

WILTON CARPETS

AXMINSTER RAPIDE

Collection

Axminster Rapide

This collection of luxurious Axminster carpets can usually be woven and on their way to you in fourteen days, depending on quantity.

Often, being able to meet tight delivery timeframes is project-critical. We can help with those time-pressures without compromising design or quality. The Axminster Rapide collection offers dynamic, modern styling and enduring favourites, all woven in our durable, resilient axminster carpet and manufactured in our Wiltshire factory.

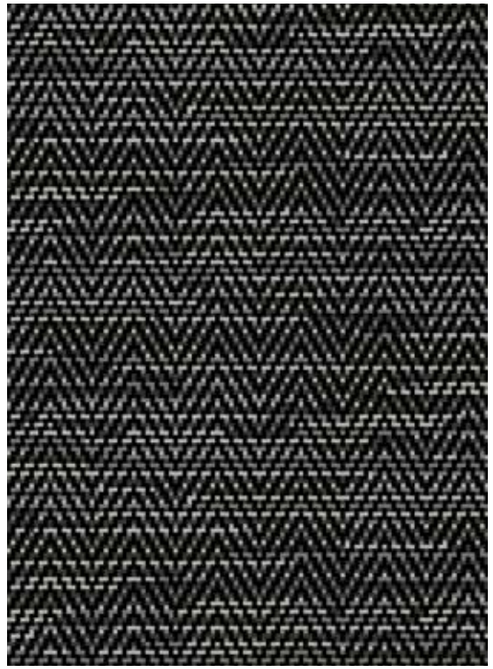

These contract-quality carpets, with our optimal 80% wool, 20% nylon yarn blend, offer outstanding long-lifetime-value.

For more information, get in touch;
we'd love to hear about your next project

Technical

ENVIRONMENTAL ACCREDITATIONS

We're dependent on British sheep and the grass they graze across the country, so it just makes sense to look after our environment. In recognition, we're ISO 14001 and BREEAM compliant.

SAIL SAFE

For marine applications, have confidence that we're Wheelmark Approved;

- IMO and US Coast Guard Certified
- IO Resolution A653 (16)
- IMO Resolution MSC 61 (67) Annex part 2 and Annex 2 IMO Resolution MSC 61 (67) Part 5 and Annex part 2

FLAMMABILITY

Our carpets have passed Radiant panel ISP 9239-1.

PILE AND BACKING

Our yarn is 80% wool and 20% nylon, providing the optimum blend of comfort, sound and heat insulation, resilience and long lifetime value. The backing is woven as an integral part of the carpet weaving process, making our carpets uncommonly durable, even in medium to heavy contract applications.

QUALITY ASSURED

It's quality all the way through the business and we're ISO 9001 accredited to certify that. We also have Cfl sl (C Flooring) certification and our carpets have passed the Radiant Panel ISP 9239-1 flammability test.

Range	Quality	Pile Weight	Width BS 3655

ENVIRONMENTALLY RESPONSIBLE PRODUCTION

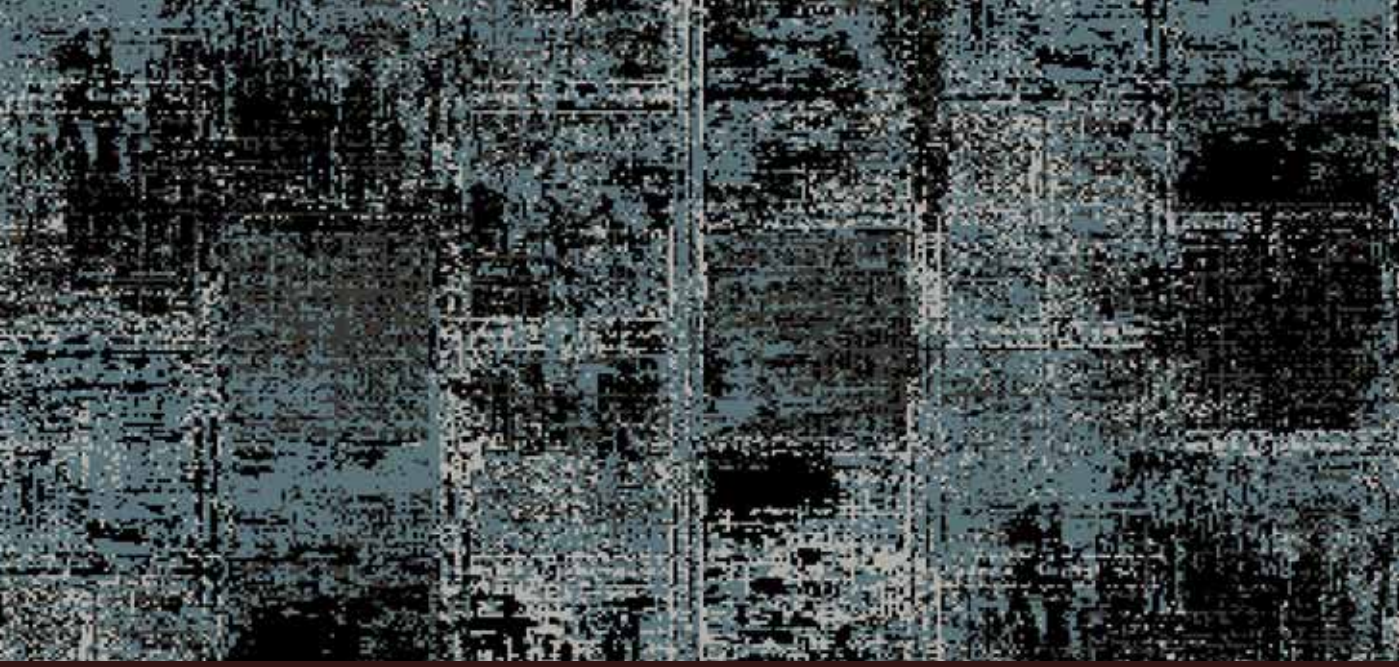

This brochure has been responsibly produced in the UK. Printed on FSC certified paper, using fully sustainable, vegetable oil based inks and waterless printing technology powered by 100% renewable resources. The paper is carbon balanced. The print production systems are registered to ISO 14001, ISO 9001, EMAS standards and over 97% of waste is recycled.
