INSPIRA

YOUR STYLE, YOUR BATHROOM

Roca

www.uk.roca.com/inspira

The creation of Inspira

Select, combine, and unite your design with confidence - style guaranteed. With their perfect alignment you are free to be creative with the reassurance of a winning design combination.

This is the beauty of Inspira, a collection of complementary styles that harmoniously combine to ensure perfect results regardless of the chosen design approach, for guaranteed style in the bathroom.

An Inspired Concept

"YOUR STYLE, YOUR BATHROOM"
Roca presents Inspira, a new bathroom design concept.

Conceived from the most essential of geometrical shapes, Inspira is a system based on three design lines; Round, Soft and Square which, as well as providing design solutions on their own, also work in perfect harmony with each other when combined.

At Roca we know that your bathroom is a reflection of your personality. Whatever your personal style or aspiration, Inspira offers you the flexibility to create your own individual solution.

Three design lines

The new, versatile vitreous china and furniture collection offers three design lines and multiple combinations so, whatever the desired style, you can find the design solution to create the perfect bathroom space.

INSPIRA® **ROUND**

Stylish, pure and gracious
Its elegant and gentle form makes the natural geometry intriguingly beautiful

INSPIRA® **SOFT**

A result of the fusion between **Square** and **Round**, which broadens the aesthetic appeal

INSPIRA® **SQUARE**

Minimal defined and precise
Its sleek shape will enhance architecture by offering a subtle addition to the design aesthetic

SOPHIE'S BATHROOM

Sophie is a 30 year old ballet dancer who lives in Paris.

Sophie spends her days training to improve the flexibility and coordination needed to develop softness and delicate movements in her dancing. When she arrives home she seeks a sanctuary in which to relax and unwind.

This is why Sophie has chosen Inspira ROUND, which offers smooth and sophisticated design lines, together with the White Gloss furniture finish combine perfectly to create a feminine and serene space.

PAUL'S BATHROOM

Paul, 42, is a professional Architect who lives in Barcelona.

He is meticulously detailed and a perfectionist who likes pure design lines which provide visual order to his surroundings. He may be flexible at work, but at home this is the only way he can live in harmony.

After careful consideration Paul has opted for the straight and square forms of Inspira SQUARE, creating a minimalist, defined and precise environment, emphasised by the City Oak/Dark Mirror Glass furniture finish.

IRINA & PETER'S BATHROOM

Irina, 33, and Peter, 36, are lawyers in a small law firm based in Moscow and are partners both inside and outside of work. Both are pragmatic and resolute in their day to day, but when they return home they like to relax in a warm and contemporary environment, with natural and organic elements to help them feel calm.

For this reason, Irina and Peter have found the perfect design balance by combining Inspira SQUARE and Inspira SOFT with the City Oak furniture finish, a clean and sleek aesthetic softened with natural materials.

CLAUDIA'S BATHROOM

Claudia, 26, is an Industrial Designer who lives in Sao Paulo.

Having just arrived in the city, she has settled into an apartment which, although small, is centrally located. Claudia loves simple and minimalist looks which she can personalise with her own accessories.

Claudia has therefore chosen to combine a compact Inspira ROUND WC with a UNIK basin and double drawer furniture unit to make the most of the space available.

Your Style, Your Bathroom

Whoever you are, whatever your style, Inspria offers you the ideal solution.

One single collection, three design lines. Choose your preferred style or simply combine freely from the collection. One thing is for sure, the result will always be perfect.

Infinite combinations. Infinite spaces

Offering simplicity together with advanced aesthetics, the Inspira collection provides modern sophistication making it the ideal choice for all types of private and commercial bathrooms.

Inspira Collection

Inspira includes a wide range of washbasins, WCs, bidets and furniture for a complete bathroom experience.

Washbasins

Discover the wide range of Inspira washbasins, and choose the design which best suits your needs.

FINECERAMIC®

Inspira washbasins are manufactured using FINECERAMIC®, a new high-quality ceramic material exclusive to Roca.

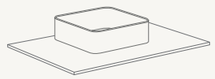

Precise
More precision, allowing sophisticated design details and shapes which were not previously possible in standard ceramics

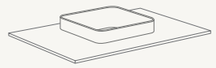

Lightweight
Up to 40% lighter than conventional washbasins

Stronger
Up to 30% greater tensile strength compared to most standard fired ceramics

100% Ceramic
Easy to clean, non porous and resistant to abrasive cleaning products

On countertop

In countertop

Wall-hung

Furniture

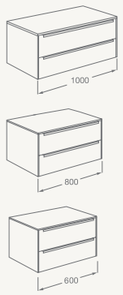

The Inspira washbasins and furniture have been created in unison to ensure a perfect combination and provide a broad choice of design options.

Wide range
The Inspira furniture collection is available in three size options with three finishes (listed below)

Modular column unit
The column unit is perfect for increasing storage space without compromising design

Featuring an interior LED light operated by an automatic sensor, glass shelves and full length mirror this is a must for every bathroom space

Storage
The drawer interior is finished in Dark Textured Wood and is divided to organise items within the space, to suit your personal needs

WCs and bidets

Roca remains at the forefront of technology with the WCs in the Inspira collection incorporating the latest flushing innovations.

RIMLESS

The Inspira **wall-hung WC** has optimised design for improved hygiene

Easier to clean
Smooth interior walls and no rim

Hygienic
Uniform distribution of water washes the entire surface of the bowl

Wall-hung
Both the WC and the seat have integrated hidden fixings for a seamless look

Compact
Ideal for smaller bathrooms the compact close-coupled option is designed specifically for when space is of a premium

SUPRALIT®

Inspira **seats and covers** for WCs and bidets are made of SUPRALIT®, a resin exclusive to Roca

More durable
30% stronger and 12% more resistant to chemicals and discolouration

More hygienic
4 times less porous material

Easier to clean
Surface with smoother, rounded edges

Soft-close
Seats and covers are available with soft-close hinges for smooth operation, avoiding unexpected loud noises

Close-coupled

Compact close-coupled

Since 1917, focusing on improving your bathroom experience

AFTER NEARLY 100 YEARS, ROCA HAS PRESENCE IN MORE THAN 135 MARKETS, ALL SUPPLIED FROM ITS 75 PRODUCTION PLANTS AND MORE THAN 20,000 DEDICATED EMPLOYEES AROUND THE WORLD.

Roca is a family-owned company dedicated to the creation of bathroom spaces. It has grown thanks to its efforts in **innovation, design and sustainability** to become a leader in the bathroom sector.

The company, **founded in 1917**, started its activity manufacturing cast iron radiators for domestic use. Over time and thanks to the innovative spirit that has always defined Roca, the business evolved towards the creation of what we now know as bathroom spaces.

The bathroom space

Its first factory was set up in Gavà (Barcelona), where it shifted from producing radiators to boilers. The manufacturing of cast iron bathtubs started in 1929 and one year later the first commercial faucets started being produced. However, the most important leap was taken in 1936 when, in response to market demands, Roca started the production of vitreous china bathroom fittings.

In the sixties, Roca advanced in terms of sustainability, reducing the water consumption required for its cisterns. These were also years with a clear commitment to innovation and design, values assimilated by the company in all its ranges. As a result the **Roca Design Centre** was set up, a new product development centre which also works on the revision and improvement of existing product ranges in its five business units across the globe.

New horizons

The 70s were years of growth and expansion, with the setting up of subsidiaries in France and Portugal. One decade later and with the philosophy of improving its products, the company took a new step forward and **started collaborating with the most relevant architects and designers.** As a result of these alliances, some of the most emblematic Roca collections were created, together with **David Chipperfield**, **Herzog & De Meuron** and **Giorgetto Giugiaro**, amongst others.

From then on, and particularly in the 90s, Roca continued its international expansion in order to achieve its current presence in more than **135 markets**, supplied by its 75 production plants and more than **20,000 employees around the world**.

Roca Galleries

With the aim of sharing its history, transmitting its values and offering a real brand experience, in 2009 the company opened the **Roca Barcelona Gallery**, a building with an avant-garde architecture open to the city in which, as well as displaying its collections and products, social and cultural events related to design, architecture, innovation and sustainability are held. The brand's flagship building has increased its presence with openings in **Madrid**, **Lisbon, London** and **Shanghai**.

International fame

The prestige acquired throughout nearly one century has allowed Roca to be present in some of the most emblematic buildings and spaces around the world. Today, the Roca brand is linked to some of the greatest international architectural firms, large business centres, luxury hotels, theatres, cultural spaces and historic monuments such as the **Eiffel Tower** (Paris), the **Pantanal Estadio Arena** (Brazil), the **Bolshói theatre** (Moscow) or the **Sheraton Huzhou Spring Resort** (China), among others, who have trusted the company to competently equip their bathroom spaces with quality, innovative design products synonymous with a brand like Roca.

Principle of sustainability

Roca´s worldwide references also demand a high degree of responsibility. For this reason, driven by the importance of preserving the environment, Roca has lead different initiatives throughout the years, such as **Zero Waste** or **Eco-Roca**, to reduce industrial waste and carbon dioxide emissions into the atmosphere in all its factories.

However, Roca´s commitment to the planet goes beyond the production processes. So much so that in 2010 it set up the **We Are Water Foundation** with the aim of raising awareness, among the public and institutions, of the need to commit to a new water culture that allows a **fair development and sustainable management of the water resources in the world**. Showing Roca's commitment and solidarity to the people and communities most affected by the lack of access to clean drinking water.
