LOVELY PEOPLE INSPIRING SPACES

Hello. We are here to remove the hassle, own your project and create your Space. We are specialists in the design and supply of contract furniture. Creators of inspiring and functional interiors. Experts in project managing full turnkey solutions from concept to handover. Delivering beautiful spaces safely, on time and on budget.

PROCUREMENT

As a leading contract furniture specialist we are able to provide a diverse, ever-evolving collection of products, suitable for all commercial environments. We source the latest designs from Europe, alongside our UK manufactured products and even manufacture bespoke items from your concepts or imagery, all in under 6 weeks.

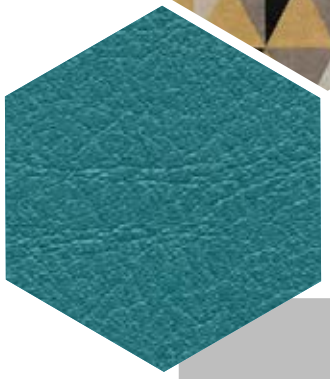

DESIGN

There's nothing we love more than bringing your ideas to life. To do this we take the time to truly understand what you want to achieve. Our experienced design team will work with you, creating spatial layouts using CAD and modelling your space in 3D so you can visualise your interior scheme.

PROJECT MANAGEMENT

We have a dedicated and experienced team to project manage your furniture installation. From concept to completion and beyond, our Project Managers understand exactly what is needed to partner you throughout, ensuring that final results exceed expectations.

INSTALLATION AND BEYOND

We'll make sure your installation is hassle free. No unboxing, no getting tangled up in packaging. Each item assembled and in it's place. Are you ready to step into your new space? We'll hand it over to you on time, ready to be enjoyed. Operation & Maintenance manuals and warranty information will be compiled for you - making caring for you new furniture easy. And we're always on the end of the phone if you need us.

WHY SPACE GROUP?

SPACE GROUP

HOW WE DO IT

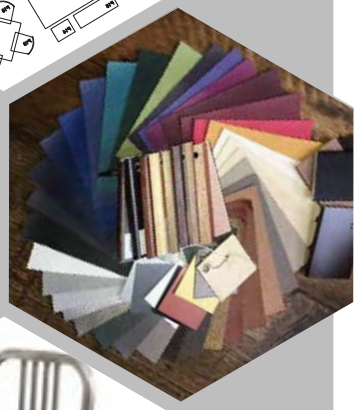

LAYOUT PLANS

It's important for us to understand the way your furniture needs to work. A quick chat is all it takes, from there we can shape plans, suitable to your brief and addressing any concerns you may have with the environment, such as acoustics. We'll suggest ways to optimise covers, create features and produce flows that work.

MATERIALS

Material swatches, wood stains and finish samples display the many colours, textures and finishes we can use to bring your scheme to life. Comparing and contrasting helps to form a more defined project. We will work with you, making sure the materials suit your scheme and are suitable for your use.

SAMPLES

Physical samples can sometimes help finalise design decisions. Wherever possible, we endeavour to get these to you for review to gain an appreciation for a chairs volume, comfort and construction.

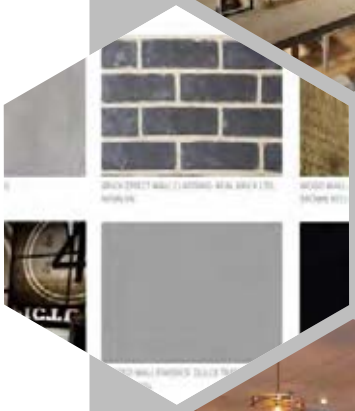

VISUALISATIONS

Take a step into your finished space before a single piece of furniture is on site. Experience how your scheme feels and make sure the flow is right for you. See how the scale of your furniture pieces and materials interact with each other.

FINISHES SCHEDULE

Once an order is received, it is imperative that every detail is clearly confirmed. This document is the final checklist to ensure every fabric, wood stain, RAL colour and dimension is correct before we get underway.

FINISHED PROJECT

We will always aim to exceed your expectations. We're not happy until you are and we're most proud of the client partnerships we build, working together on multiple projects. Our existing clients include Pinewood Studios, The Hut Group and Rolls Royce, to name just a few.
