Let's design together

Unique.

If you're looking for something different, our bespoke PRINTLAB+ design and print solution can create and deliver that unique fabric for your project whatever the budget requirements.

As a talented bunch of highly skilled creatives and technicians, we digitally print your patterns to produce beautiful bespoke printed fabrics suitable for interior Furnishings and Upholstery.

For Contract Interiors we offer an extensive range of FR Fabrics for the Hospitality, Education, Healthcare, Marine, Leisure and Events markets.

Let's put our heads together

If you can't find what you're looking for in our PRINTLAB+ Library or need to know more about our design and print service please get in touch.

Choice.

A change for the better
If you want to choose or modify an existing design from our PRINTLAB+ Library we can recolour it to meet your exact requirements and digitally print it onto your choice of base cloth.

Bright ideas for you
The PRINTLAB+ is a fountain of inspiration. And whether you have an existing design or you want to create something new, our designers can work from your brief or simply an idea or picture.

Your unique fabric
Once the design is agreed, we transform it into artwork for your review and, when the design is finalised, we provide a sample that is digitally printed onto your chosen base cloth. Finally we print your bulk quantity order onto one of our extensive range of base cloths that conform to **British and International flame retardant standards** and deliver it to you. Options of printing to narrow and wide widths (137cm to 300cm) are available on some of our base cloths.

Design Studio.

Our design team have the skills and latest technology to produce print ready artwork or, if you already have your own artwork, we can adapt it to work with our print processes. We can take our own designs from the PRINTLAB+ Library and recolour or rework them to suit your design needs.

Start with a preliminary sketch or a full design in repeat that's ready to print, our studio team can assist you with your artwork and project.

With a skilled design studio, expertly trained in CAD design, we can offer assistance in:

- Producing artwork for specific themes
- Change colours, scale and orientation of a design
- Making patterns repeat and side match
- Providing proofs and pre-production samples.

& Design Service

Quality.

Using the latest software & digital printing technology we can give you greater flexibility with design over traditional printing processes.

We can offer a wider choice of colour, greater detail and choice of design effects. Minimum quantities for production can be kept to minimums as low as 150 metres which allows creativity to bloom without the high cost of bulk ordering.

Edmund Bell is a leading global supplier of fabrics and accessories to the commercial, institutional and residential interiors markets; offering design-led technical expertise, support and service to designers, specifiers and contractors in the hospitality, leisure, healthcare and education sectors.

6978	FR Sentinel MRSA Polyester 137cm 350gms +/- 5%	Waterproof Upholstery 100,000 Martindale	BS 5852 Crib 5, IMO FTP Code 2010 Part 8	Routine Soap and warm water sponging is effective for ordinary soiling. Fresh stains, both water and oil based are easily removed using most water based household spray cleaning agents. Antiseptic cleaning agents can be used and more stubborn stains may require the use of a safe solvent such as Isopropyl Alcohol or Mineral Spirit. A half cup of household bleach for 5 litres of water can also be used as a useful disinfectant. Best cleaning method is "wipe and dry" technique, full immersion is not recommended. Do not dry clean Will not support microbial growth including:- Aspergillus Niger - EColi - Altinata - Salmonella – Penicilliam - Staphylococcus Aureus(MRSA) – Cladosporium Herbarism AATCC Test Method 147 1998 AATCC Test Method 30 1998.
6914	FR Enduracare MRSA Polyester Twill 140cm 350gms +/- 5%	Waterproof Upholstery 50,000 Martindale	BS 5852 Crib 5, IMO FTP Code 2010 Part 8	

Soapless detergent to be used on all of the above base cloths. No fabric conditioners/softeners or freshener sprays to be used as this can adversely affect FR properties. A tolerance of +/- 3% should be allowed for on pattern repeats as it can vary from quality to quality. Shade variations may occur batch to batch but we will endeavour to maintain good colour continuity. Please inspect all goods before cutting as no claims can be accepted or exchanges made once the material has been cut.
