Ultrafabrics®

We See High-Performance Fabrics Differently

Ultrafabrics creates materials for tomorrow by uniting Japanese craftsmanship and purposeful innovation.

Based in state-of-the-art engineering, we design intelligent, next-generation materials that combine high-performing functionality and comfort in an array of design styles that speak to the senses. Focused on unlimited creativity, lasting durability and greener solutions, Ultrafabrics is always innovating and evolving — with people and planet in mind.

This material was made to suit life. We want our environments to look beautiful and we want them to last. We believe this requires a superior performance fabric. Made for humans, by humans, each roll of material that leaves our mill was created with purpose.

Touch the Future®

Our tagline Touch the Future®, is not just a tagline, it is a promise to our clients and to consumers. Our fabrics go beyond the basic expectations of function and comfort by interacting with the human senses.

Providing a soft and tactile environment with luxurious textures and an extensive colour offering, an interior or product with Ultrafabrics can promote mindfulness and calm.

Extraordinary Materials for Extraordinary Spaces

Antimicrobial Protection
Breathable Comfort
Bio-Based Offering
Ink & Stain Resistance
Outdoor & High UV Protection—

Our Solution Options

Designed for Everyday Living

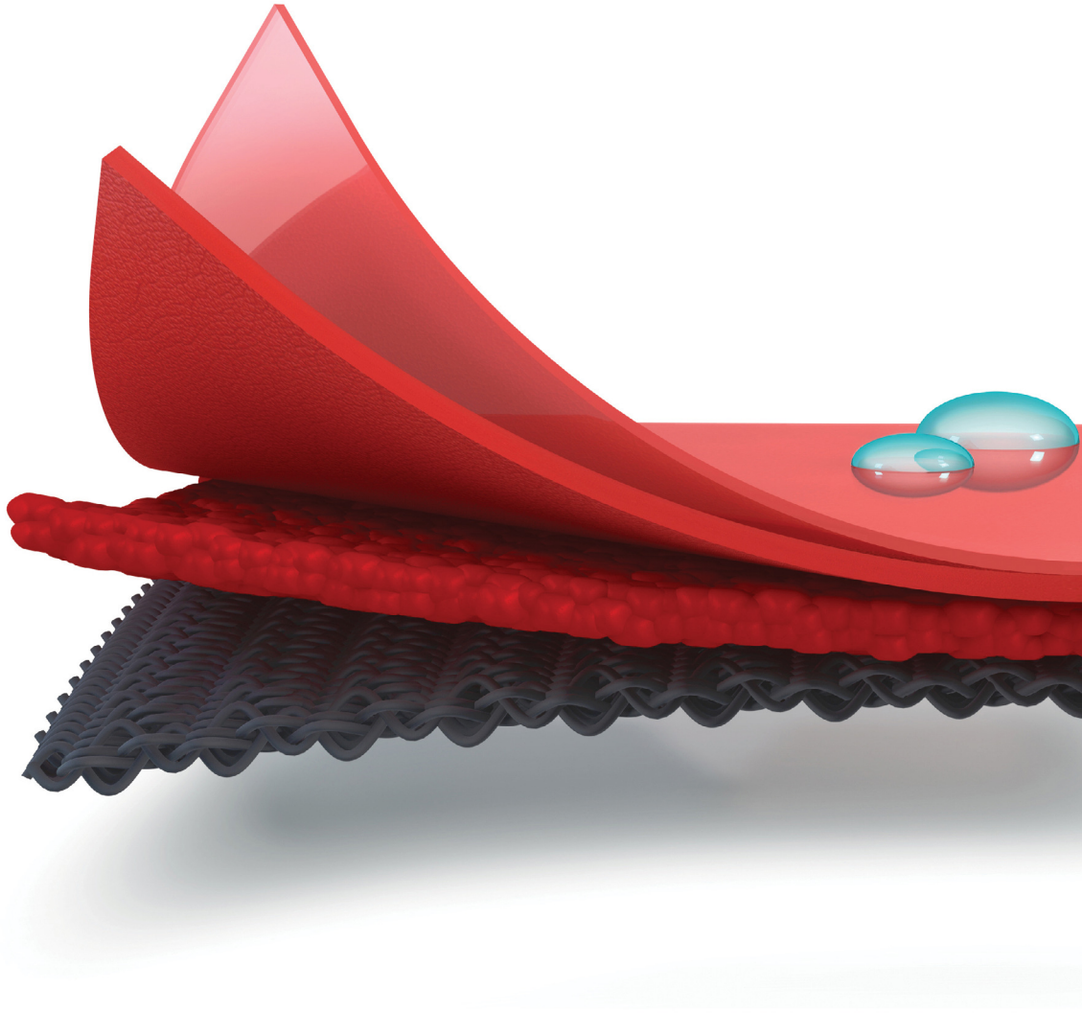

One of the best ways to keep Ultrafabrics looking great and germ-free is through proper maintenance and regular cleaning to prevent excessive dirt from accumulating. Due to our a premium polycarbonate construction, we are able to stay ahead of many cleaning challenges.

01 Inherently Stain Resistant
02 Bleach-cleanable
03 Repels liquids and moisture
04 Withstands a variety of cleaners including those recommended by the CDC to combat viruses like COVID-19
05 No delamination or fading

Crafted Intelligence

Five decades of Japanese craftsmanship is embedded in every Ultrafabrics material. Our proprietary Takumi™ Technology reflects the hands-on process in which our products are developed, from concept to application.

The Japanese word for artisan, Takumi unites high performance and comfort in one superior fabric, which is a result of our dedication to perfection paired with a passion for innovation and pushing expectations.

01 Premium polycarbonate construction
02 14+weeks hydrolysis resistance
03 Inherent thermal comfort

Future-focused

As a future-focused company, Ultrafabrics aims to pioneer innovative materials that conserve resources and protect the wellbeing of people and planet. Through continuous innovation, we focus on creating materials suited for our future as we work towards more circular processes and design.

Material Health

01 100% free of PVC, HFRs and plasticisers
02 Always animal-free
03 Biobased collection available

Manufacturing Innovation

01 Japanese mill is ISO 14001 certified
02 Reduced freshwater during manufacturing by 3.2 million gallons annually*
03 99% of solvents recovered + recycled

Certifications | Compliance

01 Indoor Advantage Gold Certified
02 REACH Compliant
03 PETA Approved
04 Health Product Declarations Available
05 Select collections comply with Health Care Without Harm's Healthy Interiors Criteria V2.3

* Based on 2019 manufacturing data
