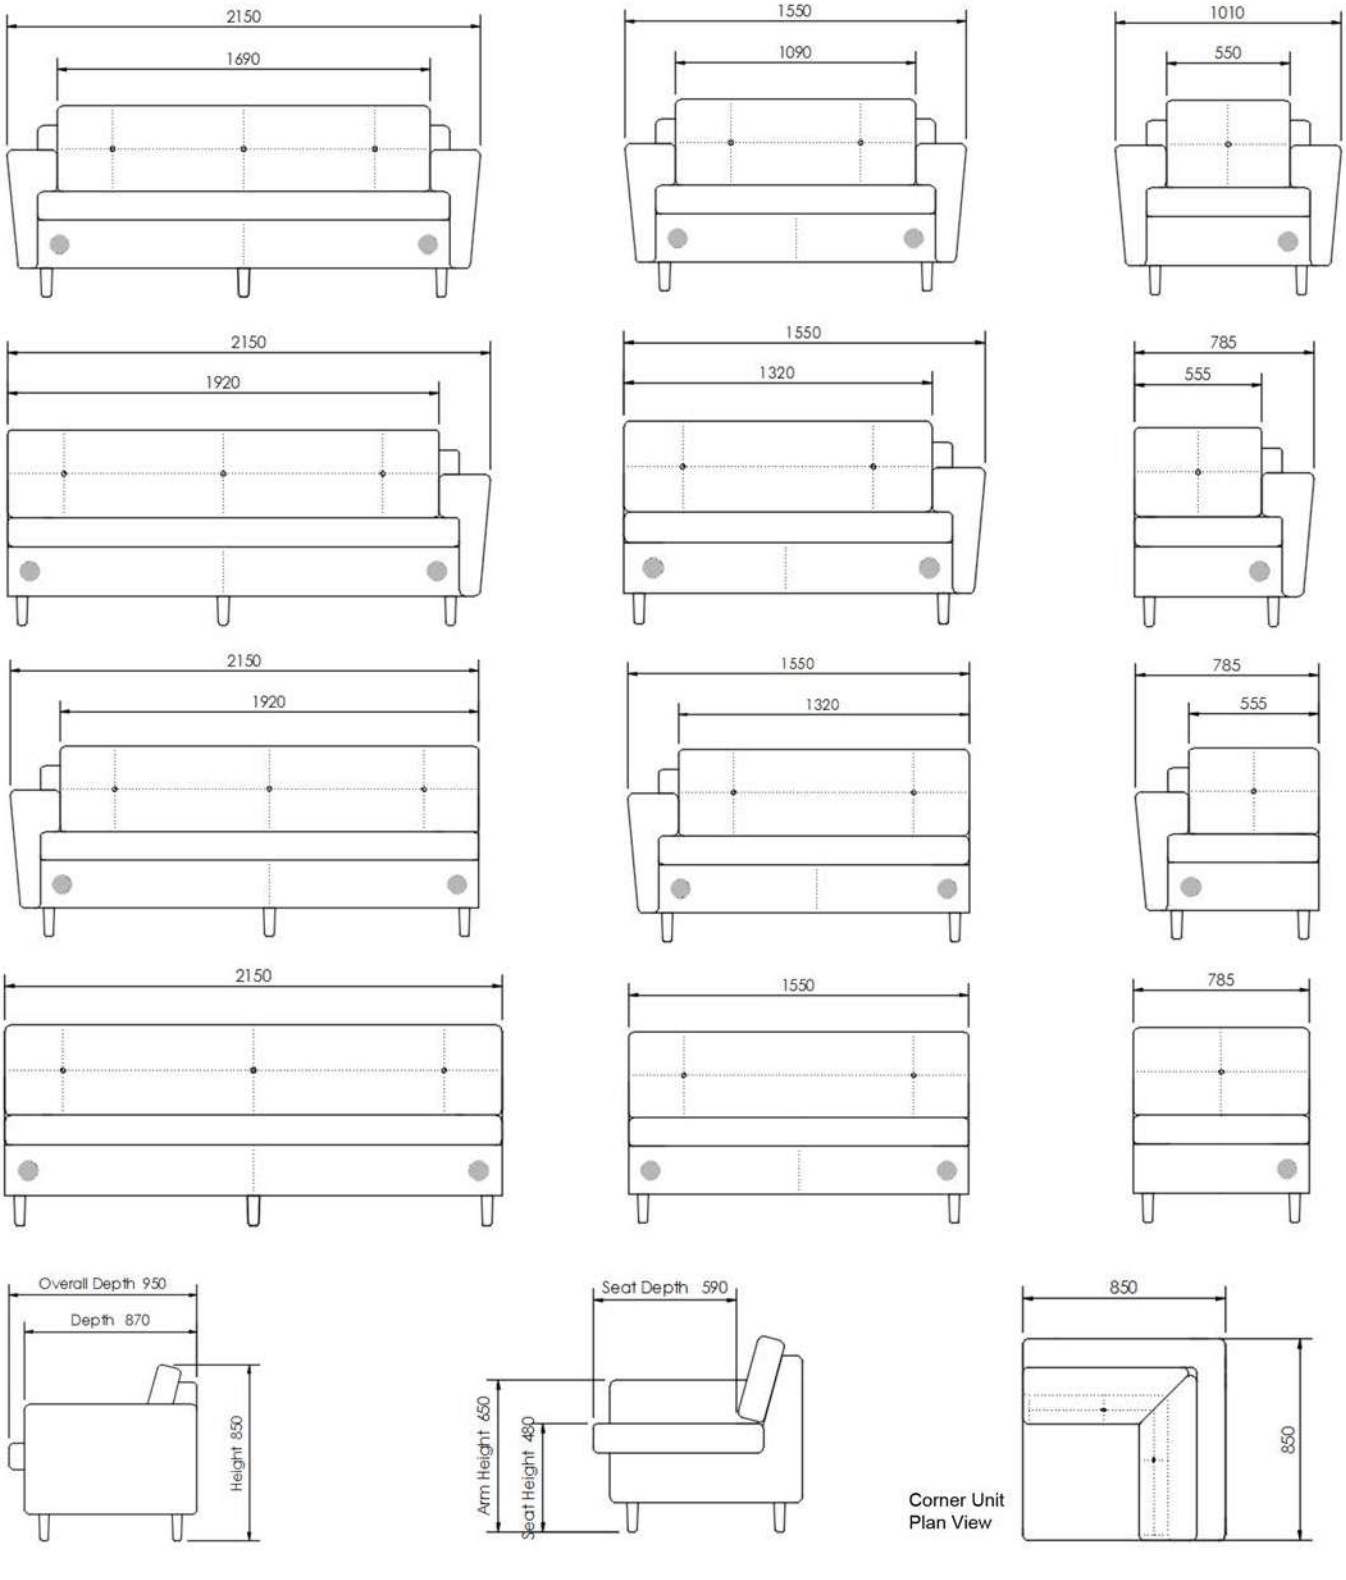
Example

GALLEN DIMENSIONS
TECHNICAL INFORMATION

- Available with optional fitted service modules where shown.
- Each module contains 1x UK power outlet and 1x twin USB fast charge outlet. Supplied with 3m lead to UK plug.
- Suffix code with ‘P’ to specify sofa with service module.

Denotes position of service module.

Additional Information
All dimensions are approximate and should be used as a guide only.



TAKE UP BOOTH DIMENSIONS
TECHNICAL INFORMATION

A variation of our high-back Take Up sofa system.

- All connector walls are supplied with concealed fixings for TV bracket or table use.
- Tables are supplied with square flat bases and fixing brackets.

Additional Information
All dimensions are in millimetres (mm), are approximate and should be used as a guide only.

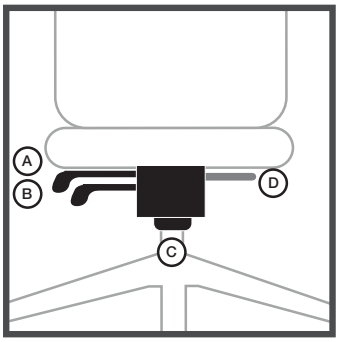
TASK SEATING MECHANISMS
TECHNICAL INFORMATION

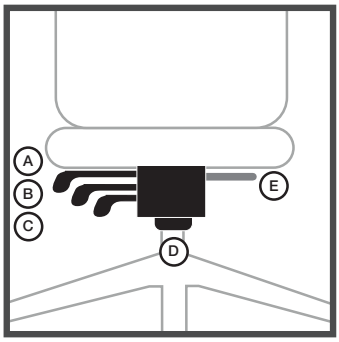


MECH 2

Points
Synchronized mechanism
Optional Seat Slide (50 mm movement)

Operation
A - Seat Height Adjustment
B - Seat & Back Angle Adjustment (Synchronized)
C - Mechanism Tension Adjustment
D - Seat Depth Adjustment (Optional)

Used On
Platinum Plus Round
Platinum Plus Square
Platinum Ergo
Platinum Squared

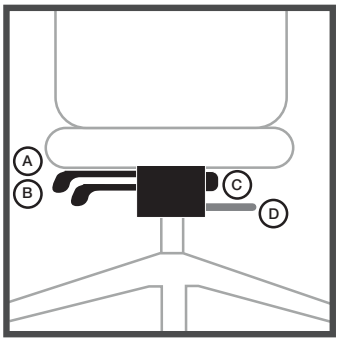


MECH 3

Points
Independent Seat & Back
Optional Seat Slide
Seat slider with 50 mm movement

Operation
A - Seat Height Adjustment
B - Seat Tilt
C - Back Angle Adjustment / Lock
D - Mechanism Tension Adjustment
E - Seat Depth Adjustment (Optional)

Used On
Platinum Plus Round
Platinum Plus Square
Platinum Ergo
Platinum Squared

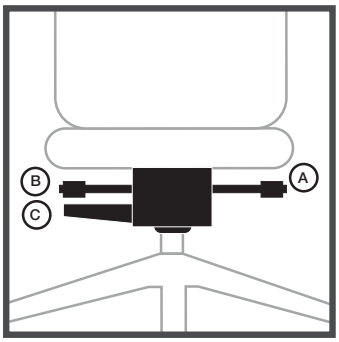


MECH 4

Points
Fixed Seat
Optional Seat Slide (50 mm movement)

Operation
A - Seat Height Adjustment
B - Back Angle Adjustment
C - Mechanism Tension Adjustment
D - Seat Depth Adjustment (Optional)

Used On
Adlington
Adlington Mesh

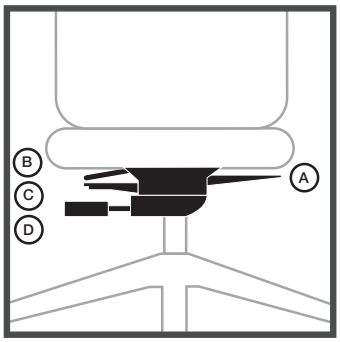


24/7 MECH

Points
Synchronized mechanism
Allows coordinated movement
(21 ° Back /9 ° seat)
5 Lockable Back positions /
Safety antishock system
Seat Slide with 50 mm movement
& 5 locking positions

Operation
A - Lever: Lockable Seat Slide / Button: Mechanism Limiter
B - Lever: Seat Height Adjustment / Button: Lock
C - Mechanism Tension Adjustment

Used On
Bromley 24/7

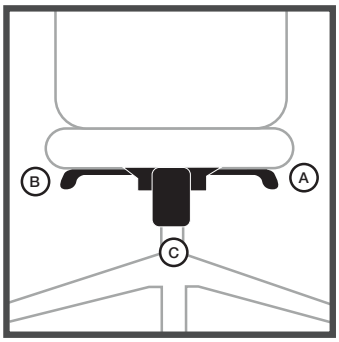


TO MECH

Points
Synchronized mechanism
Allows coordinated movement
(20.5 ° Back /11 ° seat)
Lockable in selected position

Operation
A - Mechanism Release Handle / Position Lock
B - Seat Depth Adjustment
C - Seat Height Adjustment
D - Mechanism Tension Adjustment

Used On
Take Off Executive
Takeoff

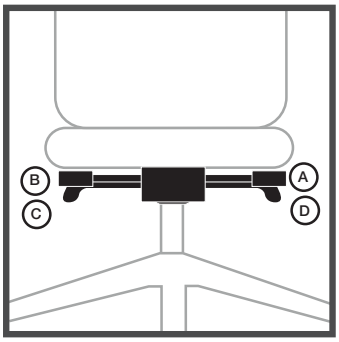


HQHE / HQME

Points
Knee Tilt
Back Tension Adjustment

Operation
A - Back / Knee Tilt / Back Angle Lock (Lift)
B - Seat Height Adjustment
C - Mechanism Tension Adjustment

Used On
Harlequin Executive



MECH 7

Points
Synchronized mechanism
Allows coordinated movement
5 Lockable Back positions
Seat Slide with 60 mm movement

Operation
A - Back Adjustment Lock
B - Back Angle Adjustment Tension
C - Seat Height Adjustment
D - Seat Depth Adjustment

Used On
G Series
G Series Mesh
Moveup
Platinum Plus Round
Platinum Plus Square
Santis Ergo
Santis Squared

LEATHER GROUP 1

Crest / JMT Shelly

Leather Group 1 is for selected Shelly hides. Other colours from this range are available but could be subject to a surcharge dependant on leather maximisation, POA. Please note that all leathers are subject to natural markings and variations in shade. These natural bruise marks distinguish it from man made imitations. The variations are features, not faults.

Black

Cream

OTHER INFORMATION

Fire Retardancy
All information regarding fire retardancy has been provided by the fabric manufacturer.

Flame Retardancy Ratings:

C&M	Cigarette and Match = Low Hazard
C&M*	Cigarette & Match as standard. Can be treated to achieve Crib 5 upon request.
CRIB 5	Medium Hazard
CRIB 5*	Medium Hazard when used over CMHR 50kg Foam.

Abrasion
All information regarding abrasion has been provided by the fabric manufacturer and communicates wear resistance as determined by the Martindale abrasion test.

Vinyl
Fabrics marked with V are Vinyl.

Product leadtimes may be affected by the fabric selected. Please contact our Sales Department for further information.

Please Note:
Fabrics other than those listed above are available. These fabrics may require testing to ensure their suitability for use on the intended product. Not all fabrics shown are suitable for use across all ranges within this document. Due to their specification, certain fabrics may have a detrimental effect on the final appearance of a product.

Due to limitations in the printing process, when acrylic is shown photographically we recommend that you send for actual acrylic samples before ordering.

METAL FINISHES

White | Silver | Grey | Black | Chrome Paint (Surcharge)

WHY CHROME PAINT?
Due to the impact of the toxic chemicals used in chrome our chrome paint offers a similar look without treatment to dispose of the waste.

GRESHAM MFC COLLECTION

A chic choice of 12 classic wood grain finishes and 5 fashionable yet subtle colours.
Match or complement your chosen MFC with enviromentally friendly, superior high impact resistant ABS edging.

Alpine Oak | Beech | Elm | Ash | Maple | Walnut

THE FENIX COLLECTION

Fenix, the nanotechnological material from Arpa Industriale, has revolutionised the world of interior design. It is not only beautiful to look at but, most importantly, it is also a high-tech material, made unique by its characteristics.

Fenix has these characteristics by undergoing a particular series of processes, including a multilayer coating and the use of next-generation nanoparticles and acrylic resins, which are hardened and cured through an innovative Electron Beam Curing process. This process makes the material anti-fingerprint, soft to the touch, opaque and extremely durable, so much so that it can withstand serious knocks and scratches, but also makes it highly resistant to the aggressive action of solvents and reagents typically used for household cleaning.

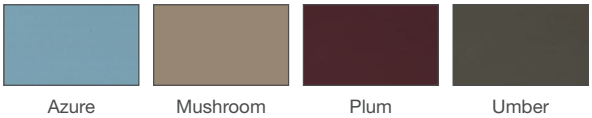
Fenix is also heat-resistant. Additionally, should the surface have superficial microscratches, heat actually helps to repair them. The surface of the material is scattered with a dense grid of crosspolymers with their own memory, which can be reactivated by the application of heat.

Fenix is also water-repellant, hygenic, thanks to its effective bacteria-killing action, and resistant to mould.
All of these make it a perfect surface for contact with food and very easy to clean.

We have a large selection of matching Edging to choose from that perfectly complements our Fenix Collection.

THE SCRIPT COLLECTION

Accent colours for doors and drawer fronts only.



GRESHAM FILAFO COLLECTION

Add a hint of colour and stand out from the rest with Gresham's Filafo Collection. Comprising of a variety of modern laminates with bold graphic patterns to enhance any chosen environment.
