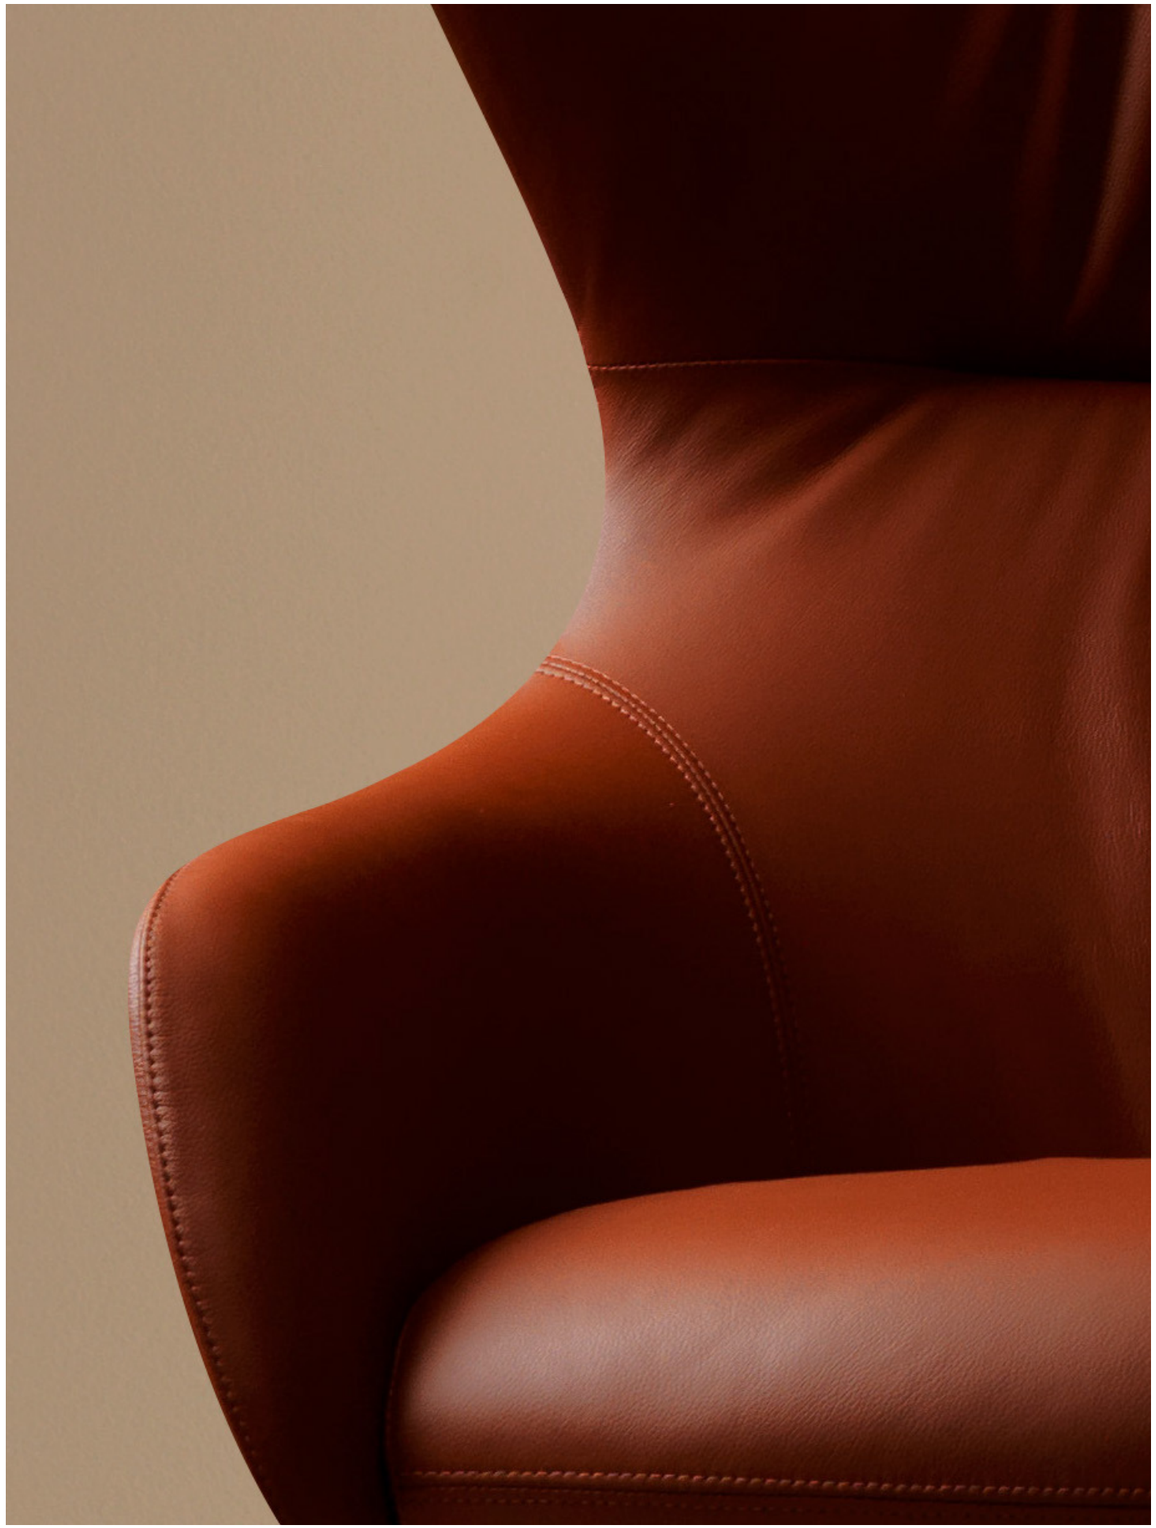
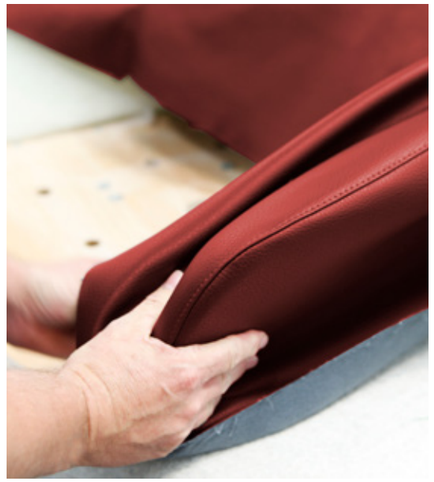
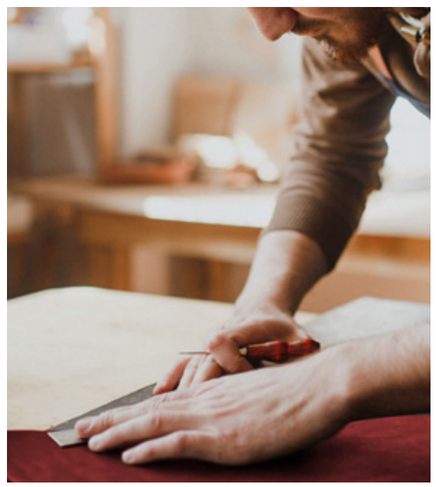
## Traditions

Superb design, excellent build quality and stitch-perfect upholstering make each piece of lounge furniture by Boss Design desirable and luxurious. Meticulous attention to detail goes into the fabric patterns we create. This dedicated tailoring process brings the gorgeous, sculptural forms envisaged by our designers to the fore. At the same time, it guarantees maximum seating comfort and a delightful finish to every edge and surface.

Interior specifiers love working with Boss Design because each line in our Lounge Collection can be covered in just about any fabric and in any colour. This flexibility makes it possible to hone the atmosphere and experience with our seating harmonising perfectly with the décor. And, because we will adapt our patterns to suit your chosen fabric, you can be sure every single upholstery detail is replicated to the highest standard.







# Handcrafted

## Luxury

High-quality upholstery and joinery are at the heart of what we do. These traditional, hands-on skills inform our design and manufacturing process from concept through to the final build of the furniture you order. Each seat and sofa we make is driven by a fresh aesthetic vision, developed iteratively and honed to its perfect form in a process that combines time-tested furniture know-how along with state-of-the-art technology.

Comfort, ergonomics and timeless visual appeal are part of the Boss Design ethos, which is reflected in every piece of lounge seating we produce. Applying superb craftsmanship and using the highest quality materials, we make furniture that lasts. Durability cuts the carbon impact of our products, while continuous innovation and experimentation ensures that each beautiful new line we introduce is among the most sustainable on the market.
