ARMANI / Roca

BAIA COLLECTION

"The fact that our home is the most intimate place of our lives and the space where we express our own personality in the most sincere way is something that fascinates me. When I think of the bathroom area of a home, I know that this must be durable and conceived ignoring temporary trends".

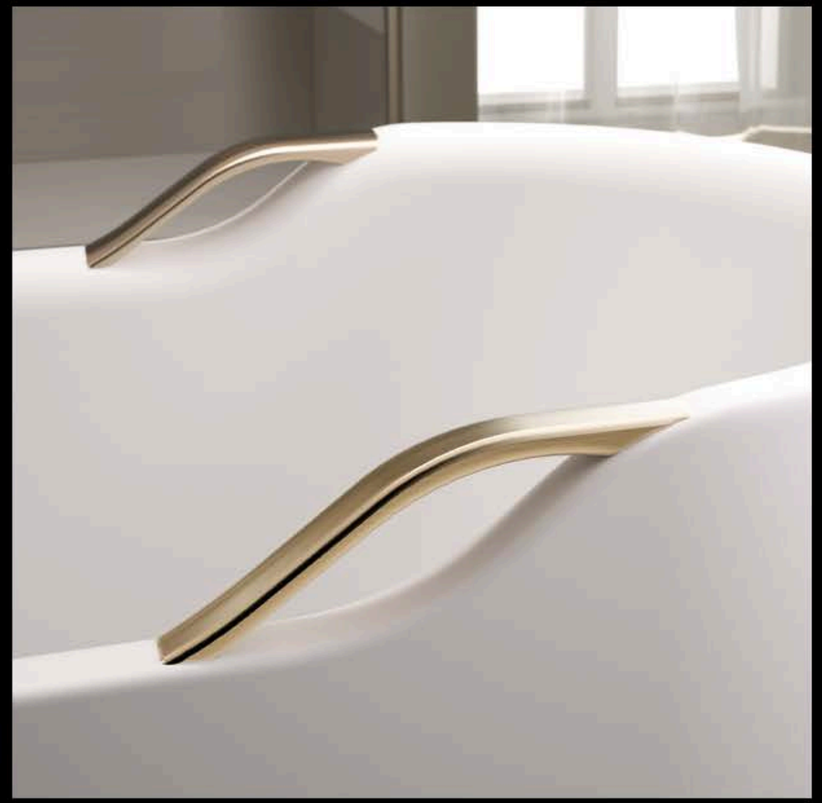

BAIA

The aesthetic of the bathroom collection Baia Armani/Roca intentionally references the past but is brought up to date by being interpreted in a modern manner and the incorporation of avant-garde technology. Particular attention has been paid to the ergonomics of each piece, while providing an exquisite sense of well-being.

The result is a versatile bathroom collection, which manages to be both contemporary and timeless, in accordance with Giorgio Armani's well-known design philosophy.

PRODUCT SPECIFICATIONS

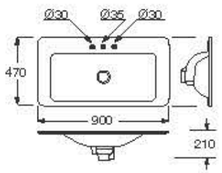

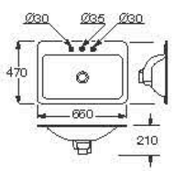

WASHBASINS

The wide range of countertop and over countertop washbasins offers endless combinations with different kinds of faucets, allowing the adaptation of the pieces to suit every type of bathroom. The introduction of surprising metallic finishes helps to create bathroom spaces of increased sophistication and elegance. Two luxurious shades – a matte gold and dark metallic – are used in a revised version of the shagreen finish. The resulting shagreen matte gold and shagreen dark metallic add a touch of unusual elegance. The assortment of basins is extended to feature a pedestal in a strictly harmonious form, with the possibility of practically integrating a metal towel rail in various finishes.

FAUCETS & SHOWERS

The classically inspired faucets; deck-mounted and built-in basin faucets, bidet faucet, thermostatic shower column faucet and thermostatic freestanding bathtub faucet are all available in three finishes: greige, brushed steel and chrome. One of the peculiarities of the bathtub and shower faucet is that, in spite of their classical inspiration, they are equipped with innovative thermostatic technology delivering thoroughly modern efficiency, a constant feature in this retro-look range of faucets.

WELLNESS

The freestanding bathtub, with its luxurious retro-look, makes a perfect focal piece for any bathroom. Revised with a contemporary tone and paying special attention to ergonomics and comfort, the lines of this bathtub are soft and sinuous. It is also available in an elegant version embellished with four metal handles in three finishes (greige, brushed steel and chrome). These handles are beautiful and functional details which match the rest of the collection.

The importance of flexibility and the element of 'made-to-measure' is evident in the shower tray, which comes in extra-fine resin in custom-made sizes, and is presented in a unique collection-texture and finishes.

FURNITURE

The impressive iconic highlight of the collection is an elegant piece of furniture with a washbasin and metallic profiles, and an integrated metal towel rail. This respects maximum functionality, while emanating a sense of comfort and convenience. Available both in off-white lacquered wood and greige oak-veneered wood, this piece will instantly endow any bathroom with an undeniably luxurious touch.

To complement this exclusive piece, there is a wide range of furniture in various sizes with upper and lower drawer and back painted glass countertop, available for all the BAIA collection washbasins.
