Pure Wool Upholstery Fabrics for the Contract, Commercial and Workplace Environment

MOON
ESTABLISHED 1837

Heritage | Design | Quality

We craft our collections of beautiful yet durable furnishing fabrics from the historic Moon mill in Guiseley, Yorkshire. Established in 1837 and with over 180 years of proud British manufacturing & design heritage already to our name, we are now one of Great Britain's last remaining vertical woollen mills.

The term 'vertical' is a throwback to the Victorian era when mills would rise several stories, with each floor containing separate parts of the manufacturing process. Today it remains a unique confirmation of our authenticity; we control every stage of production from raw wool to finished product including Dyeing, Blending, Carding, Spinning, Warping, Weaving, and Finishing.

We create our collections with a balance between innovative design & traditional craft, maintaining our position at the forefront of commercial trends with consistent high quality. Our passion for distinction remains as strong now as ever, carrying the message of what it truly means to be 'Made in Great Britain'.

A perennially popular pattern for interiors, Herringbone is truly the perfect design choice for classic, clean cut furnishings. We've crafted fifty two brand new Herringbone fabric colours, from naturals & greys right through to richer, tonal shades. A versatile fabric for use in all furnishing projects.

DARK NATURAL · U1796/PM34
TAN · U1796/KO31
LINEN · U1796/PM07
CHARCOAL · U1796/PM08
GREY · U1796/PM09
STONE · U1796/PM13
SILT · U1796/KO13
BONE · U1796/KO47

An alluring Parquet pattern, inspired by a combination of our historic fabric archives and our renovated showroom suite, brought to life by a series of exciting new colourways. Striking combinations of teal, candy, and rhubarb blend seamlessly into other rich hues and warm neutrals; the end fabric result perfect for bold, contemporary interiors.

Space to..

A perfect example of combining patterns, Parquet petrol complementing the Melton Teal looks striking sat in the reception area of any office space

Marketing support

You can be assured through the Abraham Moon sourcing scheme that our Shetland-Quality Wool fabrics adhere to these core principles:

Our Wool is Fully Traceable

We have records in place to track every wool consignment right back to the individual farms & land where the wool was grown.

A Passion for Best Farming Practices

All sheep are free range, pasture fed and non-mulesed, with every grower adhering to the five animal freedoms and welfare codes.

Envrionmentally Friendly Washing

After shearing, the wool is scoured using only eco-friendly detergents, with zero bleach added to alter the natural colour.

Guaranteed Natural Quality

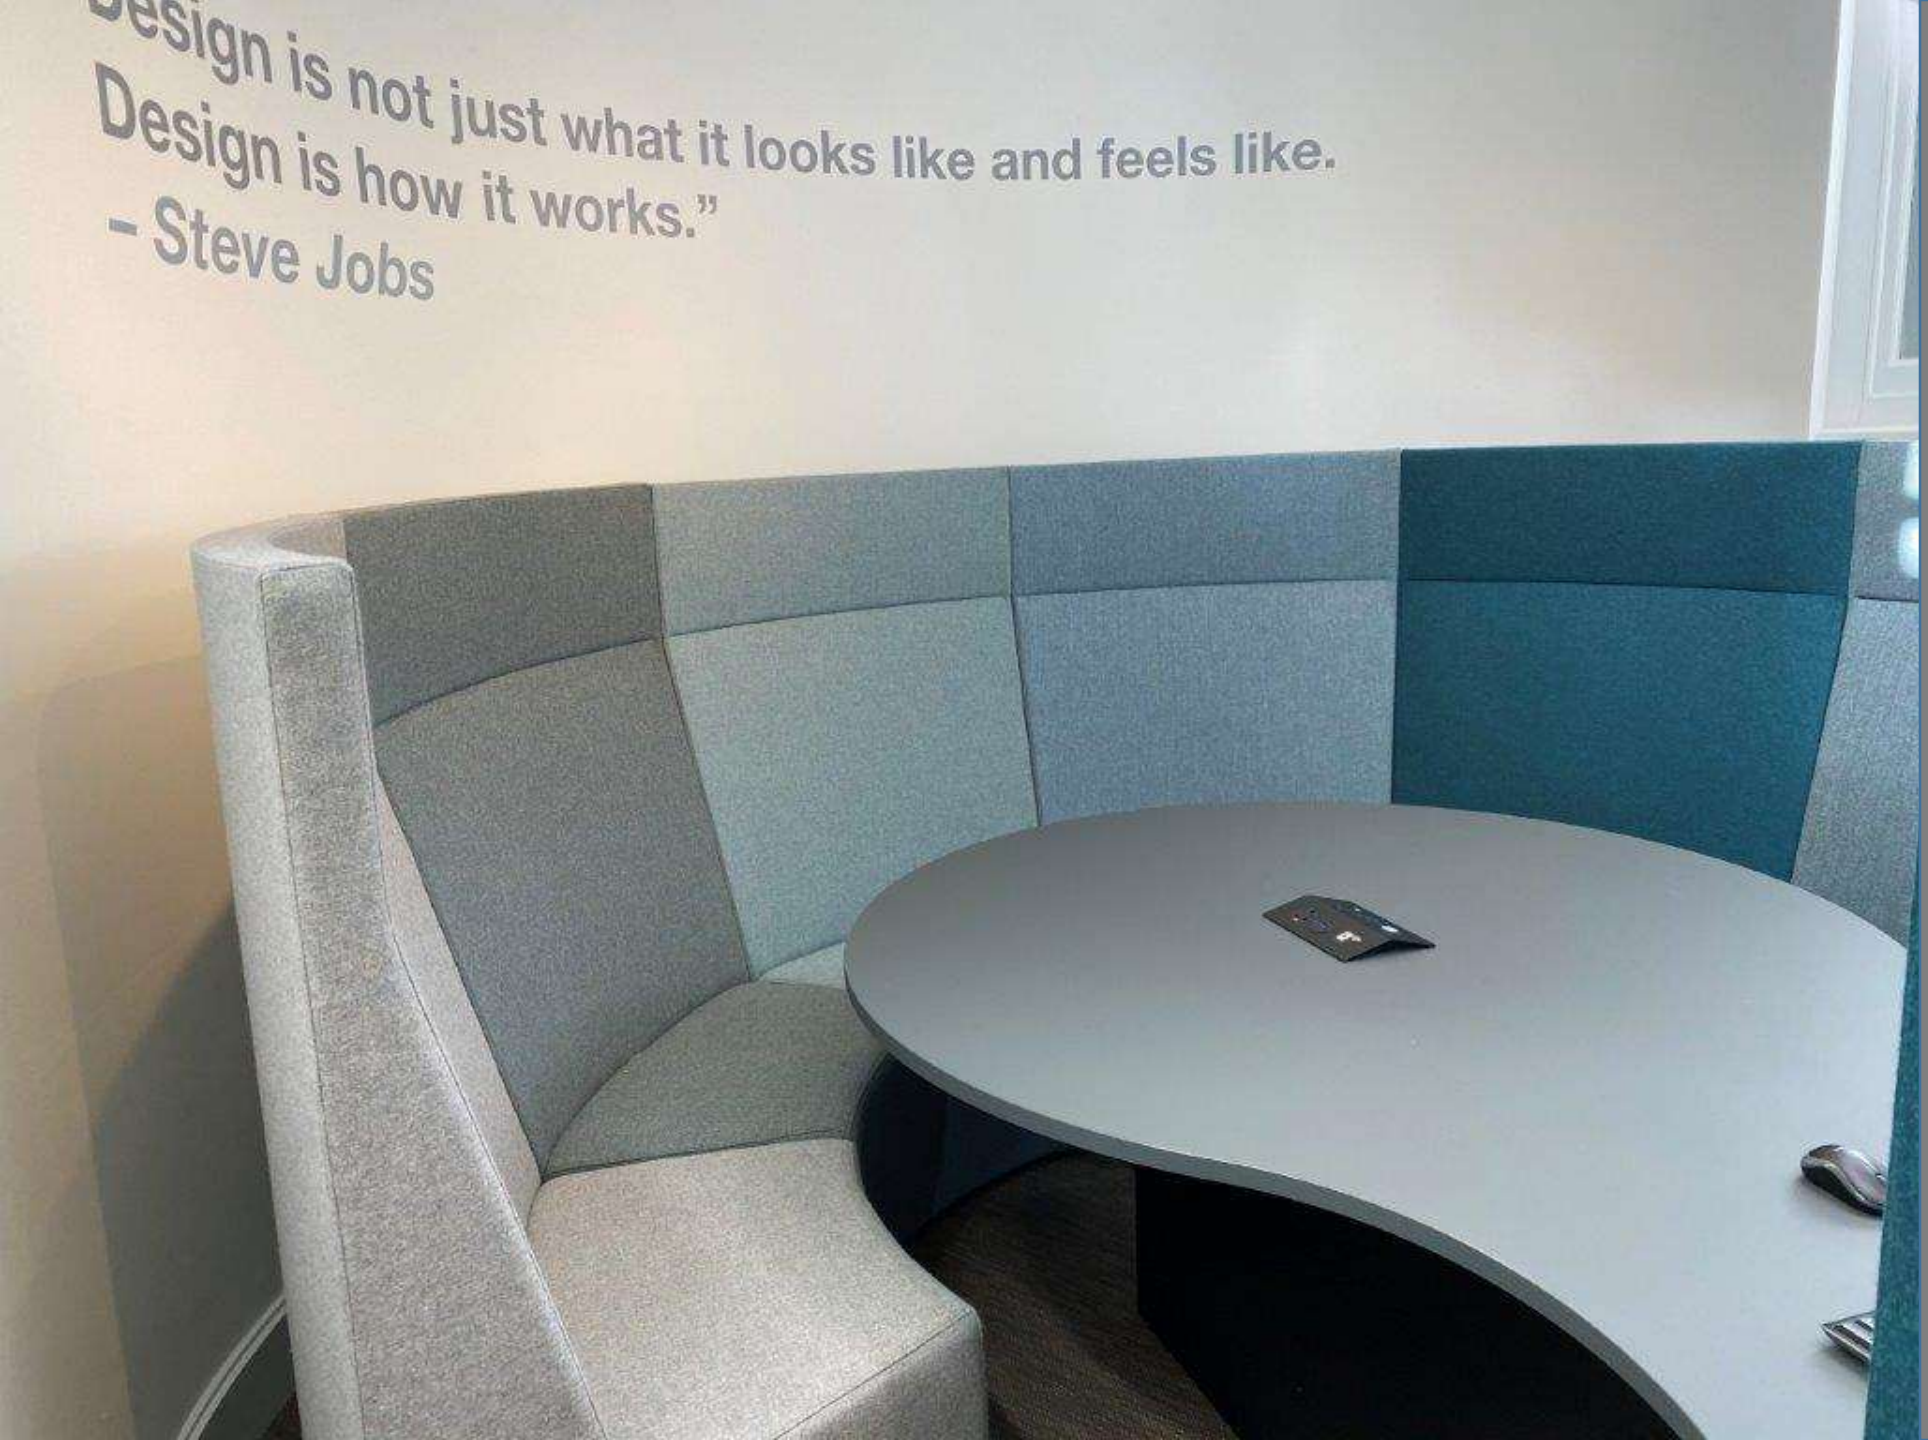

Wool's inherent benefits as a biodegradable, renewable, 100% natural fibre makes it the perfect remedy to plastic problems.

This flyer has been printed using recycled pulp card.

The beauty of our collections is that they work together in whatever colour palette you chose. Shown here we have Melton, Parquet, Spectrum & Herringbone used together in a single project to create an impactful finish.

"Design is not just what it looks like and
Design is how it works."
– Steve Jobs
